

PROSPECTUS

\$150,000,000  
NewHold Investment Corp.  
15,000,000 Units

NewHold Investment Corp. is a newly organized blank check company formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which we refer to as our initial business combination. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target. While we may pursue an acquisition opportunity in any business, industry, sector or geographical location, we intend to identify and acquire a business focusing on industrial technology. We will seek to acquire one or more businesses with an aggregate enterprise value of \$700 million or greater.

This is an initial public offering of our securities. Each unit has an offering price of \$10.00 and consists of one share of our Class A common stock and one-half of one redeemable warrant. Each whole warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as described herein. Warrants may be exercised only for a whole number of shares of Class A common stock. The warrants will become exercisable on the later of 30 days after the completion of our initial business combination or 12 months from the closing of this offering, and will expire five years after the completion of our initial business combination or earlier upon redemption or liquidation, as described in this prospectus. The underwriters have a 45-day option from the date of this prospectus to purchase up to an additional 2,250,000 units to cover over-allotments, if any. We will provide our public stockholders (as defined herein) with the opportunity to redeem all or a portion of their shares of our Class A common stock upon the completion of our initial business combination, subject to the limitations described herein. If we are unable to complete our initial business combination within 24 months from the closing of this offering, we will redeem 100% of the public shares (as defined herein) for cash, subject to applicable law and certain conditions as further described herein.

*(Prospectus cover continued on the following page)*

**We are an “emerging growth company” under applicable federal securities laws and will be subject to reduced public company reporting requirements. Investing in our securities involves a high degree of risk. See “Risk Factors” beginning on page 28 for a discussion of information that should be considered in connection with an investment in our securities. Investors will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings.**

***Neither the U.S. Securities and Exchange Commission (the “SEC”) nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.***

	Per Unit	Total
Public offering price	\$ 10.00	\$ 150,000,000
Underwriting discounts and commissions <sup>(1)</sup>	\$ 0.55	\$ 8,250,000
Proceeds, before expenses, to NewHold Investment Corp.	\$ 9.45	\$ 141,750,000

(1) Includes \$0.35 per unit, or \$5,250,000 (or up to \$6,037,500 if the underwriters’ over-allotment option is exercised in full) in the aggregate payable to the underwriters for deferred underwriting commissions to be placed in the trust account described below. The deferred commissions will be released to the underwriters only upon completion of our initial business combination, as described in this prospectus. The underwriters will receive compensation in addition to the underwriting discount. See the section of this prospectus entitled “Underwriting” beginning on page 138 for a description of compensation and other items of value payable to the underwriters.

Of the proceeds we receive from this offering and the sale of the private placement warrants described in this prospectus, \$150,000,000, or \$172,500,000 if the underwriters’ over-allotment option is exercised in full (\$10.00 per unit in either case), will be deposited into a trust account in the United States with Continental Stock Transfer & Trust Company acting as trustee, and \$1,500,000 will be available outside of the trust account to pay fees and expenses in connection with the closing of this offering and for working capital following the closing of this offering.

The underwriters are offering the units for sale on a firm commitment basis. The underwriters expect to deliver the units to the purchasers on or about August 4, 2020.

Sole Book-Running Manager

**Stifel**

Co-Manager

I-Bankers Securities, Inc.

July 30, 2020

*(Prospectus cover continued from preceding page.)*

Our sponsor, NewHold Industrial Technology Holdings LLC, and certain funds and accounts managed by Magnetar Financial LLC, UBS O'Connor LLC, and Mint Tower Capital Management B.V., which we refer to collectively as the "anchor investors" throughout this prospectus, have agreed to purchase an aggregate of 5,250,000 warrants (or 5,700,000 warrants if the underwriters' over-allotment option is exercised in full) at a price of \$1.00 per warrant (\$5,250,000 in the aggregate, or \$5,700,000 if the underwriters' over-allotment option is exercised in full) in a private placement that will close simultaneously with the closing of this offering. These warrants, which we refer to as the "private placement warrants," are identical to the warrants sold as part of the units in this offering, subject to limited exceptions as further described herein.

The anchor investors have expressed to us an interest to purchase an aggregate of \$40,000,000 of units in this offering (or \$46,000,000 of units if the underwriters' over-allotment option is exercised in full). For a discussion of certain additional arrangements with the anchor investors, please see "Summary — The Offering — Expressions of Interest."

Our initial stockholders, which include our sponsor and the anchor investors, own an aggregate of 4,312,500 shares of our Class B common stock (up to 562,500 of which are subject to forfeiture by the sponsor and the anchor investors depending on the extent to which the underwriters' over-allotment option is not exercised in full or in part), which will automatically convert into shares of Class A common stock at the time of our initial business combination as described herein. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts offered in this prospectus and related to the closing of the initial business combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon the completion of this offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the initial business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial business combination, any private placement-equivalent warrants issued to our sponsor or its affiliates upon conversion of loans made to us).

Currently, there is no public market for our units, Class A common stock or warrants. Our units have been approved for listing on The Nasdaq Capital Market, or Nasdaq, under the symbol "NHICU". We expect that our units will begin trading on Nasdaq promptly after the date of this prospectus. We expect that the Class A common stock and warrants comprising the units will begin separate trading on the 52<sup>nd</sup> day following the date of this prospectus unless Stifel, Nicolaus & Company, Incorporated, the representative of the underwriters, informs us of its decision to allow earlier separate trading, subject to our satisfaction of certain conditions. Once the securities comprising the units begin separate trading, we expect that the Class A common stock and warrants will be listed on Nasdaq under the symbols "NHIC" and "NHICW," respectively.

This prospectus is not a prospectus for the purposes of the Prospectus Regulation (as defined below). This prospectus and any offer if made subsequently is directed only at persons in Member States of the European Economic Area (the "EEA") or in the United Kingdom (the "UK") (each, a "Relevant State") who are "qualified investors" within the meaning of Article 2(e) of the Prospectus Regulation. This prospectus has been prepared on the basis that any offer of our securities in any Relevant State will be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of our securities. Accordingly any person making or intending to make an offer in that Relevant State of our securities which are the subject of the offering contemplated in this prospectus may only do so in circumstances in which no obligation arises for NewHold Investment Corp. or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Regulation in relation to such offer. Neither we nor the underwriters have authorized, nor do we or they authorize, the making of any offer of our securities in circumstances in which an obligation arises for us or the underwriters to publish a prospectus for such offer. The expression "Prospectus Regulation" means Regulation (EU) 2017/1129.

This prospectus may not be distributed or circulated to any person in the UK other than to (i) persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Order"); and (ii) high net worth entities falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as "relevant persons"). This prospectus is directed only at relevant persons. Other persons should not act on this prospectus or any of its contents. This prospectus is confidential and is being supplied to you solely for your information and may not be reproduced, redistributed or passed on to any other person or published, in whole or in part, for any other purpose.

**We are responsible for the information contained in this prospectus. We have not authorized anyone to provide you with different information, and we take no responsibility for any other information others may give to you. We are not, and the underwriters are not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information contained in this prospectus is accurate as of any date other than the date on the front of this prospectus.**

## SUMMARY

*This summary only highlights the more detailed information appearing elsewhere in this prospectus. You should read this entire prospectus carefully, including the information under the section of this prospectus entitled "Risk Factors" and our financial statements and the related notes included elsewhere in this prospectus, before investing. Unless otherwise stated in this prospectus, or the context otherwise requires, references to:*

- *"anchor investors" are certain funds and accounts managed by Magnetar Financial LLC, UBS O'Connor LLC, and Mint Tower Capital Management B.V., who have expressed to us an interest to purchase a portion of an aggregate of \$40,000,000 of units in this offering (or \$46,000,000 of units if the underwriters' over-allotment option is exercised in full), as further described herein;*
- *"common stock" are to our Class A common stock and our Class B common stock, collectively;*
- *"founder shares" are to the 4,312,500 shares of our Class B common stock initially purchased by our sponsor and the anchor investors in a private placement prior to this offering (including up to an aggregate of 562,500 shares of our Class B common stock subject to forfeiture by our sponsor and the anchor investors depending on the extent to which the underwriters' over-allotment option is not exercised in full or in part), and the shares of our Class A common stock issued upon the conversion thereof as provided herein;*
- *"initial stockholders" are to the holders of our founder shares prior to this offering (or their permitted transferees);*
- *"management" or our "management team" are to our officers and directors;*
- *"private placement warrants" are to the warrants to be issued to our sponsor and the anchor investors in a private placement simultaneously with the closing of this offering;*
- *"public shares" are to shares of our Class A common stock sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market);*
- *"public stockholders" are to the holders of our public shares, including our initial stockholders and management team to the extent our initial stockholders and/or members of our management team purchase public shares, provided that each initial stockholder's and member of our management team's status as a "public stockholder" shall only exist with respect to such public shares;*
- *"public warrants" are to our redeemable warrants sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market), to the private placement warrants if held by third parties other than our sponsor and the anchor investors (or their permitted transferees), and to any private placement warrants issued upon conversion of working capital loans that are sold to third parties that are not initial purchasers or executive officers or directors (or permitted transferees), in each case, following the consummation of our initial business combination;*
- *"sponsor" are to NewHold Industrial Technology Holdings LLC, a Delaware limited liability company;*
- *"warrants" are to our redeemable warrants, which includes the public warrants as well as the private placement warrants to the extent they are no longer held by our sponsor or the anchor investors or their permitted transferees; and*
- *"we," "us," "company" or "our company" are to NewHold Investment Corp., a Delaware corporation.*

*Each unit consists of one share of Class A common stock and one-half of one redeemable warrant for each unit purchased. Each whole warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as described in this prospectus. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase a multiple of two units, the number of warrants issuable to you upon separation of the units will be rounded down to the nearest whole number of warrants.*

*Unless we tell you otherwise, the information in this prospectus assumes that the underwriters will not exercise their over-allotment option.*

## Our Company

We are a newly organized blank check company incorporated in January 2020 as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target.

While we may pursue an acquisition opportunity in any business, industry, sector or geographical location, we intend to focus on industries that complement our management team's background, and to capitalize on the ability of our management team to identify and acquire a business. We will seek to acquire one or more businesses with an aggregate enterprise value of \$700 million or greater.

## Business Opportunity Overview

We will concentrate on sourcing business combination opportunities with industrial technology businesses, with particular emphasis on those that align with several key themes commonly referred to as "Industry 4.0". Our management team will target business-to-business sectors whose industry structure is being fundamentally reshaped by technology. We believe that companies in these sectors that are using advanced data analytics, software, artificial intelligence, and cutting edge instrumentation and process automation to make their processes "intelligent" have a significant competitive advantage over those that have not yet embraced such solutions.

We are not, however, required to complete our initial business combination with an industrial technology business and, as a result, we may pursue a business combination outside of that industry. We will seek to acquire businesses that we believe are fundamentally sound but would benefit from a public listing to execute their financial, operational, and strategic plans.

We believe that the opportunity within industrial technology businesses is driven by several key trends, including:

- **Flexible Mass Production.** Commercial customers demand increasing variety and customization resulting in businesses requiring more flexible manufacturing and logistics solutions.
- **Speed and Agility to Market.** Increasing digitization of the selling experience necessitates reducing a product's time to market and increasing its speed of delivery.
- **Supply Chain Optimization.** Effective use of technology is allowing companies to more efficiently and effectively manage complex supply chains without increases in inventory.
- **Efficiency and Productivity Gains.** Organizations continually face pressures from their stakeholders to further reduce costs and environmental impact while increasing output and financial returns.
- **Design and Manufacturing Optimization.** Designers and engineers desire the ability to economically manufacture a product that very closely matches its optimal design.
- **Energy Efficiency.** All energy users are demanding the latest in efficiency technology, both to reduce cost and to demonstrate attention to their carbon footprint.

According to KPMG, enterprise spend on intelligent automation, defined as "technologies that enable the transformation and automation of business processes by leveraging any combination of software robotics, cloud, artificial intelligence and smart machines," is expected to reach \$231.9 billion by 2025 (KPMG, *Ready, set, fail? Avoiding setbacks in the intelligent automation race*, 2018 and KPMG, *Easing the pressure points: The state of intelligent automation*, 2019). Organizations have invested significant capital to modernize their production processes in recent years. According to Capgemini Research Institute, manufacturers globally made 30% of their factories "smart" from 2018 to 2019, and plan to transform 40% more from 2020 to 2025 (Capgemini, *Smart Factories at Scale*, 2019).

Consistent with this strategy, we have identified the following general criteria and guidelines that we believe are important in evaluating prospective target businesses. We will focus on these criteria and guidelines in evaluating

acquisition opportunities, but we may decide to enter into our initial business combination with a target business that does not meet these criteria and guidelines.

- **Companies that operate in industries and sectors that are ripe for technological disruption or are currently undergoing technological transformations.** We plan to identify sectors that are in the process of or have significant potential to adopt an industrial technology solution. We will seek to acquire a business that operates within an industry that is witnessing at least one or more trends, mentioned above, which we believe are driving the opportunity within industrial technology.
- **Companies with an attractive and defensible competitive position.** We will target companies with market positions and technologies that we believe offer long-term competitive advantages. These could include proprietary technology, a market leading product suite, unique processes, strong market share, or a culture of innovation that we believe is enduring and unique.
- **Companies with high revenue growth, or with the potential for high revenue growth.** We will seek to acquire businesses that have or are believed to achieve significant revenue growth primarily driven by either adopting or providing an industrial technology solution to disrupt the existing paradigm or increase its market position in the end markets in which it serves. To validate future demand, we look for businesses that can clearly demonstrate a compelling return on investment by either adopting or providing an industrial technology solution and the size of the addressable opportunity.
- **Companies that exhibit the ability to deliver significant operating leverage and future free cash flow whether they may or may not be profitable currently.** We will seek to acquire businesses that already have, or have the potential to generate consistent and increasing free cash flow. We do not require the target businesses to be profitable at the time of acquisition, but expect gross margins and contribution margins to be above, or at least in line with, relevant competitors. We view businesses with high gross margins and contribution margins favorably as these businesses possess the potential to deliver significant operating leverage and free cash flow when fully scaled.
- **Knowledgeable management teams with relevant industry experience and proven track record of developing or deploying a technology solution.** We aim to target businesses with expert management teams that have specialized knowledge of their respective industry sector and are active leaders in developing or deploying technology to provide a solution for a problem or challenge within their respective industry sector.
- **Benefit from being a public company.** We intend to acquire a company that will benefit from being publicly traded and can effectively utilize the broader access to capital and public profile that are associated with being a publicly traded company.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management may deem relevant.

#### **Competitive Strengths**

##### ***Accomplished Leadership Team with Relevant Investment, Public Company and Prior Successful SPAC Experience***

Our team has over 60 years of combined private equity experience, complemented by extensive public market expertise that includes successful execution of three prior SPAC business combinations. Kevin Charlton, our Chief Executive Officer, served as an executive officer of, and played an integral role throughout all phases of the SPAC process for, Hennessy Capital Acquisition Corp., Hennessy Capital Acquisition Corp. II and Hennessy Capital Acquisition Corp. III, including the initial public offering, deal sourcing, due diligence, deal structuring, financing, and back-end execution of the initial business combinations.

##### ***History of Successfully Sourcing and Executing Transactions as a Team***

NewHold Enterprises, a private investment firm founded in 2017 which controls our sponsor, has completed two platform acquisitions and two add-ons since its inception. Messrs. Charlton, Baynes-Reid and Deutsch also previously executed five transactions at River Hollow Partners, the predecessor to NewHold Enterprises, all proprietarily sourced.

***Established Track Record of Sourcing Proprietary Opportunities Suitable for both Private and Public Investing***

NewHold Enterprises principals have sourced 325 potential opportunities since its inception in 2017, the vast majority outside of traditional sale processes, funded through a proprietary network of family offices and high net worth individuals. Additionally, Mr. Charlton, in his role as President and Chief Operating Officer of the first three Hennessy Capital SPAC vehicles, was a part of a team that developed a unique SPAC-centered deal sourcing model, which resulted in over 400 targets evaluated over the life of Hennessy Capital Acquisition Corp., Hennessy Capital Acquisition Corp. II and Hennessy Capital Acquisition Corp. III.

***Access to NewHold Enterprises' Proprietary Network of Family Offices and High Net Worth Individuals***

NewHold Enterprises sources capital from a series of family offices, each with generally over \$1 billion of assets under management, and serves as a direct investing platform for such investors, allowing them to leverage their infrastructure and complement their traditional private equity book. NewHold Enterprises' network currently consists of more than 100 family offices and more than 95 high net worth investors.

***Extensive Experience of Investing in Middle-Market Growth Assets***

Our team has extensive experience sourcing and investing in middle market growth companies through private and public investment vehicles. Our focus on flexible hold periods and ownership structures enhances the optionality companies have to focus on operations and integration, and better aligns financial incentives with progressive growth initiatives. Our vehicle and strategy is complementary to NewHold Enterprises' diversified industrials business. With this offering, we seek to offer growth equity to industrial technology companies looking for an alternative to traditional private equity.

**Initial Business Combination**

Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the trust account) at the time of our signing a definitive agreement in connection with our initial business combination. Our board of directors will make the determination as to the fair market value of our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm that is a member of the Financial Industry Regulatory Authority ("FINRA") or an independent accounting firm with respect to the satisfaction of such criteria. While we consider it unlikely that our board of directors will not be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to the value of a target's assets or prospects.

We anticipate structuring our initial business combination either (i) in such a way so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses, or (ii) in such a way so that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders, or for other reasons. However, we will only complete an initial business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the "Investment Company Act". Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the initial business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the initial business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target.

In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of Nasdaq's 80% of net assets test. If the initial business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the transactions and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking stockholder approval, as applicable.

#### **Our Business Combination Process**

In evaluating prospective business combinations, we expect to conduct a thorough due diligence review process that will encompass, among other things, a review of historical and projected financial and operating data, meetings with management and their advisors (if applicable), on-site inspection of facilities and assets, discussion with customers and suppliers, legal reviews and other reviews as we deem appropriate.

We are not prohibited from pursuing our initial business combination with a company that is affiliated with our sponsor, officers or directors. In the event we seek to complete our initial business combination with a company that is affiliated with our sponsor, officers or directors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm that is a member of FINRA or an independent accounting firm that our initial business combination is fair to our company from a financial point of view.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then-current fiduciary or contractual obligations to present the opportunity to such entity, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. We believe, however, that the fiduciary duties or contractual obligations of our officers or directors will not materially affect our ability to complete our initial business combination. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

Our sponsor and our officers and directors, other than Marc Saiontz and Neil Glat, have agreed not to participate in the formation of, or become an officer or director of, any other special purpose acquisition company with a class of securities registered under the Securities Exchange Act of 1934, as amended, or the Exchange Act, until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination within 24 months after the closing of this offering, as such may be extended by stockholder approval. Marc Saiontz and Neil Glat have agreed not to participate in the formation of, or become an officer or director of, any other industrial-focused special purpose acquisition company with a class of securities registered under the Securities Exchange Act of 1934, as amended, or the Exchange Act, until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination within 24 months after the closing of this offering, as such may be extended by stockholder approval.

#### **Corporate Information**

Our executive offices are located at 950 McCarty Street, Building A, Houston, TX 77029, and our telephone number is (212) 653-0153. We are an "emerging growth company," as defined in Section 2(a) of the Securities Act of 1933, as amended (the "Securities Act"), as modified by the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on

executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period. References herein to emerging growth company will have the meaning associated with it in the JOBS Act.

## THE OFFERING

*In deciding whether to invest in our securities, you should take into account not only the backgrounds of the members of our management team, but also the special risks we face as a blank check company and the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. You will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section of this prospectus entitled "Risk Factors."*

<b>Securities offered</b>	15,000,000 units, at \$10.00 per unit, each unit consisting of: <ul style="list-style-type: none"><li>• one share of Class A common stock; and</li><li>• one-half of one redeemable warrant.</li></ul>
<b>Proposed Nasdaq symbols</b>	Units: "NHICU" Class A Common Stock: "NHIC" Warrants: "NHICW"
<b>Trading commencement and separation of Class A common stock and warrants</b>	<p>The units will begin trading on or promptly after the date of this prospectus. We expect the Class A common stock and warrants comprising the units will begin separate trading on the 52<sup>nd</sup> day following the date of this prospectus unless Stifel, Nicolaus &amp; Company, Incorporated, informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the shares of Class A common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into shares of Class A common stock and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase a multiple of two units, the number of warrants issuable to you upon separation of the units will be rounded down to the nearest whole number of warrants.</p> <p>In no event will the Class A common stock and warrants be traded separately until we have filed a Current Report on Form 8-K with the SEC containing an audited balance sheet reflecting our receipt of the net proceeds at the closing of this offering. We will file the Current Report on Form 8-K promptly after the closing of this offering, which is anticipated to take place three business days from the date of this prospectus. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.</p>

**Units:**

Number outstanding before this offering 0  
Number outstanding after this offering 15,000,000<sup>(1)</sup>

**Common stock:**

Number outstanding before this offering 4,312,500 shares of Class B common stock<sup>(2)</sup>  
Number outstanding after this offering 18,750,000 shares of Class A common stock and Class B common stock<sup>(3)</sup>

**Redeemable warrants:**

Number of private placement warrants to be sold in a private placement simultaneously with this offering 5,250,000<sup>(4)</sup>

Number of warrants to be outstanding after this offering and the private placement 12,750,000<sup>(5)</sup>

**Exercisability**

Each whole warrant is exercisable to purchase one share of our Class A common stock and only whole warrants are exercisable. We structured each unit to contain one-half of one redeemable warrant, with each whole warrant exercisable for one share of Class A common stock, as compared to units issued by some other similar blank check companies which contain whole warrants exercisable for one whole share, in order to reduce the dilutive effect of the warrants upon completion of an initial business combination as compared to units that each contain a warrant to purchase one whole share, thus making us, we believe, a more attractive initial business combination partner for target businesses.

**Exercise price**

\$11.50 per share, subject to adjustment as described herein. In addition, if we issue additional shares of common stock or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per share of common stock (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our initial stockholders or their affiliates, without taking into account any founder shares or private placement securities held by them, as applicable, prior to such issuance) (the “newly issued price”), the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the newly issued price.

- (1) Assumes no exercise of the underwriters’ over-allotment option and the forfeiture by our sponsor and the anchor investors, collectively, of 562,500 founder shares.
- (2) Includes up to an aggregate of 562,500 shares that are subject to forfeiture by our sponsor and the anchor investors, collectively, depending on the extent to which the underwriters’ over-allotment option is not exercised in full or in part.
- (3) Comprised of 15,000,000 shares of Class A common stock and 3,750,000 shares of Class B common stock (or founder shares). The Class B common stock is convertible into shares of our Class A common stock on a one-for-one basis, subject to adjustment as described below adjacent to the caption “Founder shares conversion and anti-dilution rights.” Assumes the underwriters’ over-allotment has not been exercised and an aggregate of 562,500 shares of Class B common stock held by our sponsor and the anchor investors have been forfeited. If the over-allotment option is exercised in full, there will be a total of 21,562,500 shares of common stock issued and outstanding.
- (4) Assumes no exercise of the underwriters’ over-allotment option. If the over-allotment option is exercised in full, there will be a total of 5,700,000 private warrants issued and outstanding.
- (5) Assumes no exercise of the underwriters’ over-allotment option. If the over-allotment option is exercised in full, there will be a total of 14,325,000 warrants issued and outstanding, including an aggregate of 5,700,000 private warrants.

**Exercise period**

The warrants will become exercisable on the later of:

- 30 days after the completion of our initial business combination, or
- 12 months from the closing of this offering;

provided in each case that we have an effective registration statement under the Securities Act covering the shares of Class A common stock issuable upon exercise of the warrants and a current prospectus relating to them is available (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement).

We are not registering the shares of Class A common stock issuable upon exercise of the warrants at this time. However, we have agreed that as soon as practicable, but in no event later than 15 business days after the closing of our initial business combination, we will use our best efforts to file with the SEC a registration statement covering the shares of Class A common stock issuable upon exercise of the warrants and thereafter will use our best efforts to cause the same to become effective within 60 business days following the closing of our initial business combination and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed, as specified in the warrant agreement. If a registration statement covering the shares of Class A common stock issuable upon exercise of the warrants is not effective by the 60<sup>th</sup> business day after the closing of our initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. If the Section 3(a)(9) exemption, or another exemption, is not available, holders will not be able to exercise their warrants on a cashless basis. In the event that holders are able to exercise their warrants on a “cashless basis,” each holder would pay the exercise price by surrendering the warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the “fair market value” (defined below) by (y) the fair market value. The “fair market value” shall mean the average last reported sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants.

The warrants will expire at 5:00 p.m., New York City time, five years after the completion of our initial business combination or earlier upon redemption or liquidation. On the exercise of any warrant, the warrant exercise price will be paid directly to us and not placed in the trust account.

**Redemption of warrants**

Once the warrants become exercisable, we may redeem the outstanding warrants (except as described herein with respect to the private placement warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days’ prior written notice of redemption, which we refer to as the 30-day redemption period; and

- if, and only if, the last reported sale price of our Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders.

We will not redeem the warrants unless a registration statement under the Securities Act covering the shares of Class A common stock issuable upon exercise of the warrants is effective and a current prospectus relating to those shares of Class A common stock is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act. If and when the warrants become redeemable by us, we may not exercise our redemption right if the issuance of shares of common stock upon exercise of the warrants is not exempt from registration or qualification under applicable state blue sky laws or we are unable to effect such registration or qualification. We will use our best efforts to register or qualify such shares of common stock under the blue sky laws of those states in which the warrants were offered by us in this offering.

If we call the warrants for redemption as described above, our management will have the option to require all holders that wish to exercise warrants to do so on a “cashless basis.” In determining whether to require all holders to exercise their warrants on a “cashless basis,” our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our stockholders of issuing the maximum number of shares of Class A common stock issuable upon the exercise of our warrants. In such event, each holder would pay the exercise price by surrendering the warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the “fair market value” (defined below) by (y) the fair market value. The “fair market value” shall mean the average last reported sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. Please see the section of this prospectus entitled “Description of Securities — Redeemable Warrants — Public Stockholders’ Warrants” for additional information.

None of the private placement warrants will be redeemable by us so long as they are held by our sponsor, the anchor investors or their permitted transferees.

**Expressions of Interest**

The anchor investors have expressed to us an interest to purchase an aggregate of \$40,000,000 of units in this offering (or \$46,000,000 of units if the underwriters’ over-allotment option is exercised in full), and we have agreed to direct the underwriters to sell to the anchor investors such number of units. Further, the anchor investors have entered into separate agreements with us, the combined effect of which is that, if the anchor investors, collectively, do not own 4,000,000 public shares;

which amount will be reduced on a pro rata basis if less than 15,000,000 units are sold in this offering), on the date of any stockholder vote with respect to an initial business combination or the business day immediately prior to the consummation of our initial business combination, certain or all of the anchor investors will be required to transfer to our sponsor a pro rata portion of the founder shares they purchased prior to this offering; provided, however, that such transfers of founder shares to our sponsor shall not result in the remaining number of founder shares collectively held by the anchor investors being less than 200,000 founder shares (or less than 230,000 founder shares if the underwriters' over-allotment option is exercised in full). In addition, each anchor investor will be subject to any forfeiture of their founder shares on the same terms as the founder shares held by our sponsor may be forfeited in connection with our business combination, provided such forfeiture shall not reduce the number of founder shares held by such anchor investor below 25% of the founder shares purchased by such anchor investor prior to this offering.

There can be no assurance that the anchor investors will acquire any units in this offering, or as to the amount of equity the anchor investors will retain, if any, upon the consummation of our initial business combination. In the event that the anchor investors purchase such units (either in this offering or after) and vote them in favor of our initial business combination, it is possible that no votes from other public stockholders would be required to approve our initial business combination, depending on the number of shares that are present at the meeting to approve such transaction. As a result of the founder shares and private placement warrants that the anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders.

With respect to the common stock underlying the units they may purchase in this offering, the anchor investors will have the same rights to the funds held in the trust account as the rights afforded to our public stockholders.

**Founder shares**

In February 2020, our sponsor purchased 4,312,500 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.006 per share. Prior to the initial investment in the company of \$25,000 by our sponsor, we had no assets, tangible or intangible. The per share purchase price of the founder shares was determined by dividing the amount of cash contributed to the company by the aggregate number of founder shares issued. In July 2020, our sponsor transferred an aggregate of 867,500 founder shares, including to the following persons: (i) 32,500 founder shares to each of Marc Saiontz and Suzy Taherian, two of our independent directors, (ii) 35,000 founder shares to each of Neil Glat and Brian Mathis, two of our independent directors, (iii) 40,000 founder shares to Kathleen Harris, one of our independent directors, (iv) 50,000 founder shares to Thomas Sullivan, one of our independent directors, (v) 67,500 founder shares to Adam Deutsch, our Chief Financial Officer, (vi) 100,000 founder shares to Charlie Baynes-Reid, our Chief Operating Officer, (vii) 135,000 founder shares to each of Kevin Charlton and Charles Goldman, our Chief Executive Officer and director, respectively, and (viii) 200,000 founder shares to Nick Petruska, our special advisor. In July 2020, our sponsor forfeited 920,000 founder shares and the anchor investors purchased 920,000 founder shares for an aggregate purchase price of approximately \$5,333, or approximately \$0.006 per share.

The number of founder shares issued was determined based on the expectation that the founder shares would represent 20% of the outstanding shares after this offering. As such, our initial stockholders (including the anchor investors) will collectively own 20% of our issued and outstanding shares after this offering (assuming they do not purchase any units in this offering). Neither our sponsor nor any of our officers or directors or our special advisor have expressed an intention to purchase any units in this offering.

Up to an aggregate of 562,500 founder shares will be subject to forfeiture by our sponsor (up to 442,500 founder shares) and the anchor investors (up to 120,000 founder shares), depending on the extent to which the underwriters' over-allotment option is not exercised in full or in part so that our initial stockholders (including the anchor investors) will maintain ownership of 20% of our common stock after this offering. We will effect a stock dividend or share contribution prior to this offering should the size of the offering change, in order to maintain such ownership percentage.

The founder shares are identical to the shares of Class A common stock included in the units being sold in this offering, except that:

- the founder shares are shares of Class B common stock that automatically convert into shares of our Class A common stock at the time of our initial business combination, on a one-for-one basis, subject to adjustment pursuant to certain anti-dilution rights, as described herein;
- the founder shares are subject to certain transfer restrictions, as described in more detail below;
- our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have entered into a letter agreement with us, pursuant to which they have agreed to (i) waive their redemption rights with respect to any founder shares and public shares they hold in connection with the completion of our initial business combination, (ii) waive their redemption rights with respect to any founder shares and public shares they hold in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity and (iii) waive their rights to liquidating distributions from the trust account with respect to any founder shares they hold if we fail to complete our initial business combination within 24 months from the closing of this offering, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame. Permitted transferees of the founder shares held by our sponsor, officers, directors and special advisor and that employee would be subject to the same restrictions;

- the anchor investors have agreed to waive their right to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within 24 months from the closing of this offering, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame. In addition, the anchor investors have agreed to waive their redemption rights with respect to their founder shares. Permitted transferees of the founder shares held by the anchor investors will be subject to the same restrictions;
- pursuant to the letter agreement, our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed to vote any founder shares held by them and any public shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination. If we submit our initial business combination to our public stockholders for a vote, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the initial business combination. As a result, in addition to the founder shares held by our sponsor, officers, directors and special advisor and that employee, we would need only 1,737,501, or approximately 11.6%, of the 15,000,000 public shares sold in this offering to be voted in favor of an initial business combination (assuming only a quorum is present at the meeting) in order to have our initial business combination approved (assuming the over-allotment option is not exercised); and
- the founder shares are entitled to registration rights.

**Transfer restrictions on founder shares**

Our initial stockholders have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of: (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last reported sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property (except as described herein under the section of this prospectus entitled “Principal Stockholders — Restrictions on Transfers of Founder Shares and Private Placement Warrants”). Any permitted transferees will be subject to the same restrictions with respect to any founder shares. We refer to such transfer restrictions throughout this prospectus as the lock-up.

**Founder shares conversion and anti-dilution rights**

The shares of Class B common stock will automatically convert into shares of our Class A common stock at the time of our initial business combination on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts offered in this prospectus and related to the closing of the initial business combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon the completion of this offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the initial business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial business combination, any private placement-equivalent warrants issued to our sponsor or its affiliates upon conversion of loans made to us). Holders of founder shares may also elect to convert their shares of Class B common stock into an equal number of shares of Class A common stock, subject to adjustment as provided above, at any time. The term “equity-linked securities” refers to any debt or equity securities that are convertible, exercisable or exchangeable for shares of Class A common stock issued in a financing transaction in connection with our initial business combination, including but not limited to a private placement of equity or debt. Securities could be “deemed issued” for purposes of the conversion rate adjustment if such shares are issuable upon the conversion or exercise of convertible securities, warrants or similar securities.

**Voting rights**

Holders of the Class A common stock and holders of the Class B common stock will vote together as a single class on all matters submitted to a vote of our stockholders, with each share of common stock entitling the holder to one vote.

**Private placement warrants**

Our sponsor and the anchor investors have committed, pursuant to written agreements, to purchase an aggregate of 5,250,000 private placement warrants (or 5,700,000 if the over-allotment option is exercised in full) at a price of \$1.00 per warrant in a private placement that will occur simultaneously with the closing of this offering. Among the private placement warrants, 3,850,000 private placement warrants (or 4,180,000 private placement warrants if the underwriters’ over-allotment option is exercised in full) will be purchased by our sponsor, and an aggregate of 1,400,000 private placement warrants will be purchased by the anchor investors (or 1,520,000 private placement warrants if the underwriters’ over-allotment option is exercised in full). The private placement warrants are identical to the warrants sold as part of the units in this offering, subject to limited exceptions. A portion of the purchase price of the private placement warrants will be added to the proceeds from this offering to be held in the trust account such that at the time of closing \$150,000,000 (or \$172,500,000 if the underwriters exercise their over-allotment option in full) will be held in the trust account. If we do not complete our initial business combination within 24 months from the closing of this offering, the proceeds from the sale of the private placement warrants held in the trust account will be used to fund the redemption of our public shares (subject to the requirements of applicable law) and the private placement warrants will expire worthless.

The private placement warrants will be non-redeemable and exercisable on a cashless basis so long as they are held by our sponsor, the anchor investors or their permitted transferees. If the private placement warrants are held by holders other than our sponsor, the anchor investors or their permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering.

**Transfer restrictions on private placement warrants**

The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except as described under the section of this prospectus entitled “Principal Stockholders — Restrictions on Transfers of Founder Shares and Private Placement Warrants”).

**Cashless exercise of private placement warrants**

If holders of private placement warrants elect to exercise them on a cashless basis, they would pay the exercise price by surrendering their warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the “fair market value” (defined below) by (y) the fair market value. The “fair market value” shall mean the average last reported sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of warrant exercise is sent to the warrant agent.

The reason that we have agreed that these warrants will be exercisable on a cashless basis so long as they are held by our sponsor, the anchor investors or their permitted transferees is because it is not known at this time whether they will be affiliated with us following an initial business combination. If they are affiliated with us following an initial business combination, their ability to sell our securities in the open market will be significantly limited. We expect to have policies in place that prohibit insiders from selling our securities except during specific periods of time. Even during such periods of time when insiders will be permitted to sell our securities, an insider cannot trade in our securities if he or she is in possession of material non-public information. Accordingly, unlike public stockholders who could sell the shares of Class A common stock issuable upon exercise of the warrants freely in the open market, the insiders could be significantly restricted from doing so. As a result, we believe that allowing the holders to exercise such warrants on a cashless basis is appropriate.

**Proceeds to be held in trust account**

Nasdaq rules provide that at least 90% of the gross proceeds from this offering and the sale of the private placement warrants be deposited in a trust account. Of the net proceeds of this offering and the sale of the private placement warrants, \$150,000,000, or \$10.00 per unit (\$172,500,000, or \$10.00 per unit, if the underwriters’ over-allotment option is exercised in full), will be placed into a trust account in the United States with Continental Stock Transfer & Trust Company acting as trustee. These proceeds include \$5,250,000 (or \$6,037,500 if the underwriters’ over-allotment option is exercised in full) in deferred underwriting commissions.

Except with respect to interest earned on the funds held in the trust account that may be released to us to (i) pay our tax obligations or (ii) for working capital purposes (but not to exceed \$250,000 annually) (less up to \$100,000 interest to pay dissolution expenses), the proceeds from this offering and the sale of the private placement warrants will not be released from the trust account until the earliest of (a) the completion of our initial business combination, (b) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (i) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provision relating to stockholders' rights or pre-business combination activity, and (c) the redemption of our public shares if we are unable to complete our initial business combination within 24 months from the closing of this offering, subject to applicable law. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public stockholders.

**Anticipated expenses and funding sources**

Except as described above with respect to the payment of taxes, unless and until we complete our initial business combination, no proceeds held in the trust account will be available for our use. The proceeds held in the trust account will be invested only in U.S. government securities with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. We will disclose in each quarterly and annual report filed with the SEC prior to our initial business combination whether the proceeds deposited in the trust account are invested in U.S. government treasury obligations or money market funds or a combination thereof. Based upon current interest rates, we expect the trust account to generate approximately \$375,000 of interest annually assuming an interest rate of 0.25% per year; however, we can provide no assurances regarding this amount. Unless and until we complete our initial business combination, we may pay our expenses only from:

- the net proceeds of this offering and the sale of the private placement warrants not held in the trust account, which will be approximately \$1,500,000 in working capital after the payment of approximately \$750,000 in expenses relating to this offering;
- any loans or additional investments from our sponsor, members of our management team or their affiliates or other third parties, although they are under no obligation to advance funds or invest in us, and provided that any such loans will not have any claim on the proceeds held in the trust account unless such proceeds are released to us upon completion of an initial business combination; and
- up to \$250,000 in interest income earned on the trust account that we are entitled to withdraw for working capital purposes.

**Conditions to completing our initial business combination**

Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the trust account) at the time of our signing a definitive agreement in connection with our initial business combination. Our board of directors will make the determination as to the fair market value of our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm that is a member of FINRA or an independent accounting firm with respect to the satisfaction of such criteria. While we consider it unlikely that our board of directors will not be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to the value of a target's assets or prospects. There is no limitation on our ability to raise funds privately or through loans in connection with our initial business combination. We anticipate structuring our initial business combination either (i) in such a way so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses, or (ii) in such a way so that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders, or for other reasons. However, we will only complete an initial business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the initial business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the initial business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of Nasdaq's 80% of net assets test. If the initial business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the transactions and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking stockholder approval, as applicable.

**Permitted purchases of public shares and public warrants by our affiliates**

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our initial stockholders, directors, officers, advisors or their affiliates may purchase public shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. There is no limit on the number of shares our initial stockholders, directors, officers, advisors or their affiliates may purchase in such transactions, subject to compliance with applicable law and Nasdaq rules. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. None of the funds held in the trust account will be used to purchase public shares or public warrants in such transactions prior to completion of our initial business combination. See “Proposed Business — Permitted purchases of our securities” for a description of how our initial stockholders, directors, officers, advisors or any of their affiliates will select which stockholders to purchase securities from in any private transaction.

The purpose of any such purchases of shares could be to vote such shares in favor of the initial business combination and thereby increase the likelihood of obtaining stockholder approval of the initial business combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. In addition, if such purchases are made, the public “float” of our shares of Class A common stock or warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

**Redemption rights for public stockholders upon completion of our initial business combination**

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements, divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares held by them and any public shares they may acquire during or after this offering in connection with the completion of our initial business combination.

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the vote on the proposal to approve the initial business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using the Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements.

**Manner of conducting redemptions**

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the initial business combination or (ii) by means of a tender offer.

The decision as to whether we will seek stockholder approval of a proposed initial business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under the law or stock exchange listing requirements. Under Nasdaq rules, asset acquisitions and stock purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC unless stockholder approval is required by law or stock exchange listing requirements or we choose to seek stockholder approval for business or other legal reasons. So long as we obtain and maintain a listing for our securities on Nasdaq, we will be required to comply with such rules.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Such provisions may be amended if approved by holders of 65% of our common stock entitled to vote thereon.

Whether or not we maintain our registration under the Exchange Act or our listing on Nasdaq, we will provide our public stockholders with the opportunity to redeem their public shares by one of the two methods listed above. Upon the public announcement of our initial business combination, if we elect to conduct redemptions pursuant to the tender offer rules, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our Class A common stock in the open market, in order to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than a specified number of public shares, which number will be based on the requirement that we may not redeem public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination upon consummation of our initial business combination and after payment of underwriters' fees and commissions. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

If, however, stockholder approval of the transaction is required by law or stock exchange listing requirements, or we decide to obtain stockholder approval for business or other legal reasons, we will:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and
- file proxy materials with the SEC.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the initial business combination. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting. Our initial stockholders will count towards this quorum and, pursuant to the letter agreement, our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed to vote any founder shares held by them and any public shares purchased by them during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination. For purposes of seeking approval of the majority of our outstanding shares of common stock voted, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. As a result, in addition to the founder shares held by our sponsor, officers, directors, special advisor and that employee, we would need only 1,737,501, or approximately 11.6%, of the 15,000,000 public shares sold in this offering to be voted in favor of an initial business combination (assuming only a quorum is present at the meeting) in order to have our initial business combination approved (assuming the over-allotment option is not exercised).

We intend to give prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination. These quorum and voting thresholds, and the voting agreements of our sponsor, officers, directors, special advisor and such employee may make it more likely that we will consummate our initial business combination. Each public stockholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction.

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents mailed to such holders, or up to two business days prior to the vote on the proposal to approve the initial business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically. We believe that this will allow our transfer agent to efficiently process any redemptions without the need for further communication or action from the redeeming public stockholders, which could delay redemptions and result in additional administrative cost. If the proposed initial business combination is not approved and we continue to search for a target company, we will promptly return any certificates delivered, or shares tendered electronically, by public stockholders who elected to redeem their shares.

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination upon consummation of our initial business combination and after payment of underwriters' fees and commissions. For example, the proposed initial business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed initial business combination. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed initial business combination exceed the aggregate amount of cash available to us, we will not complete the initial business combination or redeem any shares, and all shares of Class A common stock submitted for redemption will be returned to the holders thereof.

**Limitation on redemption rights of stockholders holding 15% or more of the shares sold in this offering if we hold stockholder vote**

Notwithstanding the foregoing redemption rights, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in this offering, without our prior consent. We believe the restriction described above will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to redeem their shares as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights against an initial business combination if such holder's shares are not

purchased by us or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders' ability to redeem to no more than 15% of the shares sold in this offering, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with an initial business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our stockholders' ability to vote all of their shares (including all shares held by those stockholders that hold more than 15% of the shares sold in this offering) for or against our initial business combination.

**Redemption rights in connection with proposed amendments to our certificate of incorporation**

Our amended and restated certificate of incorporation provides that any of its provisions related to pre-business combination activity (including the requirement to deposit proceeds of this offering and the private placement of warrants into the trust account and not release such amounts except in specified circumstances, and to provide redemption rights to public stockholders as described herein) may be amended if approved by holders of 65% of our common stock entitled to vote thereon, and corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended if approved by holders of 65% of our common stock entitled to vote thereon. In all other instances, our amended and restated certificate of incorporation may be amended by holders of a majority of our outstanding common stock entitled to vote thereon, subject to applicable provisions of the Delaware General Corporation Law, or DGCL, or applicable stock exchange rules. Under our amended and restated certificate of incorporation, we may not issue additional securities that can vote on amendments to our amended and restated certificate of incorporation or on our initial business combination or that would entitle holders thereof to receive funds from the trust account. Our initial stockholders, who will collectively beneficially own 20% of our common stock upon the closing of this offering (assuming they do not purchase any units in this offering), will participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they choose. Our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation (i) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provision relating to stockholders' rights or pre-business combination activity, unless we provide our public stockholders with the opportunity to redeem their shares of Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable) divided by the number of then outstanding public shares. Our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have entered into a letter agreement with us pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our initial business combination. The anchor investors have agreed to waive their redemption rights with respect to their founder shares, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame.

**Release of funds in trust account on closing of our initial business combination**

On the completion of our initial business combination, the funds held in the trust account will be used to pay amounts due to any public stockholders who exercise their redemption rights as described above under “Redemption rights for public stockholders upon completion of our initial business combination.” We will use the remaining funds to pay the underwriters their deferred underwriting commissions, to pay all or a portion of the consideration payable to the target or owners of the target of our initial business combination and to pay other expenses associated with our initial business combination. If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may apply the balance of the cash released to us from the trust account, for general corporate purposes, including for maintenance or expansion of operations of post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

**Redemption of public shares and distribution and liquidation if no initial business combination**

Our amended and restated certificate of incorporation provides that we will have only 24 months from the closing of this offering to complete our initial business combination. If we are unable to complete our initial business combination within such 24-month period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter subject to lawfully available funds therefor, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within the 24-month time period.

Our initial stockholders agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within 24 months from the closing of this offering. However, if our initial stockholders acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted 24-month time period.

The underwriters have agreed to waive their rights to their deferred underwriting commission held in the trust account in the event we do not complete our initial business combination within 24 months from the closing of this offering and, in such event, such amounts will be included with the funds held in the trust account that will be available to fund the redemption of our public shares.

**Limited payments to insiders**

There will be no finder's fees, reimbursement, consulting fee, non-cash payments, monies in respect of any payment of a loan or other compensation paid by us to our sponsor, officers or directors, or any affiliate of our sponsor or officers prior to, or in connection with any services rendered in order to effectuate, the consummation of our initial business combination (regardless of the type of transaction that it is). However, the following payments will be made to our sponsor, officers or directors, or our or their affiliates, none of which will be made from the proceeds of this offering held in the trust account prior to the completion of our initial business combination:

- Repayment of up to an aggregate of \$300,000 in loans made to us by our sponsor to cover offering-related and organizational expenses;
- Payment to an affiliate of our sponsor of \$15,000 per month, for up to 24 months, for office space, utilities and secretarial and administrative support;
- Reimbursement for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination; and
- Repayment of loans which may be made by our sponsor or an affiliate of our sponsor or certain of our officers and directors to finance transaction costs in connection with an intended initial business combination, the terms of which have not been determined nor have any written agreements been executed with respect thereto. Up to \$100,000 of such loans may be convertible into warrants, at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such working capital loans by our sponsor or its affiliates, or our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans.

Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or their affiliates.

**Audit Committee**

We will establish and maintain an audit committee, which will be composed entirely of independent directors to, among other things, monitor compliance with the terms described above and the other terms relating to this offering. If any noncompliance is identified, then the audit committee will be charged with the responsibility to immediately take all action necessary to rectify such noncompliance or otherwise to cause compliance with the terms of this offering. For more information, see the section of this prospectus entitled "Management — Committees of the Board of Directors — Audit Committee."

**Indemnity**

Our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us, or a prospective target business with which we have entered into a written letter of intent, confidentiality or similar agreement or business combination agreement, reduce the amount of funds in the trust account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account, if less than \$10.00 per share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the trust account (whether or not such waiver is enforceable) nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. However, we have not asked our sponsor to reserve for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

**RISKS**

We are a newly formed company that has conducted no operations and has generated no revenues. Until we complete our initial business combination, we will have no operations and will generate no operating revenues. In making your decision whether to invest in our securities, you should take into account not only the background of our management team, but also the special risks we face as a blank check company. This offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. Accordingly, you will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. For additional information concerning how Rule 419 blank check offerings differ from this offering, please see the section of this prospectus entitled "Proposed Business — Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419." You should carefully consider these and the other risks set forth in the section of this prospectus entitled "Risk Factors" beginning on page 28 of this prospectus.

### SUMMARY FINANCIAL DATA

The following table summarizes the relevant financial data for our business and should be read with our financial statements, which are included in this prospectus. We have not had any significant operations to date, so only balance sheet data is presented.

	<b>June 30, 2020</b>
<b>Balance Sheet Data:</b>	
Working capital (deficiency)	\$ (150,000)
Total assets	\$ 173,000
Total liabilities	\$ 150,000
Stockholder's equity	\$ 23,000

## RISK FACTORS

*An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this prospectus, before deciding to invest in our units. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.*

**We are a newly formed company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.**

We are a newly formed company with no operating results, and we will not commence operations until obtaining funding through this offering. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination with one or more target businesses. We have no plans, arrangements or understandings with any prospective target business concerning an initial business combination and may be unable to complete our initial business combination. If we fail to complete our initial business combination, we will never generate any operating revenues.

**Our public stockholders may not be afforded an opportunity to vote on our proposed initial business combination, which means we may complete our initial business combination even though a majority of our public stockholders do not support such a combination.**

We may choose not to hold a stockholder vote to approve our initial business combination unless the initial business combination would require stockholder approval under applicable law or stock exchange listing requirements or if we decide to hold a stockholder vote for business or other legal reasons. Except as required by law, the decision as to whether we will seek stockholder approval of a proposed initial business combination or will allow stockholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek stockholder approval. Accordingly, we may complete our initial business combination even if holders of a majority of our public shares do not approve of the initial business combination we complete. Please see the section of this prospectus entitled “Proposed Business — Stockholders May Not Have the Ability to Approve Our Initial Business Combination” for additional information.

**If we seek stockholder approval of our initial business combination, our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed to vote in favor of such initial business combination, regardless of how our public stockholders vote.**

Pursuant to the letter agreement, our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed to vote any founder shares held by them, as well as any public shares purchased during or after this offering (including in open market and privately negotiated transactions), in favor of our initial business combination. As a result, in addition to the founder shares held by our sponsor, officers, directors and special advisor and that employee, we would need only 1,737,501, or approximately 11.6%, of the 15,000,000 public shares sold in this offering to be voted in favor of an initial business combination (assuming only a quorum is present at the meeting) in order to have our initial business combination approved (assuming the underwriters’ over-allotment option is not exercised). Our initial stockholders will own shares representing 20% of our outstanding shares of common stock immediately following the completion of this offering. Accordingly, if we seek stockholder approval of our initial business combination, the agreement by our sponsor, officers, directors, special advisor and that employee to vote in favor of our initial business combination will increase the likelihood that we will receive the requisite stockholder approval for such initial business combination.

**Our search for a business combination, and any target business with which we ultimately consummate a business combination, may be materially adversely affected by the recent coronavirus (COVID-19) outbreak and the status of debt and equity markets.**

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which has and is continuing to spread throughout the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the disease caused by the novel strain of coronavirus (“COVID-19”), a “Public Health Emergency of International Concern.” On January 31, 2020, U.S. Health and Human Services

Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a “pandemic”. The COVID-19 outbreak has adversely affected (and a significant outbreak of other infectious diseases could result in a widespread health crisis that could adversely affect) the economies and financial markets worldwide, and the business of any potential target business with which we consummate a business combination could be materially and adversely affected by the COVID-19 outbreak and such other outbreak. Furthermore, we may be unable to complete a business combination if continued concerns relating to COVID-19 continue to restrict travel, limit the ability to have meetings with potential investors or result in the target company’s personnel, vendors and services providers being unavailable to negotiate and consummate a transaction in a timely manner. The extent to which COVID-19 impacts our search for a business combination will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extended period of time, our ability to consummate a business combination, or the operations of a target business with which we ultimately consummate a business combination, may be materially adversely affected. In addition, our ability to consummate a transaction may be dependent on our ability to raise equity and debt financing which may be adversely impacted by COVID-19 and other events, including as a result of increased market volatility, decreased market liquidity and third-party financing being unavailable on terms acceptable to us or at all.

**Your only opportunity to affect the investment decision regarding a potential business combination will be limited to the exercise of your right to redeem your shares from us for cash, unless we seek stockholder approval of the initial business combination.**

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of our initial business combination. Since our board of directors may complete an initial business combination without seeking stockholder approval, public stockholders may not have the right or opportunity to vote on the initial business combination, unless we seek such stockholder vote.

Accordingly, if we do not seek stockholder approval, your only opportunity to affect the investment decision regarding a potential business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public stockholders in which we describe our initial business combination.

**The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into an initial business combination with a target.**

We may seek to enter into an initial business combination agreement with a prospective target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the initial business combination. Furthermore, in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC’s “penny stock” rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination upon consummation of our initial business combination and after payment of underwriters’ fees and commissions. Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters’ fees and commissions or such greater amount necessary to satisfy a closing condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination. Prospective targets will be aware of these risks and, thus, may be reluctant to enter into an initial business combination with us.

**The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.**

At the time we enter into an agreement for our initial business combination, we will not know how many stockholders may exercise their redemption rights, and therefore will need to structure the transaction based on our expectations as to the number of shares that will be submitted for redemption. If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to

have a minimum amount of cash at closing, we will need to reserve a portion of the cash in the trust account to meet such requirements, or arrange for third party financing. In addition, if a larger number of shares are submitted for redemption than we initially expected, we may need to restructure the transaction to reserve a greater portion of the cash in the trust account or arrange for third party financing. Raising additional third party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. Furthermore, this dilution would increase to the extent that the anti-dilution provision of the Class B common stock results in the issuance of Class A shares on a greater than one-to-one basis upon conversion of the Class B common stock at the time of our business combination. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure. The amount of the deferred underwriting commissions payable to the underwriters will not be adjusted for any shares that are redeemed in connection with an initial business combination. The per share amount we will distribute to stockholders who properly exercise their redemption rights will not be reduced by the deferred underwriting commission and after such redemptions, the per-share value of shares held by non-redeeming stockholders will reflect our obligation to pay the deferred underwriting commissions.

**The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your stock.**

If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial business combination would be unsuccessful is increased. If our initial business combination is unsuccessful, you would not receive your pro rata portion of the trust account until we liquidate the trust account. If you are in need of immediate liquidity, you could attempt to sell your stock in the open market; however, at such time our stock may trade at a discount to the pro rata amount per share in the trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your stock in the open market.

**The requirement that we complete our initial business combination within the prescribed time frame may give potential target businesses leverage over us in negotiating an initial business combination and may decrease our ability to conduct due diligence on potential business combination targets as we approach our dissolution deadline, which could undermine our ability to complete our initial business combination on terms that would produce value for our stockholders.**

Any potential target business with which we enter into negotiations concerning an initial business combination will be aware that we must complete our initial business combination within 24 months from the closing of this offering. Consequently, such target business may obtain leverage over us in negotiating an initial business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the timeframe described above. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

**We may not be able to complete our initial business combination within the prescribed time frame, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate, in which case our public stockholders may only receive \$10.00 per share, or less than such amount in certain circumstances, and our warrants will expire worthless.**

Our amended and restated certificate of incorporation provides that we must complete our initial business combination within 24 months from the closing of this offering. We may not be able to find a suitable target business and complete our initial business combination within such time period. If we have not completed our initial business combination within such time period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter subject to lawfully available funds therefor, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if

any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. In such case, our public stockholders may only receive \$10.00 per share, and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares. See “— If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors below.

**If we seek stockholder approval of our initial business combination, our sponsor, directors, officers, advisors and their affiliates may elect to purchase shares or warrants from public stockholders, which may influence a vote on a proposed initial business combination and reduce the public “float” of our Class A common stock.**

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, directors, officers, advisors or their affiliates may purchase public shares or public warrants or a combination thereof in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation to do so. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the trust account will be used to purchase public shares or public warrants in such transactions.

Such a purchase may include a contractual acknowledgement that such stockholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. In the event that our sponsor, directors, officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. The purpose of such purchases could be to vote such shares in favor of the initial business combination and thereby increase the likelihood of obtaining stockholder approval of the initial business combination, or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements.

In addition, if such purchases are made, the public “float” of our Class A common stock or public warrants and the number of beneficial holders of our securities may be reduced, possibly making it difficult to obtain or maintain the quotation, listing or trading of our securities on a national securities exchange.

**If a stockholder fails to receive notice of our offer to redeem our public shares in connection with our initial business combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.**

We will comply with the tender offer rules or proxy rules, as applicable, when conducting redemptions in connection with our initial business combination. Despite our compliance with these rules, if a stockholder fails to receive our tender offer or proxy materials, as applicable, such stockholder may not become aware of the opportunity to redeem its shares. In addition, proxy materials or tender offer documents, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly tender or redeem public shares. For example, we may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents mailed to such holders, or up to two business days prior to the vote on the proposal to approve the initial business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically. In the event that a stockholder fails to comply with these or any other procedures, its shares may not be redeemed. See the section of this prospectus entitled “Proposed Business — Redemption Rights for Public Stockholders upon Completion of our Initial Business Combination — Tendering Stock Certificates in Connection with a Tender Offer or Redemption Rights.”

**You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. To liquidate your investment, therefore, you may be forced to sell your public shares or warrants, potentially at a loss.**

Our public stockholders will be entitled to receive funds from the trust account only upon the earliest to occur of: (i) our completion of an initial business combination, and then only in connection with those shares of Class A common stock that such stockholder properly elected to redeem, subject to the limitations described herein, (ii) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity and (iii) the redemption of our public shares if we are unable to complete an initial business combination within 24 months from the closing of this offering, subject to applicable law and as further described herein. In no other circumstances will a public stockholder have any right or interest of any kind in the trust account. Holders of warrants will not have any right to the proceeds held in the trust account with respect to the warrants. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

**Nasdaq may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.**

We have been approved to have our units listed on Nasdaq. We expect that our units will begin trading on Nasdaq promptly after the date of this prospectus. Following the date the shares of our Class A common stock and warrants are eligible to trade separately, we anticipate that the shares of our Class A common stock and warrants will be separately listed on Nasdaq. Although after giving effect to this offering we expect to meet, on a pro forma basis, the minimum initial listing standards set forth in the Nasdaq listing standards, we cannot assure you that our securities will be, or will continue to be, listed on Nasdaq in the future or prior to our initial business combination. In order to continue listing our securities on Nasdaq prior to our initial business combination, we must maintain certain financial, distribution and stock price levels. Generally, we must maintain a minimum amount in stockholders' equity (generally \$2,500,000) and a minimum number of holders of our securities (generally 300 public holders). Additionally, in connection with our initial business combination, we will be required to demonstrate compliance with Nasdaq's initial listing requirements, which are more rigorous than Nasdaq's continued listing requirements, in order to continue to maintain the listing of our securities on Nasdaq. For instance, our stock price would generally be required to be at least \$4.00 per share, our stockholders' equity would generally be required to be at least \$5.0 million and we would be required to have a minimum of 300 round lot holders of our securities. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If Nasdaq delists our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect our securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our Class A common stock is a "penny stock" which will require brokers trading in our Class A common stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as "covered securities." Because we expect that our units and eventually our Class A common stock and warrants will be listed on Nasdaq, our units, Class A common stock and warrants will be covered securities. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of

fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the State of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on Nasdaq, our securities would not be covered securities and we would be subject to regulation in each state in which we offer our securities, including in connection with our initial business combination.

**You will not be entitled to protections normally afforded to investors of many other blank check companies.**

Since the net proceeds of this offering and the sale of the private placement warrants are intended to be used to complete an initial business combination with a target business that has not been identified, we may be deemed to be a “blank check” company under the United States securities laws. However, because we will have net tangible assets in excess of \$5,000,000 upon the successful completion of this offering and the sale of the private placement warrants and will file a Current Report on Form 8-K, including an audited balance sheet demonstrating this fact, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419.

Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means our units will be immediately tradable and we may have a longer period of time to complete our initial business combination than do companies subject to Rule 419. Moreover, if this offering were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the trust account to us unless and until the funds in the trust account were released to us in connection with our completion of an initial business combination. For a more detailed comparison of our offering to offerings that comply with Rule 419, please see the section of this prospectus entitled “Proposed Business — Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419.”

**If we seek stockholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a “group” of stockholders are deemed to hold in excess of 15% of our Class A common stock, you will lose the ability to redeem all such shares in excess of 15% of our Class A common stock.**

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 15% of the shares sold in this offering without our prior consent, which we refer to as the “Excess Shares.” However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our initial business combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And as a result, you will continue to hold that number of shares exceeding 15% and, in order to dispose of such shares, would be required to sell your stock in open market transactions, potentially at a loss.

**Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on our redemption of our public shares, or less than such amount in certain circumstances, and our warrants will expire worthless.**

We expect to encounter intense competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities competing for the types of businesses we intend to acquire. Many of these individuals and entities are well-established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess greater technical, human and other resources or more industry knowledge than we do, and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe there are numerous

target businesses we could potentially acquire with the net proceeds of this offering and the sale of the private placement warrants, our ability to compete with respect to the acquisition of certain target businesses that are sizable will be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, because we are obligated to pay cash for the shares of Class A common stock which our public stockholders redeem in connection with our initial business combination, target companies will be aware that this may reduce the resources available to us for our initial business combination. This may place us at a competitive disadvantage in successfully negotiating an initial business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share upon our liquidation. See “— If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors below.

**If the net proceeds of this offering and the sale of the private placement warrants not being held in the trust account are insufficient to allow us to operate for at least the next 24 months, we may be unable to complete our initial business combination, in which case our public stockholders may only receive \$10.00 per share, or less than such amount in certain circumstances, and our warrants will expire worthless.**

The funds available to us outside of the trust account may not be sufficient to allow us to operate for at least the next 24 months, assuming that our initial business combination is not completed during that time. We believe that, upon the closing of this offering, the funds available to us outside of the trust account will be sufficient to allow us to operate for at least the next 24 months; however, we cannot assure you that our estimate is accurate. Of the funds available to us, we could use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a “no-shop” provision (a provision in letters of intent or merger agreements designed to keep target businesses from “shopping” around for transactions with other companies on terms more favorable to such target businesses) with respect to a particular proposed initial business combination, although we do not have any current intention to do so. If we entered into a letter of intent or merger agreement where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share upon our liquidation. See “— If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors below.

**If the net proceeds of this offering and the sale of the private placement warrants not being held in the trust account are insufficient, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination and we will depend on loans from our sponsor or management team to fund our search for an initial business combination, to pay our taxes and to complete our initial business combination. If we are unable to obtain these loans, we may be unable to complete our initial business combination.**

Of the net proceeds of this offering and the sale of the private placement warrants, only approximately \$1,500,000 will be available to us initially outside the trust account to fund our working capital requirements. In the event that our offering expenses exceed our estimate of \$750,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. The amount held in the trust account will not be impacted as a result of such increase or decrease. Conversely, in the event that the offering expenses are less than our estimate of \$750,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount. If we are required to seek additional capital, we would need to borrow funds from our sponsor, management team or other third parties to operate or may be forced to liquidate. None of our sponsor, members of our management team nor any of their affiliates is under any obligation to advance funds to us in such circumstances. Any such advances would be repaid only from funds held outside the trust account or from funds released to us upon completion of our initial business combination. Up to \$100,000 of such loans may be convertible into private placement-equivalent warrants at a price of \$1.00 per warrant at the option of the lender. Prior to the completion of our initial business combination,

we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account. If we are unable to obtain these loans, we may be unable to complete our initial business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. Consequently, our public stockholders may only receive approximately \$10.00 per share on our redemption of our public shares, and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares. See “— If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors below.

**Subsequent to the completion of our initial business combination, we may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and our stock price, which could cause you to lose some or all of your investment.**

Even if we conduct extensive due diligence on a target business with which we combine, we cannot assure you that this diligence will surface all material issues that may be present inside a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining debt financing to partially finance the initial business combination. Accordingly, any stockholders who choose to remain stockholders following the initial business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the initial business combination constituted an actionable material misstatement or omission.

**If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share.**

Our placing of funds in the trust account may not protect those funds from thirdparty claims against us. Although we will seek to have all vendors, service providers, prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, such parties may not execute such agreements, or even if they execute such agreements they may not be prevented from bringing claims against the trust account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party’s engagement would be significantly more beneficial to us than any alternative. We are not aware of any product or service providers who have not or will not provide such waiver other than the underwriters of this offering and our independent registered public accounting firm.

Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any

negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares, if we are unable to complete our initial business combination within the prescribed timeframe, or upon the exercise of a redemption right in connection with our initial business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the 10 years following redemption. Accordingly, the per-share redemption amount received by public stockholders could be less than the \$10.00 per share initially held in the trust account, due to claims of such creditors. Pursuant to the letter agreement, the form of which is filed as Exhibit 10.1 to the registration statement of which this prospectus forms a part, our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us, or a prospective target business with which we have entered into a written letter of intent, confidentiality or similar agreement or business combination agreement, reduce the amount of funds in the trust account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account, if less than \$10.00 per share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the trust account (whether or not such waiver is enforceable) nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. However, we have not asked our sponsor to reserve for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

**Our directors may decide not to enforce the indemnification obligations of our sponsor, resulting in a reduction in the amount of funds in the trust account available for distribution to our public stockholders.**

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per public share and (ii) the actual amount per share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per share due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes and up to \$250,000 per year for working capital purposes, if any, and our sponsor asserts that it is unable to satisfy its obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations.

While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment and subject to their fiduciary duties may choose not to do so in any particular instance if, for example, the cost of such legal action is deemed by the independent directors to be too high relative to the amount recoverable or if the independent directors determine that a favorable outcome is not likely. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the trust account available for distribution to our public stockholders may be reduced below \$10.00 per share.

**We may not have sufficient funds to satisfy indemnification claims of our directors and executive officers.**

We have agreed to indemnify our officers and directors to the fullest extent permitted by law. However, our officers and directors have agreed to waive any right, title, interest or claim of any kind in or to any monies in the trust account and not to seek recourse against the trust account for any reason whatsoever. Accordingly, any indemnification provided will be able to be satisfied by us only if (i) we have sufficient funds outside of the trust account or (ii) we consummate an initial business combination. Our obligation to indemnify our officers and directors may discourage stockholders from bringing a lawsuit against our officers or directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against our officers and directors, even though such an action, if successful, might otherwise benefit us and our stockholders. Furthermore, a stockholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our officers and directors pursuant to these indemnification provisions.

**If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, a bankruptcy court may seek to recover such proceeds, and we and our board may be exposed to claims of punitive damages.**

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy court could seek to recover all amounts received by our stockholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith, thereby exposing itself and us to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors.

**If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our stockholders and the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.**

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

**If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our initial business combination.**

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including:

- restrictions on the nature of our investments; and
- restrictions on the issuance of securities, each of which may make it difficult for us to complete our initial business combination.

In addition, we may have imposed upon us burdensome requirements, including:

- registration as an investment company;
- adoption of a specific form of corporate structure; and
- reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations.

In order not to be regulated as an investment company under the Investment Company Act, unless we can qualify for an exclusion, we must ensure that we are engaged primarily in a business other than investing, reinvesting or trading in securities and that our activities do not include investing, reinvesting, owning, holding or trading “investment securities” constituting more than 40% of our total assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis. Our business will be to identify and complete an initial business combination and thereafter to operate the post-transaction business or assets for the long term. We do not plan to buy businesses or assets with a view to resale or profit from their resale. We do not plan to buy unrelated businesses or assets or to be a passive investor.

We do not believe that our anticipated principal activities will subject us to the Investment Company Act. To this end, the proceeds held in the trust account may only be invested in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations. Pursuant to the trust agreement, the trustee is not permitted to invest in other securities or assets. By restricting the investment of the proceeds to these instruments,

and by having a business plan targeted at acquiring and growing businesses for the long term (rather than on buying and selling businesses in the manner of a merchant bank or private equity fund), we intend to avoid being deemed an “investment company” within the meaning of the Investment Company Act. This offering is not intended for persons who are seeking a return on investments in government securities or investment securities. The trust account is intended as a holding place for funds pending the earliest to occur of: (i) the completion of our initial business combination; (ii) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders’ rights or pre-initial business combination activity; or (iii) absent an initial business combination within 24 months from the closing of this offering, our return of the funds held in the trust account to our public stockholders as part of our redemption of the public shares. If we do not invest the proceeds as discussed above, we may be deemed to be subject to the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to complete an initial business combination or may result in our liquidation. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless.

**Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial business combination and results of operations.**

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we will be required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly.

Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business, including our ability to negotiate and complete our initial business combination and results of operations.

**Our stockholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.**

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 24 months from the closing of this offering may be considered a liquidating distribution under Delaware law. If a corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder’s pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution. However, it is our intention to redeem our public shares as soon as reasonably possible following the 24<sup>th</sup> month from the closing of this offering in the event we do not complete our initial business combination and, therefore, we do not intend to comply with the foregoing procedures.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the 10 years following our dissolution. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses. If our plan of distribution complies with Section 281(b) of the DGCL, any liability of stockholders with respect to a liquidating distribution is limited

to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would likely be barred after the third anniversary of the dissolution. We cannot assure you that we will properly assess all claims that may be potentially brought against us. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend beyond the third anniversary of such date. Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 24 months from the closing of this offering is not considered a liquidating distribution under Delaware law and such redemption distribution is deemed to be unlawful (potentially due to the imposition of legal proceedings that a party may bring or due to other circumstances that are currently unknown), then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidating distribution.

**We may not hold an annual meeting of stockholders until after the consummation of our initial business combination, which could delay the opportunity for our stockholders to elect directors.**

In accordance with Nasdaq corporate governance requirements, we are not required to hold an annual meeting until no later than one year after our first fiscal year end following our listing on Nasdaq. Under Section 211(b) of the DGCL, we are, however, required to hold an annual meeting of stockholders for the purposes of electing directors in accordance with our bylaws unless such election is made by written consent in lieu of such a meeting. We may not hold an annual meeting of stockholders to elect new directors prior to the consummation of our initial business combination, and thus we may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting. Therefore, if our stockholders want us to hold an annual meeting prior to the consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL.

**We are not registering the shares of Class A common stock issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time, and such registration may not be in place when an investor desires to exercise warrants, thus precluding such investor from being able to exercise its warrants except on a cashless basis. If the issuance of the shares upon exercise of warrants is not registered, qualified or exempt from registration or qualification, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless.**

We are not registering the shares of Class A common stock issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time. However, under the terms of the warrant agreement, we have agreed that as soon as practicable, but in no event later than 15 business days after the closing of our initial business combination, we will use our best efforts to file with the SEC a registration statement for the registration under the Securities Act of the shares of Class A common stock issuable upon exercise of the warrants and thereafter will use our best efforts to cause the same to become effective within 60 business days following the closing of our initial business combination and to maintain a current prospectus relating to the Class A common stock issuable upon exercise of the warrants, until the expiration of the warrants in accordance with the provisions of the warrant agreement. We cannot assure you that we will be able to do so if, for example, any facts or events arise which represent a fundamental change in the information set forth in the registration statement or prospectus, the financial statements contained or incorporated by reference therein are not current or correct or the SEC issues a stop order. If the shares issuable upon exercise of the warrants are not registered under the Securities Act, we will be required to permit holders to exercise their warrants on a cashless basis. However, no warrant will be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption from registration is available. Notwithstanding the foregoing, if a registration statement covering the Class A common stock issuable upon exercise of the warrants is not effective within a specified period following the consummation of our initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we shall have failed to maintain an effective registration statement, exercise warrants on a cashless basis pursuant to the exemption provided by Section 3(a)(9) of the Securities Act, provided that such exemption is available. If that exemption, or another exemption, is not available, holders will not be able to exercise their warrants on a cashless basis. In no event will we be required to net cash settle any warrant, or issue securities or other compensation in exchange for the warrants in the event that we are unable to register or qualify the shares underlying the warrants under applicable state securities laws and there is no exemption available. If the issuance of the shares upon exercise of the warrants is not

so registered or qualified or exempt from registration or qualification, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In such event, holders who acquired their warrants as part of a purchase of units will have paid the full unit purchase price solely for the shares of Class A common stock included in the units. If and when the warrants become redeemable by us, we may not exercise our redemption right if the issuance of shares of common stock upon exercise of the warrants is not exempt from registration or qualification under applicable state blue sky laws or we are unable to effect such registration or qualification. We will use our best efforts to register or qualify such shares of common stock under the blue sky laws of those states in which the warrants were offered by us in this offering. However, there may be instances in which holders of our public warrants may be unable to exercise such public warrants but holders of our private warrants may be able to exercise such private warrants.

**If you exercise your public warrants on a “cashless basis,” you will receive fewer shares of Class A common stock from such exercise than if you were to exercise such warrants for cash.**

There are circumstances in which the exercise of the public warrants may be required or permitted to be made on a cashless basis. First, if a registration statement covering the shares of Class A common stock issuable upon exercise of the warrants is not effective by the 60<sup>th</sup> business day after the closing of our initial business combination, warrant holders may, until such time as there is an effective registration statement and during any other period when we will have failed to maintain an effective registration statement, exercise warrants on a cashless basis in accordance with Section 3(a)(9) of the Securities Act or another exemption; if the Section 3(a)(9) exemption, or another exemption, is not available, holders will not be able to exercise their warrants on a cashless basis. Second, if we call the public warrants for redemption, our management will have the option to require all holders that wish to exercise warrants to do so on a cashless basis. In the event of an exercise on a cashless basis, a holder would pay the warrant exercise price by surrendering the warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the “fair market value” (as defined in the next sentence) by (y) the fair market value. The “fair market value” is the average last reported sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of exercise is received by the warrant agent or on which the notice of redemption is sent to the holders of warrants, as applicable. As a result, you would receive fewer shares of Class A common stock from such exercise than if you were to exercise such warrants for cash.

**The grant of registration rights to our initial stockholders may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our Class A common stock.**

Pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, our initial stockholders and their permitted transferees can demand that we register the private placement warrants, the shares of Class A common stock issuable upon exercise of the founder shares and the private placement warrants held, or to be held, by them and, pursuant to agreements we may enter into with lenders of working capital loans, holders of warrants that may be issued upon conversion of working capital loans may demand that we register such warrants or the Class A common stock issuable upon exercise of such warrants. We will bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our Class A common stock. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the stockholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our Class A common stock that is expected when the securities owned by our initial stockholders or holders of working capital loans or their respective permitted transferees are registered.

**Because we are neither limited to evaluating a target business in a particular industry sector nor have we selected any specific target businesses with which to pursue our initial business combination, you will be unable to ascertain the merits or risks of any particular target business’s operations.**

We will seek to complete a business combination with an industrial technology business, but may also pursue acquisition opportunities in other industries, except that we will not, under our amended and restated certificate of incorporation, be permitted to effectuate our initial business combination with another blank check company

or similar company with nominal operations. Because we have not yet selected any specific target business with respect to a business combination, there is no basis to evaluate the possible merits or risks of any particular target business's operations, results of operations, cash flows, liquidity, financial condition or prospects. To the extent we complete our initial business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or a development stage entity. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. We also cannot assure you that an investment in our units will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a business combination target. Accordingly, any stockholders who choose to remain stockholders following our initial business combination could suffer a reduction in the value of their securities. Such stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

**Past performance by members of our management team may not be indicative of future performance of an investment in the Company.**

Past performance by members of our management team is not a guarantee either (i) of success with respect to any business combination we may consummate or (ii) that we will be able to locate a suitable candidate for our initial business combination. You should not rely on the historical record of members of our management team's performance as indicative of our future performance of an investment in the company or the returns the company will, or is likely to, generate going forward.

**We may seek business combination opportunities in industries or sectors which may or may not be outside of our management team's area of expertise.**

Although we intend to focus on identifying industrial technology companies, we will consider an initial business combination outside of our management team's area of expertise if an initial business combination candidate is presented to us and we determine that such candidate offers an attractive business combination opportunity for our company or we are unable to identify a suitable candidate in this sector after having expanded a reasonable amount of time and effort in an attempt to do so. Although our management team will endeavor to evaluate the risks inherent in any particular business combination candidate, we cannot assure you that we will adequately ascertain or assess all of the significant risk factors. We also cannot assure you that an investment in our units will not ultimately prove to be less favorable to investors in this offering than a direct investment, if an opportunity were available, in an initial business combination candidate. In the event we elect to pursue a business combination outside of the areas of our management team's expertise, our management team's expertise may not be directly applicable to its evaluation or operation, and the information contained in this prospectus regarding the areas of our management team's expertise would not be relevant to an understanding of the business that we elect to acquire. As a result, our management team may not be able to adequately ascertain or assess all of the significant risk factors. Accordingly, any stockholders who choose to remain stockholders following our initial business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

**Although we have identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.**

Although we have identified general criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have all of these positive attributes. If we complete our initial business combination with a target that does not meet some or all of these guidelines, such combination may not be as successful as a combination with a business that does meet all of

our general criteria and guidelines. In addition, if we announce a prospective business combination with a target that does not meet our general criteria and guidelines, a greater number of stockholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, it may be more difficult for us to attain stockholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares. See “— If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors below.

**We may seek business combination opportunities with a financially unstable business or an entity lacking an established record of revenue, cash flow or earnings, which could subject us to volatile revenues, cash flows or earnings or difficulty in retaining key personnel.**

To the extent we complete our initial business combination with a financially unstable business or an entity lacking an established record of revenues or earnings, we may be affected by numerous risks inherent in the operations of the business with which we combine. These risks include volatile revenues or earnings and difficulties in obtaining and retaining key personnel. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we may not be able to properly ascertain or assess all of the significant risk factors and we may not have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business.

**We are not required to obtain an opinion from an independent investment banking firm or from an independent accounting firm, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our company from a financial point of view.**

Unless we complete our initial business combination with an affiliated entity or our board cannot independently determine the fair market value of the target business or businesses, we are not required to obtain an opinion from an independent investment banking firm that is a member of FINRA or from an independent accounting firm that the price we are paying is fair to our company from a financial point of view. If no opinion is obtained, our stockholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our proxy materials or tender offer documents, as applicable, related to our initial business combination.

**We may issue additional common stock or preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue shares of Class A common stock upon the conversion of the Class B common stock at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions contained in our amended and restated certificate of incorporation. Any such issuances would dilute the interest of our stockholders and likely present other risks.**

Our amended and restated certificate of incorporation authorizes the issuance of up to 45,000,000 shares of Class A common stock, par value \$0.0001 per share, 5,000,000 shares of Class B common stock, par value \$0.0001 per share, and 1,000,000 shares of preferred stock, par value \$0.0001 per share. Immediately after this offering, there will be 30,000,000 and 1,250,000 (assuming, in each case, that the underwriters have not exercised their over-allotment option) authorized but unissued shares of Class A common stock and Class B common stock, respectively, available for issuance, which amount takes into account the shares of Class A common stock reserved for issuance upon exercise of outstanding warrants but not the shares of Class A common stock issuable upon conversion of Class B common stock. Immediately after the consummation of this offering, there will be no shares of preferred stock issued and outstanding. Shares of Class B common stock are convertible into shares of our Class A common stock initially at a one-for-one ratio but subject to adjustment as set forth herein, including in certain circumstances in which we issue Class A common stock or equity-linked securities related to our initial business combination.

We may issue a substantial number of additional shares of common or preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination (although our amended and restated certificate of incorporation will provide that we may not issue securities that can vote with common stockholders on matters related to our pre-initial business combination activity). We may also issue shares of Class A common stock upon conversion of the Class B common stock at a ratio greater than one-to-one at the time of our initial business combination as a result of the antidilution provisions contained in our amended and restated certificate of incorporation. However, our amended and restated certificate of incorporation will provide, among other things, that prior to our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on any initial business combination. These provisions of our amended and restated certificate of incorporation, like all provisions of our amended and restated certificate of incorporation, may be amended with the approval of our stockholders. However, our officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable and up to \$250,000 per year for working capital purposes, if any), divided by the number of then outstanding public shares.

The issuance of additional shares of common or preferred stock:

- may significantly dilute the equity interest of investors in this offering;
- may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded our common stock;
- could cause a change of control if a substantial number of shares of our common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors; and
- may adversely affect prevailing market prices for our units, Class A common stock and/or warrants.

**Resources could be wasted in researching business combinations that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, or less than such amount in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless.**

We anticipate that the investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys, consultants and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares. See “— If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors below.

**Our ability to successfully effect our initial business combination and to be successful thereafter will be totally dependent upon the efforts of our key personnel, some of whom may join us following our initial business combination. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.**

Our ability to successfully effect our initial business combination is dependent upon the efforts of our key personnel. The role of our key personnel in the target business, however, cannot presently be ascertained. Although some of our key personnel may remain with the target business in senior management or advisory positions following our initial business combination, it is likely that some or all of the management of the target business will remain in place. While we intend to closely scrutinize any individuals we employ after our initial business combination, we cannot assure you that our assessment of these individuals will prove to be correct. These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements. In addition, the officers and directors of an initial business combination candidate may resign upon completion of our initial business combination. The departure of an initial business combination target's key personnel could negatively impact the operations and profitability of our post-combination business. The role of an initial business combination candidate's key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an initial business combination candidate's management team will remain associated with the initial business combination candidate following our initial business combination, it is possible that members of the management of an initial business combination candidate will not wish to remain in place. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

**We are dependent upon our executive officers and directors and their departure could adversely affect our ability to operate.**

Our operations are dependent upon a relatively small group of individuals and, in particular, our executive officers and directors. We believe that our success depends on the continued service of our executive officers and directors, at least until we have completed our initial business combination. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or executive officers. The unexpected loss of the services of one or more of our directors or executive officers could have a detrimental effect on us.

**Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination. These agreements may provide for them to receive compensation following our initial business combination and as a result, may cause them to have conflicts of interest in determining whether a particular business combination is the most advantageous.**

Our key personnel may be able to remain with the company after the completion of our initial business combination only if they are able to negotiate employment or consulting agreements in connection with the initial business combination. Such negotiations would take place simultaneously with the negotiation of the initial business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the completion of the initial business combination. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business. However, we believe the ability of such individuals to remain with us after the completion of our initial business combination will not be the determining factor in our decision as to whether or not we will proceed with any potential business combination. There is no certainty, however, that any of our key personnel will remain with us after the completion of our initial business combination. We cannot assure you that any of our key personnel will remain in senior management or advisory positions with us. The determination as to whether any of our key personnel will remain with us will be made at the time of our initial business combination.

**We may have a limited ability to assess the management of a prospective target business and, as a result, may effect our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company, which could, in turn, negatively impact the value of our stockholders' investment in us.**

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business's management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target's management not

possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, any stockholders who choose to remain stockholders following the initial business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

**Our officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.**

Our officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for an initial business combination and their other businesses. We do not intend to have any full-time employees prior to the completion of our initial business combination. Each of our officers is engaged in other business endeavors for which he may be entitled to substantial compensation and our officers are not obligated to contribute any specific number of hours per week to our affairs. Our independent directors may also serve as officers or board members for other entities. If our officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination. For a complete discussion of our officers' and directors' other business affairs, please see the section of this prospectus entitled "Management — Officers and Directors."

**Certain of our officers and directors are now, and all of them may in the future become, affiliated with entities engaged in business activities similar to those intended to be conducted by us and, accordingly, may have conflicts of interest in allocating their time and determining to which entity a particular business opportunity should be presented.**

Following the completion of this offering and until we consummate our initial business combination, we intend to engage in the business of identifying and combining with one or more businesses. Our sponsor, officers and directors are, and may in the future become, affiliated with entities (such as operating companies or investment vehicles) that are engaged in a similar business, although they may not participate in the formation of, or become an officer or director of, any other special purpose acquisition companies (or, in the case of Marc Saiontz and Neil Glat, any other industrial-focused special purpose acquisition companies) with a class of securities registered under the Exchange Act until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination within 24 months after the closing of this offering.

Our officers and directors also may become aware of business opportunities which may be appropriate for presentation to us and the other entities to which they owe certain fiduciary or contractual duties.

Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. These conflicts may not be resolved in our favor and a potential target business may be presented to another entity prior to its presentation to us. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

For a complete discussion of our officers' and directors' business affiliations and the potential conflicts of interest that you should be aware of, please see the sections of this prospectus entitled "Management — Officers and Directors," "Management — Conflicts of Interest" and "Certain Relationships and Related Party Transactions."

**Our officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.**

We have not adopted a policy that expressly prohibits our directors, officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact, we may enter into an initial business combination with a target business that is affiliated with our sponsor, our directors or officers, although we do not intend to do so.

We do not have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us. Accordingly, such persons or entities may have a conflict between their interests and ours.

**We may engage in an initial business combination with one or more target businesses that have relationships with entities that may be affiliated with our sponsor, officers, directors or existing holders which may raise potential conflicts of interest.**

In light of the involvement of our sponsor, officers and directors with other entities, we may decide to acquire one or more businesses affiliated with our sponsor, officers or directors. Our directors also serve as officers and board members for other entities, including, without limitation, those described under the section of this prospectus entitled “Management — Conflicts of Interest.” Such entities may compete with us for business combination opportunities. Our sponsor, officers and directors are not currently aware of any specific opportunities for us to complete our initial business combination with any entities with which they are affiliated, and there have been no preliminary discussions concerning an initial business combination with any such entity or entities. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met our criteria for an initial business combination as set forth in the section of this prospectus entitled “Proposed Business — Selection of a Target Business and Structuring of our Initial Business Combination” and such transaction was approved by a majority of our disinterested directors. Despite our agreement to obtain an opinion from an independent investment banking firm that is a member of FINRA or from an independent accounting firm, regarding the fairness to our stockholders from a financial point of view of an initial business combination with one or more domestic or international businesses affiliated with our officers, directors or existing holders, potential conflicts of interest still may exist and, as a result, the terms of the initial business combination may not be as advantageous to our public stockholders as they would be absent any conflicts of interest.

**Since our sponsor, officers and directors will lose their entire investment in us if our initial business combination is not completed, a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.**

In February 2020, our sponsor purchased an aggregate of 4,312,500 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.006 per share. The number of founder shares issued was determined based on the expectation that such founder shares would represent 20% of the outstanding shares after this offering. The founder shares will be worthless if we do not complete an initial business combination. In July 2020, our sponsor transferred an aggregate of 867,500 founder shares, including to the following persons: (i) 32,500 founder shares to each of Marc Saiontz and Suzy Taherian, two of our independent directors, (ii) 35,000 founder shares to each of Neil Glat and Brian Mathis, two of our independent directors, (iii) 40,000 founder shares to Kathleen Harris, one of our independent directors, (iv) 50,000 founder shares to Thomas Sullivan, one of our independent directors, (v) 67,500 founder shares to Adam Deutsch, our Chief Financial Officer, (vi) 100,000 founder shares to Charlie Baynes-Reid, our Chief Operating Officer, (vii) 135,000 founder shares to each of Kevin Charlton and Charles Goldman, our Chief Executive Officer and director, respectively, and (viii) 200,000 founder shares to Nick Petruska, our special advisor. In July 2020, our sponsor forfeited 920,000 founder shares and the anchor investors purchased 920,000 founder shares for an aggregate purchase price of approximately \$5,333, or approximately \$0.006 per share. Up to an aggregate of 562,500 founder shares are subject to forfeiture by our sponsor and the anchor investors (442,500 founder shares and 120,000 founder shares, respectively) depending on the extent to which the underwriters’ over-allotment option is exercised. In addition, our sponsor and the anchor investors have committed to purchase an aggregate of 5,250,000 (or 5,700,000 if the underwriters’ over-allotment option is exercised in full) private placement warrants, each exercisable for one share of our Class A common stock at \$11.50 per share, for a purchase price of \$5,250,000 (or \$5,700,000 if the underwriters’ over-allotment option is exercised in full), or \$1.00 per warrant, that will also be worthless if we do not complete an initial business combination. Among the private placement warrants, 3,850,000 private placement warrants (or 4,180,000 private placement warrants if the underwriters’ over-allotment option is exercised in full) will be purchased by our sponsor, and an aggregate of 1,400,000 private placement warrants (or 1,520,000 private placement warrants if the underwriters’ over-allotment option is exercised in full) will be purchased by the anchor investors. Our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed to vote any founder shares owned by it in favor of any proposed initial business combination, and our sponsor, officers, directors, special advisor and that employee and the anchor investors have agreed not to redeem any founder shares in

connection with a stockholder vote to approve a proposed initial business combination. In addition, we may obtain loans from our sponsor, affiliates of our sponsor or an officer or director. The personal and financial interests of our officers and directors may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following the initial business combination.

**We may issue notes or other debt securities, or otherwise incur substantial debt, to complete an initial business combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our stockholders' investment in us.**

Although we have no commitments as of the date of this prospectus to issue any notes or other debt securities, or to otherwise incur outstanding debt following this offering, we may choose to incur substantial debt to complete our initial business combination. We have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to the monies held in the trust account. As such, no issuance of debt will affect the per-share amount available for redemption from the trust account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, our ability to pay expenses, make capital expenditures and acquisitions, and fund other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation;
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, and execution of our strategy; and
- other disadvantages compared to our competitors who have less debt.

**We may only be able to complete one business combination with the proceeds of this offering and the sale of the private placement warrants, which will cause us to be solely dependent on a single business which may have a limited number of services and limited operating activities. This lack of diversification may negatively impact our operating results and profitability.**

Of the net proceeds from this offering and the sale of the private placement warrants, \$150,000,000 (or \$172,500,000 if the underwriters' over-allotment option is exercised in full) will be available to complete our initial business combination and pay related fees and expenses (which includes \$5,250,000 or up to \$6,037,500 if the over-allotment option is exercised in full, for the payment of deferred underwriting commissions).

We may effectuate our initial business combination with a single target business or multiple target businesses simultaneously or within a short period of time. However, we may not be able to effectuate our initial business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that

present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial business combination with only a single entity, our lack of diversification may subject us to numerous economic, competitive and regulatory developments. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. In addition, we intend to focus our search for an initial business combination in a single industry.

Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset, or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory risks, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our initial business combination.

**We may attempt to simultaneously complete business combinations with multiple prospective targets, which may hinder our ability to complete our initial business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.**

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete our initial business combination. We do not, however, intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

**We may attempt to complete our initial business combination with a private company about which little information is available, which may result in an initial business combination with a company that is not as profitable as we suspected, if at all.**

In pursuing our initial business combination strategy, we may seek to effectuate our initial business combination with a privately held company. Very little public information generally exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the basis of limited information, which may result in an initial business combination with a company that is not as profitable as we suspected, if at all.

**Our management may not be able to maintain control of a target business after our initial business combination.**

We may structure an initial business combination so that the posttransaction company in which our public stockholders own shares will own less than 100% of the equity interests or assets of a target business, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for us not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does not meet such criteria. Even if the post-transaction company owns 50% or more of the voting securities of the target, our stockholders prior to the initial business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the initial business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares of Class A common stock in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new shares of common stock, our stockholders immediately prior to such transaction could own less than a majority of our outstanding shares of common stock subsequent to such transaction. In addition, other minority stockholders

may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's stock than we initially acquired. Accordingly, this may make it more likely that our management will not be able to maintain our control of the target business. We cannot provide assurance that, upon loss of control of a target business, new management will possess the skills, qualifications or abilities necessary to profitably operate such business.

**We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete an initial business combination with which a substantial majority of our stockholders do not agree.**

Our amended and restated certificate of incorporation will not provide a specified maximum redemption threshold, except that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (such that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination upon consummation of our initial business combination and after payment of underwriters' fees and commissions. As a result, we may be able to complete our initial business combination even though a substantial majority of our public stockholders do not agree with the transaction and have redeemed their shares or, if we seek stockholder approval of our initial business combination and do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our sponsor, officers, directors, advisors or their affiliates. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed initial business combination exceed the aggregate amount of cash available to us, we will not complete the initial business combination or redeem any shares, all shares of Class A common stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

**In order to effectuate an initial business combination, blank check companies have, in the recent past, amended various provisions of their charters and other governing instruments, including their warrant agreements. We cannot assure you that we will not seek to amend our amended and restated certificate of incorporation or governing instruments in a manner that will make it easier for us to complete our initial business combination that our stockholders may not support.**

In order to effectuate an initial business combination, blank check companies have, in the recent past, amended various provisions of their charters and modified governing instruments, including their warrant agreements. For example, blank check companies have amended the definition of business combination, increased redemption thresholds and extended the time to consummate an initial business combination and, with respect to their warrants, amended their warrant agreements to require the warrants to be exchanged for cash and/or other securities. Amending our amended and restated certificate of incorporation will require the approval of holders of 65% of our common stock, and amending our warrant agreement will require a vote of holders of at least a majority of the outstanding warrants. In addition, our amended and restated certificate of incorporation requires us to provide our public stockholders with the opportunity to redeem their public shares for cash if we propose an amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity. To the extent any such amendments would be deemed to fundamentally change the nature of any securities offered through this registration statement, we would register, or seek an exemption from registration for, the affected securities. We cannot assure you that we will not seek to amend our charter or governing instruments or extend the time to consummate an initial business combination in order to effectuate our initial business combination.

**The provisions of our amended and restated certificate of incorporation that relate to our pre-business combination activity (and corresponding provisions of the agreement governing the release of funds from our trust account), including an amendment to permit us to withdraw funds from the trust account such that the per share amount investors will receive upon any redemption or liquidation is substantially reduced or eliminated, may be amended with the approval of holders of 65% of our common stock, which is a lower amendment threshold than that of some other blank check companies. It may be easier for us, therefore, to amend our amended and restated certificate of incorporation and the trust agreement to facilitate the completion of an initial business combination that some of our stockholders may not support.**

Our amended and restated certificate of incorporation will provide that any of its provisions related to pre initial business combination activity (including the requirement to deposit proceeds of this offering and the private placement of warrants into the trust account and not release such amounts except in specified circumstances, and to provide redemption rights to public stockholders as described herein and including to permit us to withdraw funds from the trust account such that the per share amount investors will receive upon any redemption or liquidation is substantially reduced or eliminated) may be amended if approved by holders of 65% of our common stock entitled to vote thereon, and corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended if approved by holders of 65% of our common stock entitled to vote thereon. Subject to applicable provisions of the DGCL or applicable stock exchanges rules, in all other instances, our amended and restated certificate of incorporation may be amended by holders of a majority of our outstanding common stock entitled to vote thereon. We may not issue additional securities that can vote on amendments to our amended and restated certificate of incorporation. Our initial stockholders (other than the anchor investors) will own up to 15.7% of our common stock upon the closing of this offering (assuming they do not purchase any units in this offering), will participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they choose. As a result, we may be able to amend the provisions of our amended and restated certificate of incorporation which govern our pre-initial business combination behavior more easily than some other blank check companies, and this may increase our ability to complete an initial business combination with which you do not agree. Our stockholders may pursue remedies against us for any breach of our amended and restated certificate of incorporation.

Our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation (i) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their shares of Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, divided by the number of then outstanding public shares. These agreements are contained in a letter agreement that we have entered into with our sponsor, officers, directors and special advisor and that employee. Our stockholders are not parties to, or third-party beneficiaries of, these agreements and, as a result, will not have the ability to pursue remedies against our sponsor, officers, directors, special advisor or that employee for any breach of these agreements. As a result, in the event of a breach, our stockholders would need to pursue a stockholder derivative action, subject to applicable law.

**We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination.**

We have not selected any specific business combination target but intend to target businesses larger than we could acquire with the net proceeds of this offering and the sale of the private placement warrants. As a result, we may be required to seek additional financing to complete such proposed initial business combination. We cannot assure you that such financing will be available on acceptable terms, if at all. To the extent that additional financing proves to be unavailable when needed to complete our initial business combination, we would be compelled to either restructure the transaction or abandon that particular business combination and seek an alternative target business candidate. Further, the amount of additional financing we may be required to obtain could increase as a result of future growth capital needs for any particular transaction, the depletion of the available net proceeds in search of a target business, the obligation to repurchase for cash a significant number of shares from stockholders who

elect redemption in connection with our initial business combination and/or the terms of negotiated transactions to purchase shares in connection with our initial business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share plus any pro rata interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements on the liquidation of our trust account and our warrants will expire worthless. In addition, even if we do not need additional financing to complete our initial business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our officers, directors or stockholders is required to provide any financing to us in connection with or after our initial business combination. If we are unable to complete our initial business combination, our public stockholders may only receive approximately \$10.00 per share on the liquidation of our trust account, and our warrants will expire worthless. Furthermore, as described in the risk factor entitled "If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share," under certain circumstances our public stockholders may receive less than \$10.00 per share upon the liquidation of the trust account.

**Our initial stockholders may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support.**

Upon the closing of this offering, our initial stockholders will own shares representing 20% of our issued and outstanding shares of common stock (assuming they do not purchase any units in this offering). Accordingly, they may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support, including amendments to our amended and restated certificate of incorporation and approval of major corporate transactions. If our initial stockholders purchase any units in this offering or if our initial stockholders purchase any additional shares of common stock in the aftermarket or in privately negotiated transactions, this would increase their control. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our Class A common stock. In addition, our board of directors, whose members were elected by certain of our initial stockholders, is and will be divided into three classes, each of which will generally serve for a term of three years with only one class of directors being elected in each year. We may not hold an annual meeting of stockholders to elect new directors prior to the completion of our initial business combination, in which case all of the current directors will continue in office until at least the completion of the initial business combination. If there is an annual meeting, as a consequence of our "staggered" board of directors, only a minority of the board of directors will be considered for election and our initial stockholders, because of their ownership position, will have considerable influence regarding the outcome. Accordingly, our initial stockholders will continue to exert control at least until the completion of our initial business combination.

**Our sponsor and the anchor investors paid an aggregate of approximately \$25,000, or approximately \$0.006 per founder share, and, accordingly, you will experience immediate and substantial dilution from the purchase of our Class A common stock.**

The difference between the public offering price per share (allocating all of the unit purchase price to the Class A common stock and none to the warrant included in the unit) and the pro forma net tangible book value per share of our Class A common stock after this offering constitutes the dilution to you and the other investors in this offering. Our sponsor and the anchor investors acquired the founder shares at a nominal price, significantly contributing to this dilution. Upon the closing of this offering, and assuming no value is ascribed to the warrants included in the units, you and the other public stockholders will incur an immediate and substantial dilution of approximately 89.2% (or \$1.08 per share, assuming no exercise of the underwriters' over-allotment option), the difference between the pro forma net tangible book value per share of \$1.08 and the initial offering price of \$10.00 per unit. In addition, because of the anti-dilution rights of the founder shares, any equity or equity-linked securities issued or deemed issued in connection with our initial business combination would be disproportionately dilutive to our Class A common stock.

**We may amend the terms of the warrants in a manner that may be adverse to holders of public warrants with the approval by the holders of at least a majority of the then outstanding warrants. As a result, the exercise price of your warrants could be increased, the exercise period could be shortened and the number of shares of our Class A common stock purchasable upon exercise of a warrant could be decreased, all without your approval.**

Our warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least a majority of the then outstanding warrants to make any change that adversely affects the interests of the registered holders of public warrants. Accordingly, we may amend the terms of the public warrants in a manner adverse to a holder if holders of at least a majority of the then outstanding warrants approve of such amendment. Although our ability to amend the terms of the public warrants with the consent of at least a majority of the then outstanding warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, convert the warrants into cash or stock, shorten the exercise period or decrease the number of shares of our Class A common stock purchasable upon exercise of a warrant.

**We may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.**

We have the ability to redeem outstanding warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant, provided that the last reported sales price of our Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30 trading-day period ending on the third trading day prior to the date on which we give proper notice of such redemption and provided certain other conditions are met. If and when the warrants become redeemable by us, we may not exercise our redemption right if the issuance of shares of common stock upon exercise of the warrants is not exempt from registration or qualification under applicable state blue sky laws or we are unable to effect such registration or qualification. We will use our best efforts to register or qualify such shares of common stock under the blue sky laws of those states in which the warrants were offered by us in this offering. Redemption of the outstanding warrants could force you (i) to exercise your warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so, (ii) to sell your warrants at the then-current market price when you might otherwise wish to hold your warrants or (iii) to accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, is likely to be substantially less than the market value of your warrants. None of the private placement warrants will be redeemable by us so long as they are held by our sponsor, the anchor investors or their permitted transferees.

**Our warrants and founder shares may have an adverse effect on the market price of our Class A common stock and make it more difficult to effectuate our initial business combination.**

We will be issuing warrants to purchase 7,500,000 shares of our Class A common stock (or up to 8,625,000 shares of Class A common stock if the underwriters' over-allotment option is exercised in full) as part of the units offered by this prospectus and, simultaneously with the closing of this offering, we will be issuing in a private placement warrants to purchase an aggregate of 5,250,000 (or up to 5,700,000 if the underwriters' over-allotment option is exercised in full) shares of Class A common stock at \$11.50 per share.

Our initial stockholders currently own an aggregate of 4,312,500 founder shares. The founder shares are convertible into shares of Class A common stock on a one-for-one basis, subject to adjustment as set forth herein. In addition, if our sponsor makes any working capital loans, up to \$100,000 of such loans may be converted into warrants, at the price of \$1.00 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. To the extent we issue shares of Class A common stock to effectuate an initial business combination, the potential for the issuance of a substantial number of additional shares of Class A common stock upon exercise of these warrants and conversion rights could make us a less attractive business combination vehicle to a target business. Any such issuance will increase the number of issued and outstanding shares of our Class A common stock and reduce the value of the shares of Class A common stock issued to complete the initial business combination. Therefore, our warrants and founder shares may make it more difficult to effectuate an initial business combination or increase the cost of acquiring the target business.

The private placement warrants are identical to the warrants sold as part of the units in this offering except that, so long as they are held by our sponsor, the anchor investors or their permitted transferees, (i) they will not be redeemable by us, (ii) they (including the Class A common stock issuable upon exercise of these warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold by our sponsor until 30 days after the completion of our initial business combination and (iii) they may be exercised by the holders on a cashless basis.

**Because each unit contains one-half of one redeemable warrant and only a whole warrant may be exercised, the units may be worth less than units of other blank check companies.**

Each unit contains one-half of one redeemable warrant. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least two units, you will not be able to receive or trade a whole warrant. This is different from other offerings similar to ours whose units include one share of common stock and one warrant to purchase one whole share. We have established the components of the units in this way in order to reduce the dilutive effect of the warrants upon completion of an initial business combination since the warrants will be exercisable in the aggregate for one half of the number of shares compared to units that each contain a whole warrant to purchase one whole share, thus making us, we believe, a more attractive merger partner for target businesses. Nevertheless, this unit structure may cause our units to be worth less than if they included a warrant to purchase one whole share.

**A provision of our warrant agreement may make it more difficult for use to consummate an initial business combination.**

Unlike most blank check companies, if we issue additional shares of common stock or equitylinked securities for capital raising purposes in connection with the closing of our initial business combination at a newly issued price of less than \$9.20 per share of common stock, then the exercise price of the warrants will be adjusted to be equal to 115% of the newly issued price. This may make it more difficult for us to consummate an initial business combination with a target business.

**The determination of the offering price of our units and the size of this offering is more arbitrary than the pricing of securities and size of an offering of an operating company in a particular industry. You may have less assurance, therefore, that the offering price of our units properly reflects the value of such units than you would have in a typical offering of an operating company.**

Prior to this offering there has been no public market for any of our securities. The public offering price of the units and the terms of the warrants were negotiated between us and the underwriters. In determining the size of this offering, management held customary organizational meetings with representatives of the underwriters, both prior to our inception and thereafter, with respect to the state of capital markets, generally, and the amount the underwriters believed they reasonably could raise on our behalf. Factors considered in determining the size of this offering, prices and terms of the units, including the Class A common stock and warrants underlying the units, include:

- the history and prospects of companies whose principal business is the acquisition of other companies;
- prior offerings of those companies;
- our prospects for acquiring an operating business;
- a review of debt to equity ratios in leveraged transactions;
- our capital structure;
- an assessment of our management and their experience in identifying operating companies;
- general conditions of the securities markets at the time of this offering; and
- other factors as were deemed relevant.

Although these factors were considered, the determination of our offering price is more arbitrary than the pricing of securities of an operating company in a particular industry since we have no historical operations or financial results.

**There is currently no market for our securities and a market for our securities may not develop, which would adversely affect the liquidity and price of our securities.**

There is currently no market for our securities. Stockholders therefore have no access to information about prior market history on which to base their investment decision. Following this offering, the price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions. Furthermore, an active trading market for our securities may never develop or, if developed, it may not be sustained. You may be unable to sell your securities unless a market can be established and sustained.

**Because we must furnish our stockholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.**

The federal proxy rules require that a proxy statement with respect to a vote on an initial business combination meeting certain financial significance tests include historical and/or pro forma financial statement disclosure in periodic reports. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America, or GAAP, or international financial reporting standards as issued by the International Accounting Standards Board, or IFRS, depending on the circumstances and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), or PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such financial statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame.

**We are an emerging growth company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to emerging growth companies, this could make our securities less attractive to investors and may make it more difficult to compare our performance with other public companies.**

We are an “emerging growth company” within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. As a result, our stockholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the market value of our Class A common stock held by non-affiliates exceeds \$700 million as of any June 30 before that time, in which case we would no longer be an emerging growth company as of the following December 31. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

**Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate our initial business combination, require substantial financial and management resources, and increase the time and costs of completing an initial business combination.**

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2020. Only in the event we are deemed to be a large accelerated filer or an accelerated filer, and no longer qualify as an emerging growth company, will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we will not be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target company with which we seek to complete our initial business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such business combination.

**Provisions in our amended and restated certificate of incorporation and Delaware law may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our Class A common stock and could entrench management.**

Our amended and restated certificate of incorporation will contain provisions that may discourage unsolicited takeover proposals that stockholders may consider to be in their best interests. These provisions include a staggered board of directors and the ability of the board of directors to designate the terms of and issue new series of preferred shares, which may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

We are also subject to anti-takeover provisions under Delaware law, which could delay or prevent a change of control. Together these provisions may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

**Our amended and restated certificate of incorporation will require, to the fullest extent permitted by law, that derivative actions brought in our name, actions against our directors, officers, other employees or stockholders for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware and, if brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder's counsel, which may have the effect of discouraging lawsuits against our directors, officers, other employees or stockholders.**

Our amended and restated certificate of incorporation will require, to the fullest extent permitted by law, that derivative actions brought in our name, actions against our directors, officers, other employees or stockholders for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware and, if brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder's counsel except any action (A) as to which the Court of Chancery in the State of Delaware determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), (B) which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, (C) for which the Court of Chancery does not have subject matter jurisdiction, or (D) any action arising under the Securities Act, as to which the Court of Chancery and the federal district court for the District of Delaware shall have concurrent jurisdiction. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have notice of and consented to the forum provisions in our amended and restated certificate of incorporation. This choice of forum provision may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our directors, officers, other employees or stockholders, which may discourage lawsuits with respect to such claims, although our stockholders will not be deemed to have waived our compliance with federal securities laws and the rules and regulations thereunder. However, there is no assurance that a court would enforce the choice of forum provision contained in our amended and restated certificate of incorporation. If a court were to find such provision to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, operating results and financial condition.

Our amended and restated certificate of incorporation will provide that the exclusive forum provision will be applicable to the fullest extent permitted by applicable law. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. As a result, the exclusive forum provision will not apply to suits brought to enforce any duty or liability created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction.

**Cyber incidents or attacks directed at us could result in information theft, data corruption, operational disruption and/or financial loss.**

We depend on digital technologies, including information systems, infrastructure and cloud applications and services, including those of third parties with which we may deal. Sophisticated and deliberate attacks on, or security breaches in, our systems or infrastructure, or the systems or infrastructure of third parties or the cloud, could lead to corruption or misappropriation of our assets, proprietary information and sensitive or confidential data. As an early stage company without significant investments in data security protection, we may not be sufficiently protected against such occurrences. We may not have sufficient resources to adequately protect against, or to investigate and remediate any vulnerability to, cyber incidents. It is possible that any of these occurrences, or a combination of them, could have adverse consequences on our business and lead to financial loss.

**If we effect our initial business combination with a company with operations or opportunities outside of the United States, we would be subject to a variety of additional risks that may negatively impact our operations.**

If we effect our initial business combination with a company with operations or opportunities outside of the United States, we would be subject to any special considerations or risks associated with companies operating in an international setting, including any of the following:

- higher costs and difficulties inherent in managing cross-border business operations and complying with different commercial and legal requirements of overseas markets;
- rules and regulations regarding currency redemption;
- complex corporate withholding taxes on individuals;
- laws governing the manner in which future business combinations may be effected;
- tariffs and trade barriers;
- regulations related to customs and import/export matters;
- longer payment cycles and challenges in collecting accounts receivable;
- tax issues, including but not limited to tax law changes and variations in tax laws as compared to the United States;
- currency fluctuations and exchange controls;
- rates of inflation;
- cultural and language differences;
- employment regulations;
- changes in industry, regulatory or environmental standards within the jurisdictions where we operate;
- crime, strikes, riots, civil disturbances, terrorist attacks, natural disasters and wars;
- deterioration of political relations with the United States; and
- government appropriations of assets.

We may not be able to adequately address these additional risks. If we were unable to do so, our operations might suffer, which may adversely impact our results of operations and financial condition.

## CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements in this prospectus may constitute “forward-looking statements” for purposes of the federal securities laws. Our forward-looking statements include, but are not limited to, statements regarding our or our management team’s expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements in this prospectus may include, for example, statements about:

- our ability to select an appropriate target business or businesses;
- our ability to complete our initial business combination;
- our expectations around the performance of the prospective target business or businesses;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination, as a result of which they would then receive expense reimbursements;
- our potential ability to obtain additional financing to complete our initial business combination;
- our pool of prospective target businesses;
- the ability of our officers and directors to generate a number of potential acquisition opportunities;
- our public securities’ potential liquidity and trading;
- the lack of a market for our securities;
- the use of proceeds not held in the trust account or available to us from interest income on the trust account balance;
- the trust account not being subject to claims of third parties; or
- our financial performance following this offering.

The forward-looking statements contained in this prospectus are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the section of this prospectus entitled “Risk Factors.” Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

## USE OF PROCEEDS

We are offering 15,000,000 units at an offering price of \$10.00 per unit. We estimate that the net proceeds of this offering, together with the funds we will receive from the sale of the private placement warrants upon the closing of this offering, will be used as set forth in the following table.

	Without Over-Allotment Option	Over-Allotment Option Fully Exercised
<b>Gross proceeds</b>		
Gross proceeds from units offered to public <sup>(1)</sup>	\$ 150,000,000	\$ 172,500,000
Gross proceeds from private placement warrants offered in the private placement	\$ 5,250,000	\$ 5,700,000
Total gross proceeds	\$ 155,250,000	\$ 178,200,000
<b>Offering expenses<sup>(2)</sup></b>		
Underwriting commissions (2% of gross proceeds from units offered to public, excluding deferred portion) <sup>(3)</sup>	\$ 3,000,000	\$ 3,450,000
Legal fees and expenses	250,000	250,000
Accounting fees and expenses	37,500	37,500
SEC/FINRA Expenses	48,766	48,766
Travel and road show	25,000	25,000
Nasdaq listing and filing fees	75,000	75,000
Director and Officer liability insurance premiums	100,000	100,000
Printing and engraving expenses	40,000	40,000
Miscellaneous	173,734	173,734
Total offering expenses (excluding underwriting commissions)	\$ 750,000	\$ 750,000
Proceeds after offering expenses	\$ 151,500,000	\$ 174,000,000
Held in trust account	\$ 150,000,000	\$ 172,500,000
% of public offering size	100%	100%
Not held in trust account	\$ 1,500,000	\$ 1,500,000

The following table shows the use of the approximately \$1,500,000 of net proceeds not held in the trust account.<sup>(4)</sup>

	Amount	% of Total
Legal, accounting, due diligence, travel, and other expenses in connection with any business combination <sup>(5)</sup>	\$ 320,000	21.34%
Legal and accounting fees related to regulatory reporting obligations	50,000	3.33%
Payment for office space, utilities and secretarial and administrative support (\$15,000 per month for up to 24 months)	360,000	24.00%
Working capital to cover miscellaneous expenses	770,000	51.33%
Total	\$ 1,500,000	100.0%

- (1) Includes gross proceeds from this offering of \$150,000,000 (or \$172,500,000 if the underwriters' over-allotment option is exercised in full).
- (2) A portion of the offering expenses will be paid from the proceeds of up to \$300,000 in loans from our sponsor pursuant to a promissory note as described in this prospectus. As of June 30, 2020, we had borrowed approximately \$25,000 under the promissory note, including approximately \$3,000 for costs paid directly by our sponsor, to be used for a portion of the expenses of this offering. Any borrowed amounts will be repaid upon completion of this offering out of the offering proceeds that has been allocated for the payment of offering expenses (other than underwriting commissions). In the event that offering expenses are more than as set forth in this table, they will be repaid using a portion of the \$1,500,000 of offering proceeds not held in the trust account and set aside for post-closing working capital expenses. In the event that offering expenses are less than set forth in this table, any such amounts will be used for post-closing working capital expenses.

- (3) The underwriters have agreed to defer underwriting commissions equal to 3.5% of the gross proceeds of this offering. Upon completion of our initial business combination, \$5,250,000 which constitutes the underwriters' deferred commissions (or up to \$6,037,500 if the underwriters' over-allotment option is exercised in full) will be paid to the underwriters from the funds held in the trust account, and the remaining funds, less amounts released to the trustee to pay redeeming stockholders, will be released to us and can be used to pay all or a portion of the purchase price of the business or businesses with which our initial business combination occurs or for general corporate purposes, including payment of principal or interest on indebtedness incurred in connection with our initial business combination, to fund the purchases of other companies or for working capital. The underwriters will not be entitled to any interest accrued on the deferred underwriting discounts and commissions.
- (4) These expenses are estimates only and do not include interest which may be available to us from the trust account. Our actual expenditures for some or all of these items may differ from the estimates set forth herein. For example, we may incur greater legal and accounting expenses than our current estimates in connection with negotiating and structuring our initial business combination based upon the level of complexity of such business combination. In the event we identify an initial business combination target in a specific industry subject to specific regulations, we may incur additional expenses associated with legal due diligence and the engagement of special legal counsel. In addition, our staffing needs may vary and as a result, we may engage a number of consultants to assist with legal and financial due diligence. We do not anticipate any change in our intended use of proceeds, other than fluctuations among the current categories of allocated expenses, which fluctuations, to the extent they exceed current estimates for any specific category of expenses, would not be available for our expenses.
- (5) Includes estimated amounts that may also be used in connection with our initial business combination to fund a "no shop" provision and commitment fees for financing.

We may increase or decrease the total number of units sold to the public in this offering by up to 20%. If we decide to proceed with an offering that results in an increase in the total number of units sold to the public, we would have additional proceeds from the offering available to pursue an acquisition. If we proceed with an offering that results in a decrease in the total number of shares sold to the public, we would have reduced proceeds from the offering available to pursue an acquisition. Such an increase or decrease may impact the size of the initial business combination we may pursue. In addition, the proceeds held in trust would correspondingly increase or decrease such that 100% of the gross proceeds from this offering initially will be held in trust. The underwriters' option to purchase additional units to cover over-allotments and the amount of private placement warrants that our sponsor will purchase will correspondingly increase or decrease. We would issue additional shares of Class B common stock in the event we increase the total number of units sold in this offering and the holders of our Class B common stock would forfeit shares of Class B common stock in the event we decrease the total number of units sold in this offering so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon the completion of this offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the initial business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial business combination, any private placement-equivalent warrants issued to our sponsor or its affiliates upon conversion of loans made to us).

Of the net proceeds of this offering and the sale of the private placement warrants, \$150,000,000 (or \$172,500,000 if the underwriters' over-allotment option is exercised in full), including \$5,250,000 (or up to \$6,037,500 if the underwriters' over-allotment option is exercised in full) of deferred underwriting commissions, will be placed in a trust account in the United States with Continental Stock Transfer & Trust Company acting as trustee, and will be invested only in U.S. government treasury bills with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. We estimate that the interest earned on the trust account will be approximately \$375,000 per year, assuming an interest rate of 0.25% per year; however, we can provide no assurance regarding this amount. Except with respect to interest earned on the funds held in the trust account that may be released to us to pay (i) our tax obligations and (ii) our working capital requirements (in an amount up to \$250,000 annually), the proceeds from this offering and the sale of the private placement warrants will not be released from the trust account until the earliest to occur of: (a) the completion of our initial business combination, (b) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, and (c) the redemption of our public shares if we are unable to complete our initial business combination within 24 months from the closing of this offering, subject to applicable law.

The net proceeds held in the trust account may be used as consideration to pay the sellers of a target business with which we ultimately complete our initial business combination. If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may apply the balance of the cash released from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital. There is no limitation on our ability to raise funds privately or through loans in connection with our initial business combination.

We believe that amounts not held in trust will be sufficient to pay the costs and expenses to which such proceeds are allocated. This belief is based on the fact that while we may begin preliminary due diligence of a target business in connection with an indication of interest, we intend to undertake in-depth due diligence, depending on the circumstances of the relevant prospective business combination, only after we have negotiated and signed a letter of intent or other preliminary agreement that addresses the terms of an initial business combination. However, if our estimate of the costs of undertaking in-depth due diligence and negotiating an initial business combination is less than the actual amount necessary to do so, we may be required to raise additional capital, the amount, availability and cost of which is currently unascertainable. If we are required to seek additional capital, we could seek such additional capital through loans or additional investments from our sponsor, members of our management team or their affiliates, but such persons are not under any obligation to advance funds to, or invest in, us.

Commencing on the date of this prospectus, we have agreed to pay an affiliate of our sponsor a total of \$15,000 per month for office space, utilities and secretarial and administrative support. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

In February 2020, our sponsor agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering pursuant to a promissory note. As of June 30, 2020, we had borrowed approximately \$25,000 under the promissory note, including approximately \$3,000 for costs paid directly by our sponsor. The note is non-interest bearing, unsecured and payable promptly after the earlier of the date on which the Company consummates this offering or the date on which the Company determines this to conduct this offering.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts out of the proceeds of the trust account released to us. Otherwise, such loans would be repaid only out of funds held outside the trust account. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$100,000 of such loans may be convertible into warrants, at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our initial stockholders, directors, officers, advisors or their affiliates may purchase public shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. There is no limit on the number of shares our initial stockholders, directors, officers, advisors or their affiliates may purchase in such transactions, subject to compliance with applicable law and Nasdaq rules. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules. Any such purchases will be

reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. None of the funds held in the trust account will be used to purchase public shares or public warrants in such transactions prior to completion of our initial business combination. See “Proposed Business — Permitted purchases of our securities” for a description of how our initial stockholders, directors, officers, advisors or any of their affiliates will select which stockholders to purchase securities from in any private transaction.

The purpose of any such purchases of shares could be to vote such shares in favor of the initial business combination and thereby increase the likelihood of obtaining stockholder approval of the initial business combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. In addition, if such purchases are made, the public “float” of our shares of Class A common stock or warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

The anchor investors have expressed to us an interest to purchase an aggregate of \$40,000,000 of units in this offering (or \$46,000,000 of units if the underwriters’ over-allotment option is exercised in full), and we have agreed to direct the underwriters to sell to the anchor investors such number of units. Further, the anchor investors have entered into separate agreements with us, the combined effect of which is that, if the anchor investors, collectively, do not own 4,000,000 public shares; which amount will be reduced on a pro rata basis if less than 15,000,000 units are sold in this offering), on the date of any stockholder vote with respect to an initial business combination or the business day immediately prior to the consummation of our initial business combination, certain or all of the anchor investors will be required to transfer to our sponsor a pro rata portion of the founder shares they purchased prior to this offering; provided, however, that such transfers of founder shares to our sponsor shall not result in the remaining number of founder shares collectively held by the anchor investors being less than 200,000 founder shares (or less than 230,000 founder shares if the underwriters’ over-allotment option is exercised in full). In addition, each anchor investor will be subject to any forfeiture of their founder shares on the same terms as the founder shares held by our sponsor may be forfeited in connection with our business combination, provided such forfeiture shall not reduce the number of founder shares held by such anchor investor below 25% of the founder shares purchased by such anchor investor prior to this offering.

There can be no assurance that the anchor investors will acquire any units in this offering, or as to the amount of equity the anchor investors will retain, if any, upon the consummation of our initial business combination. In the event that the anchor investors purchase such units (either in this offering or after) and vote them in favor of our initial business combination, it is possible that no votes from other public stockholders would be required to approve our initial business combination, depending on the number of shares that are present at the meeting to approve such transaction. As a result of the founder shares and private placement warrants that the anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders.

We may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters’ fees and commissions (so that we are not subject to the SEC’s “penny stock” rules) and the agreement for our initial business combination may require as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights so that we cannot satisfy the net tangible asset requirement or any net worth or cash requirements, we would not proceed with the redemption of our public shares or the initial business combination, and instead may search for an alternate business combination.

A public stockholder will be entitled to receive funds from the trust account only upon the earliest to occur of: (i) our completion of an initial business combination, (ii) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision

relating to stockholders' rights or pre-initial business combination activity, and (iii) the redemption of our public shares if we are unable to complete our initial business combination within 24 months following the closing of this offering, subject to applicable law and as further described herein and any limitations (including but not limited to cash requirements) created by the terms of the proposed initial business combination. In no other circumstances will a public stockholder have any right or interest of any kind to or in the trust account.

Our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our initial business combination. In addition, our initial stockholders have agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within the prescribed time frame. However, if our initial stockholders or their affiliates acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the prescribed time frame. Permitted transferees of the founder shares held by our sponsor, officers, directors, special advisor and such employee or the anchor investors, would be subject to the same restrictions applicable to our sponsor, officers, directors, special advisor and such employee or the anchor investors, respectively.

## DIVIDEND POLICY

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. If we increase or decrease the size of the offering we will effect a stock dividend or a share contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of the offering in such amount as to maintain the ownership of our initial stockholders at 20.0% of the issued and outstanding shares of our common stock upon the consummation of this offering. Further, if we incur any indebtedness in connection with our initial business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

## DILUTION

The difference between the public offering price per share of Class A common stock, assuming no value is attributed to the warrants included in the units we are offering pursuant to this prospectus or the private placement warrants, and the pro forma net tangible book value per share of our Class A common stock after this offering constitutes the dilution to investors in this offering. Such calculation does not reflect any dilution associated with the sale and exercise of warrants, including the private placement warrants, which would cause the actual dilution to the public stockholders to be higher, particularly where a cashless exercise is utilized. Net tangible book value per share is determined by dividing our net tangible book value, which is our total tangible assets less total liabilities (including the value of Class A common stock which may be redeemed for cash), by the number of outstanding shares of our Class A common stock.

At June 30, 2020, our net tangible book value was \$(150,000), or approximately \$(0.03) per share of common stock. After giving effect to the sale of 15,000,000 shares of Class A common stock included in the units we are offering by this prospectus (or 17,250,000 shares of Class A common stock if the underwriters' over-allotment option is exercised in full), the sale of the private placement warrants and the deduction of underwriting commissions and estimated expenses of this offering, our pro forma net tangible book value at June 30, 2020 would have been \$5,000,010, or approximately \$1.08 per share (or \$0.98 per share if the underwriters' over-allotment option is exercised in full), representing an immediate increase in net tangible book value (as decreased by the value of the 14,127,299 shares of Class A common stock that may be redeemed for cash, or 16,298,549 shares of Class A common stock if the underwriters' over-allotment option is exercised in full) of \$1.11 per share (or \$0.98 per share if the underwriters' over-allotment option is exercised in full) to our initial stockholders as of the date of this prospectus and dilution to public stockholders from this offering will be \$8.92 per share (or \$9.05 if the underwriters' over-allotment option is exercised in full).

The following table illustrates the dilution to the public stockholders on a per-share basis, assuming no value is attributed to the warrants included in the units or the private placement warrants:

	No exercise of over-allotment option	Exercise of over-allotment option in full
Public offering price	\$ 10.00	\$ 10.00
Net tangible book value before this offering	\$ (0.03)	\$ (0.03)
Increase attributable to public stockholders and sale of the private placement warrants <sup>(1)</sup>	\$ 1.11	\$ 0.98
Pro forma net tangible book value after this offering	\$ 1.08	\$ 0.95
Dilution to public stockholders	\$ 8.92	\$ 9.05
Percentage of dilution to public stockholders	(89.2)%	(90.5)%

(1) Calculation also accounts for decrease attributable to public shares subject to redemption.

For purposes of presentation, we have reduced our pro forma net tangible book value after this offering (assuming no exercise of the underwriters' over-allotment option) by \$141,272,990 because holders of up to approximately 94.2% of our public shares may redeem their shares for a pro rata share of the aggregate amount then on deposit in the trust account at a per share redemption price equal to the amount in the trust account as set forth in our tender offer or proxy materials (initially anticipated to be the aggregate amount held in trust two days prior to the commencement of our tender offer or stockholders meeting, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements), divided by the number of shares of Class A common stock sold in this offering.

The following table sets forth information with respect to our initial stockholders and the public stockholders:

	Shares Purchased		Total Consideration		Average Price Per Share
	Number	Percentage	Amount	Percentage	
Initial Stockholders <sup>(1)</sup>	3,750,000	20.000%	\$ 25,000	00.02%	\$ 0.007
Public Stockholders	15,000,000	80.000%	150,000,000	99.98%	\$ 10.000
	18,750,000	100.000%	\$ 150,025,000	100.000%	

(1) Assumes no exercise of the underwriters' over-allotment option and the corresponding forfeiture of an aggregate of 562,500 shares of Class B common stock held by our sponsor and the anchor investors.

The pro forma net tangible book value per share after the offering is calculated as follows:

	<b>Without Over-allotment</b>	<b>With Over-allotment</b>
<b>Numerator:</b>		
Net tangible book deficit before this offering	\$ (150,000)	\$ (150,000)
Net proceeds from this offering and sale of the private placement warrants, net of expenses <sup>(1)</sup>	151,500,000	174,000,000
Plus: Offering costs paid in advance, excluded from tangible book value	173,000	173,000
Less: Deferred underwriters' commissions payable	(5,250,000)	(6,037,500)
Less: Proceeds held in trust subject to redemption to maintain net tangible assets in excess of \$5,000,000 <sup>(2)</sup>	(141,272,990)	(162,985,490)
	<b>\$ 5,000,010</b>	<b>5,000,010</b>

	<b>Without Over-allotment</b>	<b>With Over-allotment</b>
<b>Denominator:</b>		
Shares of Class B common stock outstanding prior to this offering	4,312,500	4,312,500
Shares of Class B common stock forfeited if over-allotment is not exercised	(562,500)	—
Shares of Class A common stock included in the units offered	15,000,000	17,250,000
Less: Shares subject to redemption	(14,127,299)	(16,298,549)
	<b>4,622,701</b>	<b>5,263,951</b>

- (1) Expenses applied against gross proceeds include offering expenses of \$750,000 and underwriting commissions of \$3,000,000 (or \$3,450,000 if the underwriters' over-allotment option is exercised in full) excluding deferred underwriting fees. See "Use of Proceeds."
- (2) If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our initial stockholders, directors, executive officers, advisors or their affiliates may purchase public shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. In the event of any such purchases of our shares prior to the completion of our initial business combination, the number of shares of Class A common stock subject to redemption will be reduced by the amount of any such purchases, increasing the pro forma net tangible book value per share. See "Proposed Business — Effecting Our Initial Business Combination — Permitted Purchases of Our Securities."

## CAPITALIZATION

The following table sets forth our capitalization at June 30, 2020, and as adjusted to give effect to the sale of our units in this offering and the sale of the private placement warrants and the application of the estimated net proceeds derived from the sale of such securities, assuming no exercise by the underwriters of its over-allotment option (dollar amounts have been rounded to the nearest thousand):

	June 30, 2020	
	Actual	As Adjusted
Notes payable to related party <sup>(1)</sup>	\$ 25,000	\$ —
Deferred underwriting commissions <sup>(2)</sup>	\$ —	\$ 5,250,000
Class A common stock subject to possible redemption; -0- shares, actual, 14,127,299 shares, as adjusted	—	\$ 141,273,000
Preferred stock, \$0.0001 par value, 1,000,000 shares authorized; none issued and outstanding, actual and as adjusted	—	—
Class A common stock, \$0.0001 par value, 45,000,000 shares authorized; -0- and 872,701 shares issued and outstanding (excluding -0- and 14,127,299 shares subject to possible redemption), actual and as adjusted, respectively <sup>(3)</sup>	—	—
Class B common stock, \$0.0001 par value, 5,000,000 shares authorized, 4,312,500 and 3,750,000 shares issued and outstanding, actual and as adjusted, respectively <sup>(4)</sup>		
Additional paid-in capital	25,000	5,002,000
Accumulated deficit	(2,000)	(2,000)
Total stockholder's equity	23,000	5,000,000
Total capitalization	\$ 48,000	\$ 151,523,000

- (1) Our sponsor has agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering, and we have issued a promissory note to our sponsor to evidence this. As of June 30, 2020, we had borrowed approximately \$25,000 under the promissory note, including approximately \$3,000 for costs paid directly by our sponsor. The "as adjusted" information gives effect to the repayment of the \$25,000 in borrowings from the proceeds of this offering and the sale of the private placement warrants.
- (2) \$0.35 per unit, or \$5,250,000 in the aggregate, will be payable to the underwriters for deferred underwriting commissions. The deferred underwriting commissions will become payable to the underwriters from the amounts held in the trust account solely in the event that we complete an initial business combination, subject to the terms of the underwriting agreement. We record deferred underwriting commissions upon the closing of the initial public offering as a reduction of additional paid-in capital. Since the actual additional paid-in capital was reduced by the recording of the accrued deferred underwriting commission, total capitalization, as adjusted, includes the amount of the deferred underwriting commission to reflect total capitalization.
- (3) Upon the completion of our initial business combination, we will provide our stockholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements, subject to the limitations described herein whereby our net tangible assets will be maintained at a minimum of \$5,000,001 upon consummation of our initial business combination and any limitations (including, but not limited to, cash requirements) created by the terms of the proposed initial business combination.
- (4) Actual share amount is prior to any forfeiture of founder shares by our sponsor and the anchor investors and as adjusted amount assumes no exercise of the underwriters' over-allotment option and, consequently, forfeiture of an aggregate of 562,500 founder shares by our sponsor and the anchor investors.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**Overview**

We are a blank check company incorporated as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private placement warrants, the proceeds of the sale of our shares in connection with our initial business combination and (pursuant to backstop agreements we may enter into following the consummation of this offering or otherwise), shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target, or a combination of the foregoing.

Our sponsor is controlled by NewHold Enterprises, a private investment firm founded in 2017 by Kevin Charlton and Charles Goldman that makes investments on behalf of a network of family offices and high net worth individuals, each generally with between \$1 billion and \$2 billion of assets under management. NewHold Enterprises is led by an experienced management team with decades of experience from leading private equity firms and deep sector expertise. Additionally, Mr. Charlton has significant experience sourcing and executing transactions with similarly structured special purpose acquisition companies, including Hennessy Capital Acquisition Corp., Hennessy Capital Acquisition Corp. II and Hennessy Capital Acquisition Corp. III. We believe the expertise and experience of the NewHold Enterprises team in structuring complex transactions and accessing capital for growth, combined with our unique access to NewHold Enterprises' extensive network of relationships, will make us a partner of choice for potential business combination targets. We intend to focus our efforts on sourcing, evaluating and executing a business combination by leveraging NewHold Enterprises' deep network of over 100 family offices, more than 95 high net worth investors and relationships with a large number of traditional private equity firms.

The issuance of additional shares in connection with an initial business combination to the owners of the target or other investors:

- may significantly dilute the equity interest of investors in this offering, which dilution would increase if the anti-dilution provisions in the Class B common stock resulted in the issuance of Class A shares on a greater than one-to-one basis upon conversion of the Class B common stock;
- may subordinate the rights of holders of our common stock if preferred stock is issued with rights senior to those afforded our common stock;
- could cause a change in control if a substantial number of shares of our common stock is issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the stock ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for our Class A common stock and/or warrants.

Similarly, if we issue debt securities or otherwise incur significant debt to bank or other lenders or the owners of a target, it could result in:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;

- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, our ability to pay expenses, make capital expenditures and acquisitions, and fund other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation;
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, and execution of our strategy; and
- other purposes and other disadvantages compared to our competitors who have less debt.

As indicated in the accompanying financial statements, at June 30, 2020, we had no cash, approximately \$173,000 in deferred offering costs, liabilities of approximately \$150,000 (including approximately \$25,000 in notes payable to our sponsor) and a loss of approximately \$2,000. In the short term, we expect to incur costs in connection with consummating this offering. Thereafter, we expect to incur significant costs in the pursuit of our initial business combination plans. We cannot assure you that our plans to raise capital or to complete our initial business combination will be successful.

#### **Results of Operations and Known Trends or Future Events**

We have neither engaged in any operations nor generated any revenues to date. Our only activities since inception have been organizational activities and those necessary to prepare for this offering. Following this offering, we will not generate any operating revenues until after completion of our initial business combination. We will generate non-operating income in the form of interest income on cash and cash equivalents after this offering. There has been no significant change in our financial position and no material adverse change has occurred since the date of our audited financial statements. After this offering, we expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as expenses as we conduct due diligence on prospective business combination candidates. We expect our expenses to increase substantially after the closing of this offering.

#### **Liquidity and Capital Resources**

As indicated in the accompanying financial statements, at June 30, 2020, we had no cash and a working capital deficit of approximately \$150,000. Our liquidity needs are being satisfied prior to the completion of this offering through a capital contribution from our sponsor and the anchor investors of \$25,000 and up to \$300,000 in loans available from our sponsor under an unsecured promissory note (approximately \$25,000 of which has been borrowed at June 30, 2020). We expect that these funds will be sufficient to fund our costs until the completion of this offering. We estimate that the net proceeds from (i) the sale of the units in this offering, after deducting offering expenses of approximately \$750,000, underwriting commissions of \$3,000,000 (or \$3,450,000 if the underwriters' over-allotment option is exercised in full) (excluding deferred underwriting commissions of \$5,250,000 (or \$6,037,500 if the underwriters' over-allotment option is exercised in full)), and (ii) the sale of the private placement warrants for a purchase price of \$5,250,000 (or \$5,700,000 if the over-allotment option is exercised in full), will be \$151,500,000 (or \$174,000,000 if the underwriters' over-allotment option is exercised in full). Of this amount, \$150,000,000 (or \$172,500,000 if the underwriters' over-allotment option is exercised in full) will be held in the trust account, which includes \$5,250,000 (or \$6,037,500 if the underwriters' over-allotment option is exercised in full) of deferred underwriting commissions. The proceeds held in the trust account will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct

U.S. government treasury obligations. The remaining approximately \$1,500,000 will not be held in the trust account. In the event that our offering expenses exceed our estimate of \$750,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$750,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account to complete our initial business combination (less deferred underwriting commissions). We may withdraw interest to pay taxes and up to \$250,000 per year for working capital purposes. We estimate our annual franchise tax obligations, based on the number of shares of our common stock authorized and outstanding after the completion of this offering, to be \$200,000, which is the maximum amount of annual franchise taxes payable by us as a Delaware corporation per annum, which we may pay from funds from this offering held outside of the trust account or from interest earned on the funds held in our trust account and released to us for this purpose. Our annual income tax obligations will depend on the amount of interest and other income earned on the amounts held in the trust account. We expect the interest earned on the amount in the trust account will be sufficient to pay our income and franchise taxes. To the extent that our capital stock or debt is used, in whole or in part, as consideration to complete our initial business combination, the remaining proceeds held in the trust account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

Prior to the completion of our initial business combination, we will have available to us the approximately \$1,500,000 of proceeds held outside the trust account. We will use these funds to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete an initial business combination.

In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$100,000 of such loans may be convertible into warrants, at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

We expect our primary liquidity requirements during that period to include approximately \$320,000 for legal, accounting, due diligence, travel and other expenses associated with structuring, negotiating and documenting successful business combinations; \$50,000 for legal and accounting fees related to regulatory reporting requirements, \$360,000 for office space, utilities and secretarial and administrative support; and approximately \$770,000 for working capital that will be used for miscellaneous expenses and reserves.

These amounts are estimates and may differ materially from our actual expenses. In addition, we could use a portion of the funds not being placed in trust to pay commitment fees for financing, fees to consultants to assist us with our search for a target business or as a down payment or to fund a “no-shop” provision (a provision designed to keep target businesses from “shopping” around for transactions with other companies on terms more favorable to such target businesses) with respect to a particular proposed initial business combination, although we do not have any current intention to do so. If we entered into an agreement where we paid for the right to receive exclusivity from a target business, the amount that would be used as a down payment or to fund a “no-shop” provision would be determined based on the terms of the specific business combination and the amount of our available funds at the time. Our forfeiture of such funds (whether as a result of our breach or otherwise) could result in our not having sufficient funds to continue searching for, or conducting due diligence with respect to, prospective target businesses.

We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business. However, if our estimates of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination are less than the actual

amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial business combination. Moreover, we may need to obtain additional financing either to complete our initial business combination or because we become obligated to redeem a significant number of our public shares upon completion of our initial business combination, in which case we may issue additional securities or incur debt in connection with such business combination. In addition, we intend to target businesses larger than we could acquire with the net proceeds of this offering and the sale of the private placement warrants, and may as a result be required to seek additional financing to complete such proposed initial business combination. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our initial business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. In addition, following our initial business combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

### **Controls and Procedures**

We are not currently required to maintain an effective system of internal controls as defined by Section 404 of the Sarbanes-Oxley Act. We will be required to comply with the internal control requirements of the Sarbanes-Oxley Act for the fiscal year ending December 31, 2020. Only in the event that we are deemed to be a large accelerated filer or an accelerated filer would we be required to comply with the independent registered public accounting firm attestation requirement. Further, for as long as we remain an emerging growth company as defined in the JOBS Act, we intend to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirement.

Prior to the closing of this offering, we have not completed an assessment, nor has our independent registered public accounting firm tested our systems, of internal controls. We expect to assess the internal controls of our target business or businesses prior to the completion of our initial business combination and, if necessary, to implement and test additional controls as we may determine are necessary in order to state that we maintain an effective system of internal controls. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding the adequacy of internal controls. Many small and mid-sized target businesses we may consider for our initial business combination may have internal controls that need improvement in areas such as:

- staffing for financial, accounting and external reporting areas, including segregation of duties;
- reconciliation of accounts;
- proper recording of expenses and liabilities in the period to which they relate;
- evidence of internal review and approval of accounting transactions;
- documentation of processes, assumptions and conclusions underlying significant estimates; and
- documentation of accounting policies and procedures.

Because it will take time, management involvement and perhaps outside resources to determine what internal control improvements are necessary for us to meet regulatory requirements and market expectations for our operation of a target business, we may incur significant expense in meeting our public reporting responsibilities, particularly in the areas of designing, enhancing, or remediating internal and disclosure controls. Doing so effectively may also take longer than we expect, thus increasing our exposure to financial fraud or erroneous financing reporting.

Once our management's report on internal controls is complete, we will retain our independent registered public accounting firm to audit and render an opinion on such report when required by Section 404 of the Sarbanes-Oxley Act. The independent registered public accounting firm may identify additional issues concerning a target business's internal controls while performing their audit of internal control over financial reporting.

## Quantitative and Qualitative Disclosures about Market Risk

The net proceeds of this offering and the sale of the private placement warrants held in the trust account will be invested in U.S. government treasury bills with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

## Related Party Transactions

In February 2020, our sponsor purchased 4,312,500 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.006 per share. In July 2020, our sponsor transferred an aggregate of 867,500 founder shares, including to the following persons: (i) 32,500 founder shares to each of Marc Saiontz and Suzy Taherian, two of our independent directors, (ii) 35,000 founder shares to each of Neil Glat and Brian Mathis, two of our independent directors, (iii) 40,000 founder shares to Kathleen Harris, one of our independent directors, (iv) 50,000 founder shares to Thomas Sullivan, one of our independent directors, (v) 67,500 founder shares to Adam Deutsch, our Chief Financial Officer, (vi) 100,000 founder shares to Charlie Baynes-Reid, our Chief Operating Officer, (vii) 135,000 founder shares to each of Kevin Charlton and Charles Goldman, our Chief Executive Officer and director, respectively, and (viii) 200,000 founder shares to Nick Petruska, our special advisor. In July 2020, our sponsor forfeited 920,000 founder share and the anchor investors purchased 920,000 founder shares for an aggregate purchase price of approximately \$5,333, or approximately \$0.006 per share. Up to an aggregate of 562,500 founder shares are subject to forfeiture by our sponsor and the anchor investors (442,500 founder shares and 120,000 founder shares, respectively) depending on the extent to which the underwriters' over-allotment option is exercised. The number of founder shares issued was determined based on the expectation that such founder shares would represent 20% of the outstanding shares upon completion of this offering. The per share purchase price of the founder shares was determined by dividing the amount of cash contributed to the company by the aggregate number of founder shares issued. If we increase or decrease the size of the offering we will effect a stock dividend or a share contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of the offering in such amount as to maintain the ownership of our initial stockholders at 20.0% of the issued and outstanding shares of our common stock upon the consummation of this offering.

Commencing on the date of this prospectus, we have agreed to pay an affiliate of our sponsor a total of \$15,000 per month for office space, utilities and secretarial and administrative support. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

Our sponsor, officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers, directors or our or their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

In February 2020, our sponsor agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering pursuant to a promissory note. As of June 30, 2020, we had borrowed approximately \$25,000 under the promissory note, including approximately \$3,000 for costs paid directly by our sponsor. The note is non-interest bearing, unsecured and payable promptly after the earlier of the date on which the Company consummates this offering or the date on which the Company determines not to conduct this offering.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$100,000 of such loans may be convertible into warrants, at a price of \$1.00 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties

other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

The anchor investors have expressed to us an interest to purchase an aggregate of \$40,000,000 of units in this offering (or \$46,000,000 of units if the underwriters' over-allotment option is exercised in full), and we have agreed to direct the underwriters to sell to the anchor investors such number of units. Further, the anchor investors have entered into separate agreements with us, the combined effect of which is that, if the anchor investors, collectively, do not own 4,000,000 public shares; which amount will be reduced on a pro rata basis if less than 15,000,000 units are sold in this offering), on the date of any stockholder vote with respect to an initial business combination or the business day immediately prior to the consummation of our initial business combination, certain or all of the anchor investors will be required to transfer to our sponsor a pro rata portion of the founder shares they purchased prior to this offering; provided, however, that such transfers of founder shares to our sponsor shall not result in the remaining number of founder shares collectively held by the anchor investors being less than 200,000 founder shares (or less than 230,000 founder shares if the underwriters' over-allotment option is exercised in full. In addition, each anchor investor will be subject to any forfeiture of their founder shares on the same terms as the founder shares held by our sponsor may be forfeited in connection with our business combination, provided such forfeiture shall not reduce the number of founder shares held by such anchor investor below 25% of the founder shares purchased by such anchor investor prior to this offering.

There can be no assurance that the anchor investors will acquire any units in this offering, or as to the amount of equity the anchor investors will retain, if any, upon the consummation of our initial business combination. In the event that the anchor investors purchase such units (either in this offering or after) and vote them in favor of our initial business combination, it is possible that no votes from other public stockholders would be required to approve our initial business combination, depending on the number of shares that are present at the meeting to approve such transaction. As a result of the founder shares and private placement warrants that the anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders.

Our sponsor and the anchor investors have committed to purchase an aggregate of 5,250,000 private placement warrants (or 5,700,000 if the underwriters' over-allotment option is exercised in full) at a price of \$1.00 per warrant (\$5,250,000 in the aggregate or \$5,700,000 if the underwriters' over-allotment option is exercised in full) in a private placement that will occur simultaneously with the closing of this offering. Among the private placement warrants, 3,850,000 private placement warrants (or 4,180,000 private placement warrants if the underwriters' over-allotment option is exercised in full) will be purchased by our sponsor, and an aggregate of 1,400,000 private placement warrants (or 1,520,000 private placement warrants if the underwriters' over-allotment option is exercised in full) will be purchased by the anchor investors. Each private placement warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share. Our sponsor and the anchor investors will be permitted to transfer the private placement warrants held by them to certain permitted transferees, including our officers and directors and other persons or entities affiliated with or related to it, but the transferees receiving such securities will be subject to the same agreements with respect to such securities as our sponsor or the anchor investors, as the case may be. Otherwise, these warrants will not, subject to certain limited exceptions, be transferable or salable until 30 days after the completion of our initial business combination. The private placement warrants will be non-redeemable so long as they are held by our sponsor, the anchor investors or their permitted transferees. The private placement warrants may also be exercised by our sponsor, the anchor investors or their permitted transferees for cash or on a cashless basis. Otherwise, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering, including as to exercise price, exercisability and exercise period.

Pursuant to a registration rights agreement we will enter into with our initial stockholders on or prior to the closing of this offering, we may be required to register certain securities for sale under the Securities Act. These holders, and holders of warrants issued upon conversion of working capital loans, if any, are entitled under the registration rights agreement to make up to three demands that we register certain of our securities held by them for sale under the Securities Act and to have the securities covered thereby registered for resale pursuant to Rule 415 under the Securities Act. In addition, these holders have the right to include their securities in other registration statements filed by us. We will bear the costs and expenses of filing any such registration statements. See the section of this prospectus entitled "Certain Relationships and Related Party Transactions."

## **Off-Balance Sheet Arrangements; Commitments and Contractual Obligations; Quarterly Results**

As of June 30, 2020, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations. No unaudited quarterly operating data is included in this prospectus, as we have conducted no operations to date.

### **JOBS Act**

On April 5, 2012, the JOBS Act was signed into law. The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an “emerging growth company” and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an “emerging growth company”, we choose to rely on such exemptions we may not be required to, among other things, (i) provide an independent registered public accounting firm’s attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the report of independent registered public accounting firm providing additional information about the audit and the financial statements (auditor discussion and analysis), and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the Chief Executive Officer’s compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of this offering or until we are no longer an “emerging growth company,” whichever is earlier.

## PROPOSED BUSINESS

### Overview

We are a newly organized blank check company incorporated in January 2020 as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target.

We will concentrate on sourcing business combination opportunities with industrial technology businesses, with particular emphasis on those that align with several key themes commonly referred to as “Industry 4.0.” Our management team will target business-to-business sectors whose industry structure is being fundamentally reshaped by technology. They believe that companies in these sectors that are using advanced data analytics, software, artificial intelligence, and cutting edge instrumentation and process automation to make their processes “intelligent” have a significant competitive advantage over those that have not yet embraced such solutions.

We are not, however, required to complete our initial business combination with an industrial technology business and, as a result, we may pursue a business combination outside of that industry. We will seek to acquire businesses that we believe are fundamentally sound but would benefit from a public listing to execute their financial, operational, and strategic plans.

We believe that the opportunity within industrial technology businesses is driven by several key trends, including:

- **Flexible Mass Production.** Commercial customers demand increasing variety and customization resulting in businesses requiring more flexible manufacturing and logistics solutions.
- **Speed and Agility to Market.** Increasing digitization of the selling experience necessitates reducing a product’s time to market and increasing its speed of delivery.
- **Supply Chain Optimization.** Effective use of technology is allowing companies to more efficiently and effectively manage complex supply chains without increases in inventory.
- **Efficiency and Productivity Gains.** Organizations continually face pressures from their stakeholders to further reduce costs and environmental impact while increasing output and financial returns.
- **Design and Manufacturing Optimization.** Designers and engineers desire the ability to economically manufacture a product that very closely matches its optimal design.
- **Energy Efficiency.** All energy users are demanding the latest in efficiency technology, both to reduce cost and to demonstrate attention to their carbon footprint.

According to KPMG, enterprise spend on intelligent automation, defined as “technologies that enable the transformation and automation of business processes by leveraging any combination of software robotics, cloud, artificial intelligence and smart machines,” is expected to reach \$231.9 billion by 2025 (KPMG, *Ready, set, fail? Avoiding setbacks in the intelligent automation race*, 2018 and KPMG, *Easing the pressure points: The state of intelligent automation*, 2019). Organizations have invested significant capital to modernize their production processes in recent years. According to Capgemini Research Institute, manufacturers globally made 30% of their factories “smart” from 2018 to 2019, and plan to transform 40% more from 2020 to 2025 (Capgemini, *Smart Factories at Scale*, 2019).

Consistent with this strategy, we have identified the following general criteria and guidelines that we believe are important in evaluating prospective target businesses. We will focus on these criteria and guidelines in evaluating acquisition opportunities, but we may decide to enter into our initial business combination with a target business that does not meet these criteria and guidelines.

- **Companies that operate in industries and sectors that are ripe for technological disruption or are currently undergoing technological transformations.** We plan to identify sectors that are in the process of or have significant potential to adopt an industrial technology solution. We will seek to acquire a business that operates within an industry that is witnessing at least one or more trends, mentioned above, which we believe are driving the opportunity within industrial technology.
- **Companies with an attractive and defensible competitive position.** We will target companies with market positions and technologies that we believe offer long-term competitive advantages. These could include proprietary technology, a market leading product suite, unique processes, strong market share, or a culture of innovation that we believe is enduring and unique.
- **Companies with high revenue growth, or with the potential for high revenue growth.** We will seek to acquire businesses that have or are believed to achieve significant revenue growth primarily driven by either adopting or providing an industrial technology solution to disrupt the existing paradigm or increase its market position in the end markets in which it serves. To validate future demand, we look for businesses that can clearly demonstrate a compelling return on investment by either adopting or providing an industrial technology solution and the size of the addressable opportunity.
- **Companies that exhibit the ability to deliver significant operating leverage and future free cash flow whether they may or may not be profitable currently.** We will seek to acquire businesses that already have, or have the potential to generate consistent and increasing free cash flow. We do not require the target businesses to be profitable at the time of acquisition, but expect gross margins and contribution margins to be above, or at least in line with, relevant competitors. We view businesses with high gross margins and contribution margins favorably as these businesses possess the potential to deliver significant operating leverage and free cash flow when fully scaled.
- **Knowledgeable management teams with relevant industry experience and proven track record of developing or deploying a technology solution.** We aim to target businesses with expert management teams that have specialized knowledge of their respective industry sector and are active leaders in developing or deploying technology to provide a solution for a problem or challenge within their respective industry sector.
- **Benefit from being a public company.** We intend to acquire a company that will benefit from being publicly traded and can effectively utilize the broader access to capital and public profile that are associated with being a publicly traded company.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management may deem relevant.

#### **Competitive Strengths**

##### ***Accomplished Leadership Team with Relevant Investment, Public Company and Prior Successful SPAC Experience***

Our team has over 60 years of combined private equity experience, complemented by extensive public market expertise that includes successful execution of three prior SPAC business combinations. Kevin Charlton, our Chief Executive Officer, served as an executive officer of, and played an integral role throughout all phases of the SPAC process for Hennessy Capital Acquisition Corp., Hennessy Capital Acquisition Corp. II and Hennessy Capital Acquisition Corp. III, including the initial public offering, deal sourcing, due diligence, deal structuring, financing, and back-end execution of the initial business combinations.

### ***History of Successfully Sourcing and Executing Transactions as a Team***

NewHold Enterprises, a private investment firm founded in 2017 which controls our sponsor, has completed two platform acquisitions and two add-ons since its inception. Messrs. Charlton, Baynes-Reid and Deutsch also previously executed five transactions at River Hollow Partners, the predecessor to NewHold Enterprises, all proprietarily sourced.

### ***Established Track Record of Sourcing Proprietary Opportunities Suitable for both Private and Public Investing***

NewHold Enterprises principals have sourced 325 potential opportunities since its inception in 2017, the vast majority outside of traditional sale processes, funded through a proprietary network of family offices and high net worth individuals. Additionally, Mr. Charlton, in his role as President and Chief Operating Officer of the first three Hennessy Capital SPAC vehicles, was a part of a team that developed a unique SPAC-centered deal sourcing model, which resulted in over 400 targets evaluated over the life of Hennessy Capital Acquisition Corp., Hennessy Capital Acquisition Corp. II and Hennessy Capital Acquisition Corp. III.

### ***Access to NewHold Enterprises' Proprietary Network of Family Offices and High Net Worth Individuals***

NewHold Enterprises sources capital from a series of family offices, each with generally over \$1 billion of assets under management, and serves as a direct investing platform for such investors, allowing them to leverage their infrastructure and complement their traditional private equity book. NewHold Enterprises' network currently consists of more than 100 family offices and more than 95 high net worth investors.

### ***Extensive Experience of Investing in Middle-Market Growth Assets***

Our team has extensive experience sourcing and investing in middle market growth companies through private and public investment vehicles. Our focus on flexible hold periods and ownership structures enhances the optionality companies have to focus on operations and integration, and better aligns financial incentives with progressive growth initiatives. Our vehicle and strategy is complementary to NewHold Enterprises' diversified industrials business. With this offering, we seek to offer growth equity to industrial technology companies looking for an alternative to traditional private equity.

### ***Initial Business Combination***

Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the trust account) at the time of our signing a definitive agreement in connection with our initial business combination. Our board of directors will make the determination as to the fair market value of our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm that is a member of FINRA or an independent accounting firm with respect to the satisfaction of such criteria. While we consider it unlikely that our board of directors will not be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to the value of a target's assets or prospects. We anticipate structuring our initial business combination either (i) in such a way so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses, or (ii) in such a way so that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders, or for other reasons. However, we will only complete an initial business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the "Investment Company Act". Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the initial business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the initial business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% controlling

interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of Nasdaq's 80% of net assets test. If the initial business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the transactions and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking stockholder approval, as applicable.

#### **Sourcing of Potential Business Combination Targets**

The NewHold team believes that it is critical to find a transaction where the SPAC offers a unique solution to the seller in comparison to its alternatives. We have found in prior SPACs that it is critical to obtain exclusivity earlier in the process than with other types of transactions, and if the seller is considering a range of transactions, they will only engage with us if the SPAC offers advantages that are critical to their strategy. This requires that our team source a significant number of transactions in order to populate our deal pipeline. We will then apply a series of screens to determine if the potential target is appropriate for a SPAC. These screens would include:

- Does the company have financial reporting that is ready for the public markets?
- Would the strategy of the company benefit from the public markets?
- Is the management team prepared for and interested in the demands of a public listing?
- Given the peer group relevant for the target, is the valuation that a SPAC transaction would offer the seller of interest to them?

#### **Our Business Combination Process**

In evaluating prospective business combinations, we expect to conduct a thorough due diligence review process that will encompass, among other things, a review of historical and projected financial and operating data, meetings with management and their advisors (if applicable), on-site inspection of facilities and assets, discussion with customers and suppliers, legal reviews and other reviews as we deem appropriate. We will also utilize our expertise in evaluating operating projections, financial projections and determining the appropriate return expectations given the risk profile of the target business.

We are not prohibited from pursuing our initial business combination with a company that is affiliated with our sponsor, officers or directors. In the event we seek to complete our initial business combination with a company that is affiliated with our sponsor, officers or directors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm that is a member of FINRA or an independent accounting firm that our initial business combination is fair to our company from a financial point of view.

Our officers and directors will indirectly own founder shares and/or private placement warrants following this offering. Because of this ownership, our officers and directors may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors were to be included by a target business as a condition to any agreement with respect to our initial business combination. For additional information regarding our executive officers' and directors' business affiliations and potential conflicts of interest, see "Management — Directors and Executive Officers" and "Management — Conflicts of Interest."

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then-current fiduciary or contractual obligations to present the opportunity to such entity, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. We believe, however, that the

fiduciary duties or contractual obligations of our officers or directors will not materially affect our ability to complete our initial business combination. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

Our sponsor and our officers and directors, other than Marc Saiontz and Neil Glat, have agreed not to participate in the formation of, or become an officer or director of, any other special purpose acquisition company with a class of securities registered under the Securities Exchange Act of 1934, as amended, or the Exchange Act, until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination within 24 months after the closing of this offering, as such may be extended by stockholder approval. Marc Saiontz and Neil Glat have agreed not to participate in the formation of, or become an officer or director of, any other industrial-focused special purpose acquisition company with a class of securities registered under the Securities Exchange Act of 1934, as amended, or the Exchange Act, until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination within 24 months after the closing of this offering, as such may be extended by stockholder approval.

#### **Our Management Team**

Members of our management team are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time that any member of our management team will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the current stage of the business combination process.

We believe our management team's operating and transaction experience and relationships with companies will provide us with a substantial number of potential business combination targets. Over the course of their careers, the members of our management team have developed a broad network of contacts and corporate relationships in various industries. This network has grown through the activities of our management team sourcing, acquiring and financing businesses, our management team's relationships with sellers, financing sources and target management teams and the experience of our management team in executing transactions under varying economic and financial market conditions. See the section of this prospectus entitled "Management" for a more complete description of our management team's experience.

In addition, the members of our board of directors have significant executive management and public company experience. Over the course of their careers, the members of our management team and board of directors have developed a broad network of contacts and corporate relationships that we believe will be useful for sourcing acquisition opportunities. This network has been developed through our management team's experience in:

- sourcing, acquiring, operating, developing, growing, financing and selling businesses; and
- executing transactions under varying economic and financial market conditions.

This network has provided our management team with a flow of referrals that have resulted in numerous transactions. We believe that the network of contacts and relationships of our management team will provide us with an important source of acquisition opportunities. In addition, we anticipate that target business candidates will also be brought to our attention from various unaffiliated sources, including investment bankers, private investment funds and other intermediaries. Target businesses may be brought to our attention by such unaffiliated sources as a result of being solicited by us through calls or mailings. These sources may also introduce us to target businesses in which they think we may be interested on an unsolicited basis, since many of these sources will have read this prospectus and know the types of businesses we are targeting. Our officers and directors, as well as their affiliates, may also bring to our attention target business candidates that they become aware of through their business contacts as a result of formal or informal inquiries or discussions they may have, as well as attending trade shows or conventions.

## Status as a Public Company

We believe our structure will make us an attractive business combination partner to target businesses. As a public company, we offer a target business an alternative to the traditional initial public offering through a merger or other business combination with us. Following an initial business combination, we believe the target business would have greater access to capital and additional means of creating management incentives that are better aligned with stockholders' interests than it would as a private company. A target business can further benefit by augmenting its profile among potential new customers and vendors and aid in attracting talented employees. In a business combination transaction with us, the owners of the target business may, for example, exchange their shares of stock in the target business for our shares of Class A common stock (or shares of a new holding company) or for a combination of our shares of Class A common stock and cash, allowing us to tailor the consideration to the specific needs of the sellers.

Although there are various costs and obligations associated with being a public company, we believe target businesses will find this method a more expeditious and cost effective method to becoming a public company than the typical initial public offering. The typical initial public offering process takes a significantly longer period of time than the typical business combination transaction process, and there are significant expenses in the initial public offering process, including underwriting discounts and commissions, marketing and road show efforts that may not be present to the same extent in connection with an initial business combination with us.

Furthermore, once a proposed initial business combination is completed, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters' ability to complete the offering, as well as general market conditions, which could delay or prevent the offering from occurring or could have negative valuation consequences. Following an initial business combination, we believe the target business would then have greater access to capital and an additional means of providing management incentives consistent with stockholders' interests and the ability to use its shares as currency for acquisitions. Being a public company can offer further benefits by augmenting a company's profile among potential new customers and vendors and aid in attracting talented employees.

While we believe that our structure and our management team's backgrounds will make us an attractive business partner, some potential target businesses may view our status as a blank check company, such as our lack of an operating history and our ability to seek stockholder approval of any proposed initial business combination, negatively.

We are an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not "emerging growth companies" including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an "emerging growth company" can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an "emerging growth company" can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30<sup>th</sup>, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period.

## Financial Position

With funds available for an initial business combination initially in the amount of \$146,250,000 assuming no redemptions before fees and expenses associated with our initial business combination and after payment of \$5,250,000 of deferred underwriting fees (or \$167,962,500 after payment of up to \$6,037,500 of deferred underwriting fees if the underwriters' over-allotment option is exercised in full), we offer a target business a variety of options such as creating a liquidity event for its owners, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt or leverage ratio. Because we are able to complete our initial business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, we have not taken any steps to secure third party financing and there can be no assurance it will be available to us.

## Effecting Our Initial Business Combination

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time following this offering. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private placement warrants, the proceeds of the sale of our shares in connection with our initial business combination (pursuant to backstop agreements we may enter into following the consummation of this offering or otherwise), shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target, or a combination of the foregoing. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination or used for redemptions of our Class A common stock, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

We may seek to raise additional funds through a private offering of debt or equity securities in connection with the completion of our initial business combination, and we may effectuate our initial business combination using the proceeds of such offering rather than using the amounts held in the trust account. In addition, we intend to target businesses larger than we could acquire with the net proceeds of this offering and the sale of the private placement warrants, and may as a result be required to seek additional financing to complete such proposed initial business combination. Subject to compliance with applicable securities laws, we would expect to complete such financing only simultaneously with the completion of our initial business combination. In the case of an initial business combination funded with assets other than the trust account assets, our proxy materials or tender offer documents disclosing the initial business combination would disclose the terms of the financing and, only if required by law, we would seek stockholder approval of such financing. There are no prohibitions on our ability to raise funds privately or through loans in connection with our initial business combination. At this time, we are not a party to any arrangement or understanding with any third party with respect to raising any additional funds through the sale of securities or otherwise.

We have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target. From the period commencing with our formation through the date of this prospectus, there have been no communications or discussions between any of our officers, directors or our sponsor and any of their potential contacts or relationships regarding a potential initial business combination. Additionally, we have not engaged or retained any agent or other representative to identify or locate any suitable acquisition candidate, to conduct any research or take any measures, directly or indirectly, to locate or contact a target business. Accordingly, there is no current basis for investors in this offering to evaluate the possible merits or risks of the target business with which we may ultimately complete our initial business combination. Although our management will assess the risks inherent in a particular target business with which we may combine, we cannot assure you that this assessment will result in our identifying all risks that a target business may encounter. Furthermore, some of those risks may be outside of our control, meaning that we can do nothing to control or reduce the chances that those risks will adversely impact a target business.

## Sources of Target Businesses

We anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including investment bankers and investment professionals. Target businesses may be brought to our attention by such unaffiliated sources as a result of being solicited by us by calls or mailings. These sources may also introduce us to target businesses in which they think we may be interested on an unsolicited basis, since many of these sources will have read this prospectus and know what types of businesses we are targeting. Our officers and directors, as well as our sponsor and their affiliates, may also bring to our attention target business candidates that they become aware of through their business contacts as a result of formal or informal inquiries or discussions they may have, as well as attending trade shows or conventions. In addition, we expect to receive a number of proprietary deal flow opportunities that would not otherwise necessarily be available to us as a result of the business relationships of our officers and directors and our sponsor and their respective industry and business contacts as well as their affiliates. While we do not presently anticipate engaging the services of professional firms or other individuals that specialize in business acquisitions on any formal basis, we may engage these firms or other individuals in the future, in which event we may pay a finder's fee, consulting fee, advisory fee or other compensation to be determined in an arm's length negotiation based on the terms of the transaction. We will engage a finder only to the extent our management determines that the use of a finder may bring opportunities to us that may not otherwise be available to us or if finders approach us on an unsolicited basis with a potential transaction that our management determines is in our best interest to pursue. Payment of finder's fees is customarily tied to completion of a transaction, in which case any such fee will be paid out of the funds held in the trust account. In no event, however, will our sponsor or any of our existing officers or directors, or any entity with which our sponsor or officers are affiliated, be paid any finder's fee, reimbursement, consulting fee, monies in respect of any payment of a loan or other compensation by the company prior to, or in connection with any services rendered for any services they render in order to effectuate, the completion of our initial business combination (regardless of the type of transaction that it is). None of our sponsor, executive officers or directors, or any of their respective affiliates, will be allowed to receive any compensation, finder's fees or consulting fees from a prospective business combination target in connection with a contemplated initial business combination. We have agreed to pay an affiliate of our sponsor a total of \$15,000 per month for office space, utilities and secretarial and administrative support and to reimburse our sponsor for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination. Some of our officers and directors may enter into employment or consulting agreements with the post-transaction company following our initial business combination. The presence or absence of any such fees or arrangements will not be used as a criterion in our selection process of an initial business combination candidate.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, executive officers or directors, or making the acquisition through a joint venture or other form of shared ownership with our sponsor, executive officers or directors. In the event we seek to complete an initial business combination with a target that is affiliated with our sponsor, executive officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking which is a member of FINRA or a qualified independent accounting firm that such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

As more fully discussed in the section of this prospectus entitled "Management — Conflicts of Interest," if any of our officers or directors becomes aware of an initial business combination opportunity that falls within the line of business of any entity to which he or she has pre-existing fiduciary or contractual obligations, he or she may be required to present such business combination opportunity to such entity prior to presenting such business combination opportunity to us. Our officers and directors currently have certain relevant fiduciary duties or contractual obligations that may take priority over their duties to us.

## Selection of a Target Business and Structuring of our Initial Business Combination

Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the trust account) at the time of our signing a definitive agreement in connection with our initial business combination. The fair market value of our initial business combination will be determined by our board of directors based upon one or more standards generally accepted by the financial community, such as discounted cash flow valuation, a valuation based on trading multiples of comparable public businesses or a valuation based on the financial metrics of M&A transactions of comparable

businesses. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm that is a member of FINRA or an independent accounting firm with respect to the satisfaction of such criteria. While we consider it unlikely that our board of directors will not be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to the value of a target's assets or prospects. We do not intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination. Subject to this requirement, our management will have virtually unrestricted flexibility in identifying and selecting one or more prospective target businesses, although we will not be permitted to effectuate our initial business combination with another blank check company or a similar company with nominal operations.

In any case, we will only complete an initial business combination in which we own or acquire 50% or more of the outstanding voting securities of the target or otherwise acquire a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. If we own or acquire less than 100% of the equity interests or assets of a target business or businesses, the portion of such business or businesses that are owned or acquired by the post-transaction company is what will be taken into account for purposes of Nasdaq's 80% of net assets test. There is no basis for investors in this offering to evaluate the possible merits or risks of any target business with which we may ultimately complete our initial business combination.

To the extent we effect our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth we may be affected by numerous risks inherent in such company or business. Although our management will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all significant risk factors.

In evaluating a prospective business target, we expect to conduct a thorough due diligence review, which may encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspection of facilities, as well as a review of financial and other information that will be made available to us.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of a prospective target business with which our initial business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business combination.

#### **Lack of Business Diversification**

For an indefinite period of time after the completion of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business. Unlike other entities that have the resources to complete business combinations with multiple entities in one or several industries, it is probable that we will not have the resources to diversify our operations and mitigate the risks of being in a single line of business. In addition, we intend to focus our search for an initial business combination in a single industry. By completing our initial business combination with only a single entity, our lack of diversification may:

- subject us to negative economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact on the particular industry in which we operate after our initial business combination, and
- cause us to depend on the marketing and sale of a single product or limited number of products or services.

#### **Limited Ability to Evaluate the Target's Management Team**

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our initial business combination with that business, our assessment of the target business' management may not prove to be correct. In addition, the future management may not have the necessary skills, qualifications or abilities to manage a public company. Furthermore, the future role of members of our management team, if any, in the target business cannot presently be stated with any certainty. The determination as to whether any of the members of our management team will remain with the combined company will be made at the time of our

initial business combination. While it is possible that one or more of our directors will remain associated in some capacity with us following our initial business combination, it is unlikely that any of them will devote their full efforts to our affairs subsequent to our initial business combination. Moreover, we cannot assure you that members of our management team will have significant experience or knowledge relating to the operations of the particular target business.

We cannot assure you that any of our key personnel will remain in senior management or advisory positions with the combined company. The determination as to whether any of our key personnel will remain with the combined company will be made at the time of our initial business combination.

Following an initial business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We cannot assure you that we will have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

#### **Stockholders May Not Have the Ability to Approve Our Initial Business Combination**

We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC. However, we will seek stockholder approval if it is required by law or applicable stock exchange rule, or we may decide to seek stockholder approval for business or other legal reasons. Presented in the table below is a graphic explanation of the types of initial business combinations we may consider and whether stockholder approval is currently required under Delaware law for each such transaction.

<b>Type of Transaction</b>	<b>Whether Stockholder Approval is Required</b>
Purchase of assets	No
Purchase of stock of target not involving a merger with the company	No
Merger of target into a subsidiary of the company	No
Merger of the company with a target	Yes

Under Nasdaq's listing rules, stockholder approval would be required for our initial business combination if, for example:

- we issue shares of Class A common stock that will be equal to or in excess of 20% of the number of shares of our Class A common stock then outstanding;
- any of our directors, officers or substantial stockholders (as defined by Nasdaq rules) has a 5% or greater interest (or such persons collectively have a 10% or greater interest), directly or indirectly, in the target business or assets to be acquired or otherwise and the present or potential issuance of common stock could result in an increase in outstanding common shares or voting power of 5% or more; or
- the issuance or potential issuance of common stock will result in our undergoing a change of control.

#### **Permitted Purchases of our Securities**

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our initial stockholders, directors, officers, advisors or their affiliates may purchase public shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. There is no limit on the number of shares our initial stockholders, directors, officers, advisors or their affiliates may purchase in such transactions, subject to compliance with applicable law and Nasdaq rules. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases

that the purchases are subject to such rules, the purchasers will comply with such rules. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. None of the funds held in the trust account will be used to purchase public shares or public warrants in such transactions prior to completion of our initial business combination.

The purpose of any such purchases of shares could be to vote such shares in favor of the initial business combination and thereby increase the likelihood of obtaining stockholder approval of the initial business combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. In addition, if such purchases are made, the public “float” of our shares of Class A common stock or warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Our sponsor, officers, directors and/or their affiliates anticipate that they may identify the stockholders with whom our sponsor, officers, directors or their affiliates may pursue privately negotiated purchases by either the stockholders contacting us directly or by our receipt of redemption requests submitted by stockholders following our mailing of proxy materials in connection with our initial business combination. To the extent that our sponsor, officers, directors, advisors or their affiliates enter into a private purchase, they would identify and contact only potential selling stockholders who have expressed their election to redeem their shares for a pro rata share of the trust account or vote against our initial business combination, whether or not such stockholder has already submitted a proxy with respect to our initial business combination. Our sponsor, officers, directors, advisors or their affiliates will only purchase shares if such purchases comply with Regulation M under the Exchange Act and the other federal securities laws.

Any purchases by our sponsor, officers, directors and/or their affiliates who are affiliated purchasers under Rule 10b-18 under the Exchange Act will only be made to the extent such purchases are able to be made in compliance with Rule 10b-18, which is a safe harbor from liability for manipulation under Section 9(a)(2) and Rule 10b-5 of the Exchange Act. Rule 10b-18 has certain technical requirements that must be complied with in order for the safe harbor to be available to the purchaser. Our sponsor, officers, directors and/or their affiliates will not make purchases of common stock if the purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchases are subject to such reporting requirements.

#### **Redemption Rights for Public Stockholders upon Completion of our Initial Business Combination**

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of Class A common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements, divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be approximately \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our initial business combination.

#### ***Manner of Conducting Redemptions***

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of Class A common stock upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the initial business combination or (ii) by means of a tender offer. The decision as to whether we will seek stockholder approval of a proposed initial business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing

of the transaction and whether the terms of the transaction would require us to seek stockholder approval under the law or stock exchange listing requirement. Under Nasdaq rules, asset acquisitions and stock purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. If we structure an initial business combination with a target company in a manner that requires stockholder approval, we will not have discretion as to whether to seek a stockholder vote to approve the proposed initial business combination. We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC unless stockholder approval is required by law or stock exchange listing requirements or we choose to seek stockholder approval for business or other legal reasons. So long as we obtain and maintain a listing for our securities on Nasdaq, we will be required to comply with such rules.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our initial business combination, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our Class A common stock in the open market if we elect to redeem our public shares through a tender offer, to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than a specified number of public shares which are not purchased by our sponsor, which number will be based on the requirement that we may not redeem public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination upon consummation of our initial business combination and after payment of underwriters' fees and commissions. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

If, however, stockholder approval of the transaction is required by law or stock exchange listing requirement, or we decide to obtain stockholder approval for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and
- file proxy materials with the SEC.

In the event that we seek stockholder approval of our initial business combination, we will distribute proxy materials and, in connection therewith, provide our public stockholders with the redemption rights described above upon completion of the initial business combination.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the initial business combination. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting. Our initial stockholders will count toward this quorum and pursuant to the letter agreement, our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed to vote their founder shares and any public shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination. For purposes of seeking approval of the majority of our outstanding shares of common stock voted, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. As a result, in addition to the founder shares

held by our sponsor, officers, directors and special advisor and that employee, we would need only 1,737,501, or approximately 11.6%, of the 15,000,000 public shares sold in this offering to be voted in favor of an initial business combination (assuming only a quorum is present at the meeting) in order to have our initial business combination approved (assuming the over-allotment option is not exercised). In addition, as a result of the founder shares and private placement warrants that the anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders. We intend to give approximately 30 days (but not less than 10 days nor more than 60 days) prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination. These quorum and voting thresholds, and the voting agreements of our sponsor, officers, directors, special advisor and such employee may make it more likely that we will consummate our initial business combination. Each public stockholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction.

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination upon consummation of our initial business combination and after payment of underwriters' fees and commissions. For example, the proposed initial business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed initial business combination. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed initial business combination exceed the aggregate amount of cash available to us, we will not complete the initial business combination or redeem any shares, and all shares of Class A common stock submitted for redemption will be returned to the holders thereof.

***Limitation on Redemption upon Completion of our Initial Business Combination if we Seek Stockholder Approval***

Notwithstanding the foregoing, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 15% of the shares sold in this offering, which we refer to as the "Excess Shares." Such restriction shall also be applicable to our affiliates. We believe this restriction will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to exercise their redemption rights against a proposed initial business combination as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights if such holder's shares are not purchased by us or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders' ability to redeem no more than 15% of the shares sold in this offering without our prior consent, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with an initial business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our stockholders' ability to vote all of their shares (including Excess Shares) for or against our initial business combination.

***Tendering Stock Certificates in Connection with a Tender Offer or Redemption Rights***

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the vote on the proposal to approve the initial business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using the Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements. Accordingly, a

public stockholder would have from the time we send out our tender offer materials until the close of the tender offer period, or up to two days prior to the vote on the initial business combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights. Given the relatively short exercise period, it is advisable for stockholders to use electronic delivery of their public shares.

There is a nominal cost associated with the above-referenced tendering process and the act of certificating the shares or delivering them through the DWAC System. The transfer agent will typically charge the tendering broker \$80.00 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

The foregoing is different from the procedures used by many blank check companies. In order to perfect redemption rights in connection with their business combinations, many blank check companies would distribute proxy materials for the stockholders' vote on an initial business combination, and a holder could simply vote against a proposed initial business combination and check a box on the proxy card indicating such holder was seeking to exercise his or her redemption rights. After the initial business combination was approved, the company would contact such stockholder to arrange for him or her to deliver his or her certificate to verify ownership. As a result, the stockholder then had an "option window" after the completion of the initial business combination during which he or she could monitor the price of the company's stock in the market. If the price rose above the redemption price, he or she could sell his or her shares in the open market before actually delivering his or her shares to the company for cancellation. As a result, the redemption rights, to which stockholders were aware they needed to commit before the stockholder meeting, would become "option" rights surviving past the completion of the initial business combination until the redeeming holder delivered its certificate. The requirement for physical or electronic delivery prior to the meeting ensures that a redeeming holder's election to redeem is irrevocable once the initial business combination is approved.

Any request to redeem such shares, once made, may be withdrawn at any time up to the date set forth in the tender offer materials or the date of the stockholder meeting set forth in our proxy materials, as applicable. Furthermore, if a holder of a public share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our public shares electing to redeem their shares will be distributed promptly after the completion of our initial business combination.

If our initial business combination is not approved or completed for any reason, then our public stockholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable pro rata share of the trust account. In such case, we will promptly return any certificates delivered by public holders who elected to redeem their shares.

If our initial proposed initial business combination is not completed, we may continue to try to complete an initial business combination with a different target until 24 months from the closing of this offering.

#### ***Redemption of Public Shares and Liquidation if no Initial Business Combination***

Our amended and restated certificate of incorporation provides that we will have only 24 months from the closing of this offering to complete our initial business combination. If we are unable to complete our initial business combination within such 24-month period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter subject to lawfully available funds therefor, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within the 24-month time period.

Our initial stockholders have agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within 24 months from the closing of this offering. However, if our sponsor, our officers or directors or the anchor investors acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted 24-month time period.

Our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation (i) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their shares of Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our taxes and/or to fund our working capital requirements, divided by the number of then outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules). If this optional redemption right is exercised with respect to an excessive number of public shares such that we cannot satisfy the net tangible asset requirement (described above), we would not proceed with the amendment or the related redemption of our public shares at such time.

We expect that all costs and expenses associated with implementing our plan of dissolution, as well as payments to any creditors, will be funded from amounts remaining out of the approximately \$1,500,000 of proceeds held outside the trust account, although we cannot assure you that there will be sufficient funds for such purpose. We will depend on sufficient interest being earned on the proceeds held in the trust account to pay any tax obligations we may owe or for working capital purposes (provided that the funds released for working capital purposes may not exceed \$250,000 annually). However, if those funds are not sufficient to cover the costs and expenses associated with implementing our plan of dissolution, to the extent that there is any interest accrued in the trust account not required to pay taxes on interest income earned on the trust account balance, we may request the trustee to release to us an additional amount of up to \$100,000 of such accrued interest to pay those costs and expenses.

If we were to expend all of the net proceeds of this offering and the sale of the private placement warrants, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account, the per-share redemption amount received by stockholders upon our dissolution would be approximately \$10.00. The proceeds deposited in the trust account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public stockholders. We cannot assure you that the actual per-share redemption amount received by stockholders will not be substantially less than \$10.00. Under Section 281(b) of the DGCL, our plan of dissolution must provide for all claims against us to be paid in full or make provision for payments to be made in full, as applicable, if there are sufficient assets. These claims must be paid or provided for before we make any distribution of our remaining assets to our stockholders. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

Although we will seek to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the trust account including but not limited to fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third-party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute

a waiver or in cases where management is unable to find a service provider willing to execute a waiver. We are not aware of any product or service providers who have not or will not provide such waiver other than the underwriters of this offering and our independent registered public accounting firm.

In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us, or a prospective target business with which we have entered into a written letter of intent, confidentiality or similar agreement or business combination agreement, reduce the amount of funds in the trust account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account, if less than \$10.00 per share due to reductions in the value of the trust assets, less taxes payable and up to \$250,000 per year for working capital purposes, if any, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the trust account (whether or not such waiver is enforceable) nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. However, we have not asked our sponsor to reserve for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the proceeds in the trust account are reduced below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes and up to \$250,000 per year for working capital purposes, if any, and our sponsor asserts that it is unable to satisfy its indemnification obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so if, for example, the cost of such legal action is deemed by the independent directors to be too high relative to the amount recoverable or if the independent directors determine that a favorable outcome is not likely. We have not asked our sponsor to reserve for such indemnification obligations and we cannot assure you that our sponsor would be able to satisfy those obligations. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be less than \$10.00 per public share.

We will seek to reduce the possibility that our sponsor will have to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account. Our sponsor will also not be liable as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. We will have access to up to approximately \$1,500,000 from the proceeds of this offering with which to pay any such potential claims (including costs and expenses incurred in connection with our liquidation, currently estimated to be no more than approximately \$100,000). In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient, stockholders who received funds from our trust account could be liable for claims made by creditors. In the event that our offering expenses exceed our estimate of \$750,000, we may fund such excess with funds from the funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$750,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 24 months from the closing of this offering may be considered a liquidating distribution under Delaware law. If the corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may

reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution.

Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 24 months from the closing of this offering, is not considered a liquidating distribution under Delaware law and such redemption distribution is deemed to be unlawful (potentially due to the imposition of legal proceedings that a party may bring or due to other circumstances that are currently unknown), then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidating distribution. If we are unable to complete our initial business combination within 24 months from the closing of this offering, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter subject to lawfully available funds therefor, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Accordingly, it is our intention to redeem our public shares as soon as reasonably possible following our 24<sup>th</sup> month and, therefore, we do not intend to comply with those procedures. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend well beyond the third anniversary of such date.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the subsequent 10 years. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses. As described above, pursuant to the obligation contained in our underwriting agreement, we will seek to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account. As a result of this obligation, the claims that could be made against us are significantly limited and the likelihood that any claim that would result in any liability extending to the trust account is remote. Further, our sponsor may be liable only to the extent necessary to ensure that the amounts in the trust account are not reduced below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets, in each case net of the amount of interest withdrawn to pay taxes and up to \$250,000 per year for working capital purposes, if any, and will not be liable as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third-party claims.

If we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, we cannot assure you we will be able to return \$10.00 per share to our public stockholders. Additionally, if we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a "preferential transfer" or a "fraudulent conveyance." As a result, a bankruptcy court could seek to recover some or all amounts received by our stockholders. Furthermore, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or may have acted in bad faith, thereby exposing itself and our company to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

Our public stockholders will be entitled to receive funds from the trust account only upon the earlier to occur of: (i) the completion of our initial business combination, (ii) the redemption of any public shares properly tendered in connection with a stockholder vote to amend any provisions of our amended and restated certificate of incorporation (A) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, and (iii) the redemption of all of our public shares if we are unable to complete our business combination within 24 months from the closing of this offering, subject to applicable law. In no other circumstances will a stockholder have any right or interest of any kind to or in the trust account. In the event we seek stockholder approval in connection with our initial business combination, a stockholder's voting in connection with the initial business combination alone will not result in a stockholder's redeeming its shares to us for an applicable pro rata share of the trust account. Such stockholder must have also exercised its redemption rights as described above. These provisions of our amended and restated certificate of incorporation, like all provisions of our amended and restated certificate of incorporation, may be amended with a stockholder vote.

***Comparison of Redemption or Purchase Prices in Connection with Our Initial Business Combination and if We Fail to Complete Our Initial Business Combination***

The following table compares the redemptions and other permitted purchases of public shares that may take place in connection with the completion of our initial business combination and if we are unable to complete our initial business combination within 24 months from the closing of this offering.

	<b>Redemptions in Connection with our Initial Business Combination</b>	<b>Other Permitted Purchases of Public Shares by us or our Affiliates</b>	<b>Redemptions if we fail to Complete an Initial Business Combination</b>
<b>Calculation of redemption price</b>	Redemptions at the time of our initial business combination may be made pursuant to a tender offer or in connection with a stockholder vote. The redemption price will be the same whether we conduct redemptions pursuant to a tender offer or in connection with a stockholder vote. In either case, our public stockholders may redeem their public shares for cash equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination (which is initially anticipated to be \$10.00 per public share), including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements, divided by the number of then outstanding public shares, subject to the limitation that no redemptions will take place, if all of the redemptions would cause	If we seek stockholder approval of our initial business combination, our sponsor, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions or in the open market prior to or following completion of our initial business combination. There is no limit to the prices that our sponsor, directors, officers, advisors or their affiliates may pay in these transactions.	If we are unable to complete our initial business combination within 24 months from the closing of this offering, we will redeem all public shares at a per-share price, payable in cash, equal to the aggregate amount, then on deposit in the trust account (which is initially anticipated to be \$10.00 per public share), including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares.

	<b>Redemptions in Connection with our Initial Business Combination</b>	<b>Other Permitted Purchases of Public Shares by us or our Affiliates</b>	<b>Redemptions if we fail to Complete an Initial Business Combination</b>
	our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and any limitations (including but not limited to cash requirements) agreed to in connection with the negotiation of terms of a proposed initial business combination.		
<b>Impact to remaining stockholders</b>	The redemptions in connection with our initial business combination will reduce the book value per share for our remaining stockholders, who will bear the burden of the deferred underwriting commissions and the taxes payable.	If the permitted purchases described above are made there would be no impact to our remaining stockholders because the purchase price would not be paid by us.	The redemption of our public shares if we fail to complete our initial business combination will reduce the book value per share for the shares held by our initial stockholders, who will be our only remaining stockholders after such redemptions.

#### **Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419**

The following table compares the terms of this offering to the terms of an offering by a blank check company subject to the provisions of Rule 419. This comparison assumes that the gross proceeds, underwriting commissions and underwriting expenses of our offering would be identical to those of an offering undertaken by a company subject to Rule 419, and that the underwriters will not exercise their over-allotment option. None of the provisions of Rule 419 apply to our offering.

	<b>Terms of Our Offering</b>	<b>Terms Under a Rule 419 Offering</b>
<b>Escrow of offering proceeds</b>	\$150,000,000 of the net proceeds of this offering and the sale of the private placement warrants will be deposited into a trust account in the United States with Continental Stock Transfer & Trust Company acting as trustee.	Approximately \$126,900,000 offering proceeds would be deposited into either an escrow account with an insured depository institution or in a separate bank account established by a broker-dealer in which the broker-dealer acts as trustee for persons having the beneficial interests in the account.
<b>Investment of net proceeds</b>	\$150,000,000 of the net offering proceeds and the sale of the private placement warrants held in trust will be invested only in U.S. government treasury bills with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations.	Proceeds could be invested only in specified securities such as a money market fund meeting conditions of the Investment Company Act or in securities that are direct obligations of, or obligations guaranteed as to principal or interest by, the United States.

	Terms of Our Offering	Terms Under a Rule 419 Offering
<b>Receipt of interest on escrowed funds</b>	Interest on proceeds from the trust account to be paid to stockholders is reduced by (i) any taxes paid or payable and up to \$250,000 per year for working capital purposes, if any, and (ii) in the event of our liquidation for failure to complete our initial business combination within the allotted time, up to \$100,000 of net interest that may be released to us should we have no or insufficient working capital to fund the costs and expenses of our dissolution and liquidation.	Interest on funds in escrow account would be held for the sole benefit of investors, unless and only after the funds held in escrow were released to us in connection with our completion of a business combination.
<b>Limitation on fair value or net assets of target business</b>	Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination.	The fair value or net assets of a target business must represent at least 80% of the maximum offering proceeds.
<b>Trading of securities issued</b>	We expect the units will begin trading on or promptly after the date of this prospectus. The Class A common stock and warrants comprising the units will begin separate trading on the 52 <sup>nd</sup> day following the date of this prospectus unless Stifel, Nicolaus & Company, Incorporated, informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. We will file the Current Report on Form 8-K promptly after the closing of this offering, which is anticipated to take place three business days from the date of this prospectus. If the over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, an additional Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the over-allotment option.	No trading of the units or the underlying Class A common stock and warrants would be permitted until the completion of a business combination. During this period, the securities would be held in the escrow or trust account.
<b>Exercise of the warrants</b>	The warrants cannot be exercised until the later of 30 days after the completion of our initial business combination or 12 months from the closing of this offering.	The warrants could be exercised prior to the completion of a business combination, but securities received and cash paid in connection with the exercise would be deposited in the escrow or trust account.

	Terms of Our Offering	Terms Under a Rule 419 Offering
<b>Election to remain an investor</b>	<p>We will provide our public stockholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements, upon the completion of our initial business combination, subject to the limitations described herein. We may not be required by law to hold a stockholder vote. We intend to give approximately 30 days (but not less than 10 days nor more than 60 days) prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination. If we are not required by law and do not otherwise decide to hold a stockholder vote, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC and file tender offer documents with the SEC which will contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. If, however, we hold a stockholder vote, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules. If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the initial business combination.</p>	<p>A prospectus containing information pertaining to the business combination required by the SEC would be sent to each investor. Each investor would be given the opportunity to notify the company in writing, within a period of no less than 20 business days and no more than 45 business days from the effective date of a post-effective amendment to the company's registration statement, to decide if it elects to remain a stockholder of the company or require the return of its investment. If the company has not received the notification by the end of the 45<sup>th</sup> business day, funds and interest or dividends, if any, held in the trust or escrow account are automatically returned to the stockholder. Unless a sufficient number of investors elect to remain investors, all funds on deposit in the escrow account must be returned to all of the investors and none of the securities are issued.</p>

	Terms of Our Offering	Terms Under a Rule 419 Offering
	<p>Additionally, each public stockholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting.</p>	
<b>Business combination deadline</b>	<p>If we are unable to complete an initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter subject to lawfully available funds therefor, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.</p>	<p>If a business combination has not been completed within 24 months after the effective date of the company's registration statement, funds held in the trust or escrow account are returned to investors.</p>

	Terms of Our Offering	Terms Under a Rule 419 Offering
<b>Limitation on redemption rights of stockholders holding more than 15% of the shares sold in this offering if we hold a stockholder vote</b>	<p>If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder (including our affiliates), together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to Excess Shares (more than an aggregate of 15% of the shares sold in this offering). Our public stockholders’ inability to redeem Excess Shares will reduce their influence over our ability to complete our initial business combination and they could suffer a material loss on their investment in us if they sell any Excess Shares in open market transactions.</p>	<p>Many blank check companies provide no restrictions on the ability of stockholders to redeem shares based on the number of shares held by such stockholders in connection with an initial business combination.</p>
<b>Tendering stock certificates in connection with a tender offer or redemption rights</b>	<p>We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents mailed to such holders or up to two business days prior to the vote on the proposal to approve the initial business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using The Depository Trust Company’s DWAC System, at the holder’s option. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements. Accordingly, a public stockholder would have from the time we send out our tender offer materials until the close of the tender offer period, or up to two days prior to the vote on the initial business combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights.</p>	<p>In order to perfect redemption rights in connection with their business combinations, holders could vote against a proposed initial business combination and check a box on the proxy card indicating such holders were seeking to exercise their redemption rights. After the business combination was approved, the company would contact such stockholders to arrange for them to deliver their certificate to verify ownership.</p>

	Terms of Our Offering	Terms Under a Rule 419 Offering
<b>Release of funds</b>	<p>Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our tax obligations or released to us for working capital purposes as described in this prospectus, the proceeds from this offering and the sale of the private placement warrants held in the trust account will not be released from the trust account until the earliest to occur of: (i) the completion of our initial business combination, (ii) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-business combination activity and (iii) the redemption of 100% of our public shares if we are unable to complete an initial business combination within the required time frame (subject to the requirements of applicable law). On the completion of our initial business combination, all amounts held in the trust account will be released to us, less amounts released to a separate account controlled by the trustee for disbursement to redeeming stockholders. We will use these funds to pay amounts due to any public stockholders who exercise their redemption rights as described above under "Redemption rights for public stockholders upon completion of our initial business combination," to pay the underwriters their deferred underwriting commissions, to pay all or a portion of the consideration payable to the target or owners of the target of our initial business combination and to pay other expenses associated with our initial business combination.</p>	<p>The proceeds held in the escrow account are not released until the earlier of the completion of a business combination or the failure to effect a business combination within the allotted time.</p>

## **Competition**

In identifying, evaluating and selecting a target business for our initial business combination, we may encounter intense competition from other entities having a business objective similar to ours, including other blank check companies, private equity groups and leveraged buyout funds, and operating businesses seeking strategic business combinations. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Moreover, many of these competitors possess greater financial, technical, human and other resources than we do. Our ability to acquire larger target businesses will be limited by our available financial resources. This inherent limitation gives others an advantage in pursuing the initial business combination of a target business. Furthermore, our obligation to pay cash in connection with our public stockholders who exercise their redemption rights may reduce the resources available to us for our initial business combination and our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Either of these factors may place us at a competitive disadvantage in successfully negotiating an initial business combination.

## **Facilities**

Our executive offices are located at 950 McCarty Street, Building A, Houston, TX 77029 and our telephone number is (212) 653-0153. Our executive offices are provided to us by our sponsor. Commencing on the date of this prospectus, we have agreed to pay an affiliate of our sponsor a total of \$15,000 per month for office space, utilities and secretarial and administrative support. We consider our current office space adequate for our current operations.

## **Employees**

We currently have 3 officers. These individuals are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time they will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the stage of the initial business combination process we are in. We do not intend to have any full-time employees prior to the completion of our initial business combination.

## **Periodic Reporting and Financial Information**

We will register our units, Class A common stock and warrants under the Exchange Act and have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, our annual reports will contain financial statements audited and reported on by our independent registered public accountants.

We will provide stockholders with audited financial statements of the prospective target business as part of the tender offer materials or proxy solicitation materials sent to stockholders to assist them in assessing the target business. In all likelihood, these financial statements will need to be prepared in accordance with, or reconciled to, GAAP, or IFRS, depending on the circumstances, and the historical financial statements may be required to be audited in accordance with the standards of the PCAOB. These financial statement requirements may limit the pool of potential targets we may conduct an initial business combination with because some targets may be unable to provide such statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame. We cannot assure you that any particular target business identified by us as a potential business combination candidate will have financial statements prepared in accordance with GAAP or that the potential target business will be able to prepare its financial statements in accordance with the requirements outlined above. To the extent that these requirements cannot be met, we may not be able to acquire the proposed target business. While this may limit the pool of potential business combination candidates, we do not believe that this limitation will be material.

We will be required to evaluate our internal control procedures for the fiscal year ending December 31, 2020 as required by the Sarbanes-Oxley Act. Only in the event we are deemed to be a large accelerated filer or an accelerated filer, and no longer qualify as an emerging growth company, will we be required to have our internal control procedures audited. A target company may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such

business combination. Prior to the date of this prospectus, we will file a Registration Statement on Form 8-A with the SEC to voluntarily register our securities under Section 12 of the Exchange Act. As a result, we will be subject to the rules and regulations promulgated under the Exchange Act. We have no current intention of filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the consummation of our initial business combination.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our shares of Class A common stock that are held by non-affiliates exceeds \$700 million as of the prior June 30<sup>th</sup>, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period.

#### **Legal Proceedings**

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team in their capacity as such.

## MANAGEMENT

### Officers and Directors

Our officers and directors are as follows:

Name	Age	Position
Kevin Charlton	54	Chief Executive Officer
Thomas J. Sullivan	57	Director, Chairman of the Board of Directors
Charles Goldman	51	Director, Vice Chairman of the Board of Directors
Charlie Baynes-Reid	45	Chief Operating Officer
Adam Deutsch	34	Chief Financial Officer
Marc Saiontz	47	Director
Kathleen Harris	58	Director
Brian Mathis	53	Director
Neil Glat	52	Director
Suzy Taherian	51	Director

**Kevin Charlton, CEO.** Kevin Charlton is our Chief Executive Officer. Mr. Charlton has been the Co-Chairman of NewHold Enterprises since 2017 and has spent more than 20 years in private equity. Prior to NewHold Enterprises, Mr. Charlton was the Co-Founder of River Hollow Partners from June 2013 through April 2017. From January 2014 through February 2015, Mr. Charlton was the President and Chief Operating Officer of Hennessy Capital Acquisition Corp., a \$115 million NASDAQ-listed SPAC that merged with Blue Bird Corporation (NASDAQ: BLBD), the school bus manufacturer, in February 2015. From July 2015 through February 2017, he then served as President, Chief Operating Officer and Vice Chairman of the Board of Directors of Hennessy Capital Acquisition Corp. II, a \$200 million NASDAQ-listed SPAC that merged with Daseke, Inc. (NASDAQ: DSKE), in February 2017. From July 2017 through October 2019, Mr. Charlton served as President, Chief Operating Officer and Vice Chairman of the Board of Directors of Hennessy Capital Acquisition Corp. III, a \$275 million NYSE-listed SPAC that merged with NRC Group (NYSE: NRCG) in October 2018. Prior to NewHold, Mr. Charlton was with JPMorgan (NYSE: JPM), Investcorp, and Macquarie (ASX: MQG). Mr. Charlton has served on more than 25 Boards of Directors in all relevant roles, and in almost all cases as Chairman or Lead Director on behalf of the majority owner. Prior to his career in private equity, Mr. Charlton was with McKinsey and Company in New York and NASA Headquarters in Washington, DC. Mr. Charlton has been Chairman of American AllWaste LLC since May 2018, and currently serves on the Boards of Daseke, Inc. (NASDAQ: DSKE), a heavy haul trucking company that he took public in February 2017; Spirit Realty Capital (NYSE: SRC), a triple net commercial REIT that he took public in 2012; and Macro Energy LLC, a high efficiency lighting company. Mr. Charlton currently serves as the Chairman of F&S Precision Holdings, Inc., a company that does precision tooling for plastic injection molding. Mr. Charlton has successfully sold companies to both strategic and financial investors, maximized value through the staged exit to separate buyers, and taken companies public, including companies in the manufacturing, distribution, business services, transportation, real estate, consumer products, and food and beverage sectors. He has a long history of working in partnership with management to develop and execute a strategic agenda. Mr. Charlton received his Bachelor's degree in Aerospace Engineering *cum laude* from Princeton University in 1988, his Master of Science in Aerospace Engineering with Distinction from the University of Michigan in 1990, and his Master of Business Administration with Honors from the Kellogg School at Northwestern University in 1995.

**Charlie Baynes-Reid, COO.** Charlie Baynes-Reid is our Chief Operating Officer. Mr. Baynes-Reid is a founding partner and Managing Director of NewHold Enterprises, having spent more than 20 years in private equity and principal investing, both as a legal advisor and as an investor. Mr. Baynes-Reid has extensive experience working with portfolio companies on acquisitions and divestitures, consolidation strategies, debt financing and refinancing, capital markets and exit strategies through private sales, public mergers, and initial public offerings (or IPOs). He also has significant knowledge of core legal and regulatory considerations relating to both domestic as well as complex cross border transactions and his sector experience includes companies focusing on logistics, business services, real estate, diversified industrials, renewable energy, and financial services. Qualifying as a lawyer in the United Kingdom in 2001 with Simmons & Simmons law firm practicing in the Corporate Finance Group, he worked in London and Tokyo before moving to the Minter Ellison law firm in Sydney focusing on mergers and acquisitions. He joined Macquarie (ASX: MQG) in 2005, working primarily on acquisitions, based initially in Sydney. In 2007, he relocated to Macquarie's New York office, where he focused on principal investments and capital markets transactions across multiple jurisdictions, before becoming one of the founding partners of River Hollow Partners in early 2014, where he continues to serve as a partner and General Counsel. Since 2017, Mr. Baynes-Reid has

been a Founding Partner, Managing Director and General Counsel for NewHold Enterprises LLC. Mr. Baynes-Reid received his LLB Honors degree in Business Law from City University, London and is dual-qualified as an English lawyer and a member of the New York Bar. Mr. Baynes-Reid currently serves as the Chairman of Macro Energy LLC, the first NewHold Enterprises industrial technology platform, which he helped launch, is on the Board of NewHold AEC Corp. and Powerful Foods LLC, and is a Board observer for Luna Pharmaceuticals, Inc.

**Adam Deutsch, CFO.** Adam Deutsch is our Chief Financial Officer. Mr. Deutsch has served as the Vice President of NewHold Enterprises since 2018. Prior to joining NewHold, Mr. Deutsch served as Vice President and was a founding member of River Hollow Partners from September 2013 through December 2017. Prior to that, Mr. Deutsch spent five years at Laurus Capital, where he participated in over 30 transactions involving extensive restructuring of distressed businesses, including various take-private transactions and reverse mergers. He has guided numerous companies through the identification and implementation of strategic growth initiatives, with an emphasis on empowering managers as a means to driving value. Mr. Deutsch began his career in the UBS (SWX: UBSG) retail banking group. Mr. Deutsch earned a Bachelor of Arts degree from Vassar College, and an MBA with Honors from the Columbia Business School. He has served as Chief Financial Officer of Macro Energy LLC since 2014, and sits on the Board of American AllWaste LLC and F&S Precision Holdings, Inc.

**Thomas J. Sullivan, Chairman.** Thomas Sullivan is the Chairman of the Board as of the date hereof. Mr. Sullivan has over 30 years of experience in finance and operations. Mr. Sullivan has served as a partner with Standard General L.P., a New York-based investment firm that manages event-driven opportunity funds, since June 2016 where he is responsible for portfolio management of Standard General's SG Special Situations Fund L.P.. He has served on numerous boards for over 20 years and has broad leadership skills and extensive operational and financial restructuring experience as well as experience in the fields of private equity and capital markets. He is currently a member of the Board of Trustees of Spirit MTA REIT (NASDAQ: SMTA) and Investcorp Credit Management BDC, Inc. (NASDAQ: ICMB). He previously served as a director of Hennessy Acquisition Corp. II, a NASDAQ-listed SPAC, from July 2015 to February 2017. From 2009 to 2015, Mr. Sullivan was the Managing Partner of Smallwood Partners, LLC, a financial advisory services firm. From 1996 to 2008, Mr. Sullivan served as a Managing Director of Investcorp International, Inc., a global middle market private equity firm, where he was a member of the U.S. Investment Committee and a Senior Partner on the Post-Acquisition Team. Prior to his time at Investcorp, he served as Vice President and Treasurer of The Leslie Fay Companies. Previously, Mr. Sullivan was a Senior Manager in the Turnaround and Restructuring Group and a Senior and Staff Account of Arthur Anderson & Co. Mr. Sullivan holds a Bachelor's degree from Villanova University. We believe that Mr. Sullivan is qualified to serve on our board of directors based on his public company experience and transaction expertise.

**Charles Goldman, Vice Chairman.** Charles Goldman has served as one of our directors since inception and is the Vice Chairman of the Board as of the date hereof. Mr. Goldman has been the Co-Founder and Co-Chairman of NewHold Enterprises since 2017, and has spent more than 20 years in private equity. Prior to NewHold Enterprises, Mr. Goldman worked at Mill Road Capital from 2005 until 2017, where he was a founding partner, JPMorgan Partners, including Chase Capital Partners, and Chemical Venture Partners. Mr. Goldman is Chairman of the Board of NewHold AEC Corp. and serves on the board of American AllWaste LLC. Mr. Goldman's private equity career includes extensive experience in deal sourcing, structuring, debt financing, and portfolio company management. He has led transactions including buyouts of public and private companies, growth equity, structured investments and investments in public companies. In addition to his deal sourcing and structuring responsibilities, Mr. Goldman has extensive experience serving as a board member and working in partnership with management, and has worked with companies in industries including aerospace, automotive, business services, retail and telecommunications. In addition to his work at Mill Road and JPMorgan Partners, Mr. Goldman worked at Ascend Media where he was an Executive Vice President and at Dillon, Read & Co. where he was an investment banking analyst. Mr. Goldman received Bachelor of Arts and Bachelor of Sciences degrees from the College of Arts and Sciences and The Wharton School of the University of Pennsylvania, respectively. Mr. Goldman also received an MBA from the Harvard Business School. We believe that Mr. Goldman is qualified to serve on our board of directors based on his expertise in the financial services and industrial technology industries.

**Neil Glat.** Neil Glat is one of our independent directors and chairs the Nominating Committee as of the date hereof. From September 2019 through March 2020, Mr. Glat was a Senior Advisor to the New York Jets, as well as a Managing Member of NG Strategies, LLC. From April 2012 through August 2019, Mr. Glat served as the President of the New York Jets. Prior to that, Mr. Glat was a senior executive at the National Football League for 15 years, where he oversaw corporate development and strategy, in addition to having top-tier experience in management consulting at McKinsey & Company and investment banking at Dillon, Read & Co. Mr. Glat is currently on the Board of ASM

Global, a privately-held company which is the world's largest stadium, arena, convention center, theater, and venue management company and which was formed by the recent merger of SMG and AEG Facilities. In addition, Mr. Glat serves on many philanthropic boards. Mr. Glat has extensive operating and strategic experience in sports, entertainment, media, and hospitality. During his more than 25 years in combined tenures at the New York Jets, the National Football League, and professional service firms, Mr. Glat has consistently focused on, among other things, driving revenue growth, increasing consumer engagement, identifying new businesses, encouraging innovation, developing forward-looking strategies, and executing strategic transactions and deals. Mr. Glat earned a Bachelor of Sciences degree in Economics from The Wharton School at the University of Pennsylvania and a JD from Harvard Law School. We believe that Mr. Glat is qualified to serve on our board of directors based on his extensive operational, managerial, strategic, and financial experience.

**Kathleen Harris.** Kathleen Harris is one of our independent directors and chairs the Audit Committee as of the date hereof. Ms. Harris has more than 30 years of experience in investment management and fundamental research in public equity markets, as well as operational management of a private company. Ms. Harris has been the Chief Financial Officer of Dinges Fire Company, a Midwest fire equipment distributor, since February 2018. Prior to joining Dinges Fire Company, she was an investment analyst for hedge fund SDK Capital, specializing in long/short analysis of U.S. companies from January 2015 through February 2018. From 1995 to 2004, as a partner for Oechsle International Advisors, Ms. Harris was a portfolio manager and equity analyst for institutional clients invested in non-US and emerging markets. From 1990 to 1995, Ms. Harris was international portfolio manager and analyst for the State of Wisconsin Investment Board. Her research expertise spans company, industry, and market analysis including health care, telecommunications, consumer staples, consumer discretionary, and industrial groups across U.S., European, Asian, and emerging markets. Ms. Harris began her career as analyst and portfolio manager at The Northern Trust Company in Chicago. She successfully completed the Chartered Financial Analyst program in 1988 and earned her Bachelor of Sciences degree from the University of Illinois in 1984 and an MBA from the University of Chicago in 1987. We believe that Ms. Harris is qualified to serve on our board of directors based on her extensive financial, operational, and principal investing experience.

**Brian Mathis.** Brian P. Mathis is one of our independent directors and chairs the Compensation Committee as of the date hereof. Since January 2011, Mr. Mathis has been a founding partner of Pine Street Alternative Asset Management LP and brings significant alternative asset investment experience, including hedge fund, private equity, and venture capital experience. Previously, Mr. Mathis was a Co-Managing Partner of Provident Group Asset Management, LLC where he was a member of the investment committee and primarily responsible for portfolio construction and capital raising. Before joining PGAM, Mr. Mathis was a Managing Director at Advent Capital Management, responsible for business development and marketing of their multi-strategy, credit, and convertible hedge fund strategies. Prior to Advent, Mr. Mathis was a Director at Pacific Alternative Asset Management Company (PAAMCO), a fund of hedge funds with over \$7.5 billion of assets under management. At PAAMCO, he was a member of the Investment Management Committee, evaluating directional hedge fund strategies, portfolio asset allocation and guiding strategic initiatives for the firm, including establishing PAAMCO's London office. Prior to PAAMCO, Mr. Mathis was a Vice President at JPMorgan (NYSE: JPM) serving in various private equity groups focusing on investments in the hedge fund space, later-stage venture/growth capital, and mid-cap LBOs, as well as private equity placements. Mr. Mathis served on the Board of Directors/Advisors for PlusFunds (observer), Eastport Operating Partners LP, Edison Schools, LinksCorp, and Bell Sports. Mr. Mathis received a Bachelor of Business Administration degree from the University of Michigan Business School and a JD/MPA from Harvard Law School and the John F. Kennedy School of Government, Harvard University, respectively. We believe that Mr. Mathis is qualified to serve on our board of directors based on his extensive principal investing and capital markets experience.

**Marc Saiontz.** Marc Saiontz is one of our independent directors as of the date hereof. Mr. Saiontz is a private equity investor and entrepreneur. He is the founder of the private investment firm SnowBridge Capital. Mr. Saiontz has extensive experience working with founders and CEOs of leading middle market businesses, having invested in many private companies over his career, with significant roles as Chairman and lead director on behalf of the majority investor in numerous of those companies. Mr. Saiontz joined the private equity firm American Securities in 1996 as one of the earliest investment professionals. In December 2018, Mr. Saiontz transitioned to a Senior Adviser

until May 2019, after serving as a Managing Director for over 10 years. Prior to joining American Securities, Mr. Saiontz worked with Morgan Stanley Capital Partners, where he focused on private equity investments. Mr. Saiontz received a Bachelor of Sciences degree in Economics from the Wharton School of the University of Pennsylvania in 1995 and an MBA from Stanford University's Graduate School of Business in 2001. We believe that Mr. Saiontz is qualified to serve on our board of directors based on his extensive strategic and investing experience.

***Suzy Taherian.*** Suzy Taherian is one of our independent directors as of the date hereof. Ms. Taherian has over 25 years of experience acting as Chief Financial Officer, Chief Operating Officer, and acting Chief Financial Officer for global industrial companies. She started her career as a consultant with Accenture, advising large companies on implementation of ERP systems to optimize operations. She later held various senior finance roles for 16 years at Exxon and Chevron. Since January 2020, Ms. Taherian has been an advisor to TKCapital, a private equity firm with investments in industrial companies. Additionally, Ms. Taherian has served as Chief Financial Officer of several industrial companies — from February 2017 through December 2019, at Kinetic Systems Inc., a global engineering and construction firm; from July 2016 through January 2017, at RePower, a national software company; from June 2015 through June 2016, at NobleIron, a publicly-traded construction equipment rental company (TSX:NIR); and from April 2013 through May 2015, at eCullet, a national manufacturer of glass. Over her career, she has worked on financings of over \$4.5 billion and M&A transactions of over \$2.5 billion. She previously served on numerous boards such as Glass to Glass, a joint venture with Owens Illinois which is the world's largest glass manufacturer, and Chevron Federal Credit Union, which has over \$1 billion in assets. She previously served on boards of various nonprofits (including a homeless shelter and a school) and is an active community leader and was appointed as the Contra Costa County Library Commissioner, advocating for literacy and education for 1 million residents of the county. Since 2019, she has been on the Steering Committee of CFO Leadership Council, a national organization of Chief Financial Officers. Additionally, Ms. Taherian has been an adjunct professor at UC Davis Graduate School of Management for last 9 years, teaching courses on International Finance and International Business. Ms. Taherian holds a Bachelor of Science degree in Mechanical Engineering from UC Davis and an MBA from the Kellogg School of Management, Northwestern University. We believe that Ms. Taherian is qualified to serve on our board of directors based on her 25 years of experience as a finance executive with industrial companies.

#### ***Special Advisor***

***Nicholas Petruska.*** Nicholas Petruska serves as a special advisor to the Company and focuses primarily on issues of transaction execution. Mr. Petruska has served as the Executive Vice President, Chief Financial Officer and Secretary of Hennessy Capital Acquisition Corp. IV (NASDAQ: HCAC) since its formation. Mr. Petruska advised Hennessy Capital I, which merged with School Bus Holdings Inc. in February 2015 and is now known as Blue Bird Corporation (NASDAQ: BLBD). From April 2015 to February 2017, Mr. Petruska served as Chief Financial Officer of Hennessy II, which merged with Daseke in February 2017 and is now known as Daseke Inc. (NASDAQ: DSKE). From March 2017 to October 2018, Mr. Petruska served as Chief Financial Officer of Hennessy III, which merged with NRC Group in October 2018. From July 2012 to July 2014, Mr. Petruska served as an associate at CHS Capital, a Chicago-based middle market private equity investment firm, where he evaluated leveraged buyouts and structured equity investments across multiple sectors and monitored certain portfolio companies of CHS. From January 2010 to July 2012, Mr. Petruska served as an investment banking analyst for Morgan Stanley (NYSE: MS) in the mergers and acquisitions and corporate finance groups with a focus on diversified industrials and consumer retail. He holds a B.S. degree, summa cum laude, from Miami University with majors in Finance and Decision Sciences.

#### **Number and Terms of Office of Officers and Directors**

Our board of directors consists of 7 directors and is divided into three classes with only one class of directors being elected in each year and each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a three-year term. In accordance with Nasdaq corporate governance requirements, we are not required to hold an annual meeting until one year after our first fiscal year end following our listing on Nasdaq. The term of office of the first class of directors, consisting of Neil Glat and Kathleen Harris, will expire at our first annual meeting of stockholders. The term of office of the second class of directors, consisting of Marc Saiontz and Brian Mathis will expire at the second annual meeting of stockholders. The term of office of the third class of directors, consisting of Charles Goldman, Thomas Sullivan and Suzy Taherian, will expire at the third annual meeting of stockholders.

Our officers are appointed by the board of directors and serve at the discretion of the board of directors, rather than for specific terms of office. Our board of directors is authorized to appoint persons to the offices set forth in our bylaws as it deems appropriate. Our bylaws provide that our officers may consist of a Chief Executive Officer, a Chief Financial Officer, a Secretary and such other officers (including, without limitation, a Chairman of the Board, Presidents, Vice Presidents, Assistant Secretaries and a Treasurer) as may be determined by the board of directors.

#### **Director Independence**

Nasdaq listing standards require that a majority of our board of directors be independent. An “independent director” is defined generally as a person other than an officer or employee of the company or its subsidiaries or any other individual having a relationship which in the opinion of the company’s board of directors, would interfere with the director’s exercise of independent judgment in carrying out the responsibilities of a director. Our board of directors has determined that each of Suzy Taherian, Thomas Sullivan, Neil Glat, Marc Saiontz, Kathleen Harris and Brian Mathis are “independent directors” as defined in the Nasdaq listing standards and applicable SEC rules. Our independent directors will have regularly scheduled meetings at which only independent directors are present.

#### **Officer and Director Compensation**

None of our officers has received any cash compensation for services rendered to us. Commencing on the date of this prospectus, we have agreed to pay an affiliate of our sponsor a total of \$15,000 per month for office space, utilities and secretarial and administrative support. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees. No other compensation of any kind, including any finder’s fee, reimbursement, consulting fee or monies in respect of any payment of a loan, will be paid by us to our sponsor, officers and directors, or any affiliate of our sponsor or officers, prior to, or in connection with any services rendered in order to effectuate, the consummation of our initial business combination (regardless of the type of transaction that it is). However, these individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or their affiliates. Any such payments prior to an initial business combination will be made using funds held outside the trust account. Other than quarterly audit committee review of such payments, we do not expect to have any additional controls in place governing our reimbursement payments to our directors and executive officers for their out-of-pocket expenses incurred in connection with identifying and consummating an initial business combination.

After the completion of our initial business combination, directors or members of our management team who remain with us may be paid consulting or management fees from the combined company. All of these fees will be fully disclosed to stockholders, to the extent then known, in the tender offer materials or proxy solicitation materials furnished to our stockholders in connection with a proposed initial business combination. We have not established any limit on the amount of such fees that may be paid by the combined company to our directors or members of management. It is unlikely the amount of such compensation will be known at the time of the proposed initial business combination, because the directors of the post-combination business will be responsible for determining officer and director compensation. Any compensation to be paid to our officers will be determined, or recommended to the board of directors for determination, either by a compensation committee constituted solely by independent directors or by a majority of the independent directors on our board of directors.

We do not intend to take any action to ensure that members of our management team maintain their positions with us after the consummation of our initial business combination, although it is possible that some or all of our officers and directors may negotiate employment or consulting arrangements to remain with us after our initial business combination. The existence or terms of any such employment or consulting arrangements to retain their positions with us may influence our management’s motivation in identifying or selecting a target business but we do not believe that the ability of our management to remain with us after the consummation of our initial business combination will be a determining factor in our decision to proceed with any potential business combination. We are not party to any agreements with our officers and directors that provide for benefits upon termination of employment.

## **Committees of the Board of Directors**

Our board of directors will have two standing committees: an audit committee and a compensation committee. Subject to phase-in rules and a limited exception, Nasdaq rules and Rule 10A-3 of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors, and Nasdaq rules require that the compensation committee of a listed company be comprised solely of independent directors.

### ***Audit Committee***

Effective as of the date of this prospectus, we have established an audit committee of the board of directors. Suzy Taherian, Brian Mathis and Kathleen Harris serve as members of our audit committee, and Kathleen Harris will chair the audit committee. Under the Nasdaq listing standards and applicable SEC rules, we are required to have at least three members of the audit committee, all of whom must be independent. Each of Suzy Taherian, Brian Mathis and Kathleen Harris meet the independent director standard under Nasdaq listing standards and under Rule 10-A-3(b)(1) of the Exchange Act.

Each member of the audit committee is financially literate and our board of directors has determined that Kathleen Harris qualifies as an “audit committee financial expert” as defined in applicable SEC rules.

We will adopt an audit committee charter, which will detail the principal functions of the audit committee, including:

- the appointment, compensation, retention, replacement, and oversight of the work of the independent registered public accounting firm engaged by us;
- pre-approving all audit and permitted non-audit services to be provided by the independent registered public accounting firm engaged by us, and establishing pre-approval policies and procedures;
- setting clear hiring policies for employees or former employees of the independent registered public accounting firm, including but not limited to, as required by applicable laws and regulations;
- setting clear policies for audit partner rotation in compliance with applicable laws and regulations;
- obtaining and reviewing a report, at least annually, from the independent registered public accounting firm describing (i) the independent registered public accounting firm’s internal quality-control procedures, (ii) any material issues raised by the most recent internal quality-control review, or peer review, of the audit firm, or by any inquiry or investigation by governmental or professional authorities within the preceding five years respecting one or more independent audits carried out by the firm and any steps taken to deal with such issues and (iii) all relationships between the independent registered public accounting firm and us to assess the independent registered public accounting firm’s independence;
- reviewing and approving any related party transaction required to be disclosed pursuant to Item 404 of Regulation S-K promulgated by the SEC prior to us entering into such transaction; and
- reviewing with management, the independent registered public accounting firm, and our legal advisors, as appropriate, any legal, regulatory or compliance matters, including any correspondence with regulators or government agencies and any employee complaints or published reports that raise material issues regarding our financial statements or accounting policies and any significant changes in accounting standards or rules promulgated by the Financial Accounting Standards Board, the SEC or other regulatory authorities.

### ***Compensation Committee***

Effective as of the date of this prospectus, we have established a compensation committee of the board of directors. Brian Mathis, Marc Saiontz, and Neil Glat serve as members of our compensation committee. Under the Nasdaq listing standards and applicable SEC rules, we are required to have at least two members of the compensation committee, all of whom must be independent. Each of Brian Mathis, Marc Saiontz, and Neil Glat are independent, and Brian Mathis will chair the compensation committee.

We will adopt a compensation committee charter, which will detail the principal functions of the compensation committee, including:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to our Chief Executive Officer's compensation, if any is paid by us, evaluating our Chief Executive Officer's performance in light of such goals and objectives and determining and approving the remuneration (if any) of our Chief Executive Officer based on such evaluation;
- reviewing and approving on an annual basis the compensation, if any is paid by us, of all of our other officers;
- reviewing on an annual basis our executive compensation policies and plans;
- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our officers and employees;
- if required, producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

Notwithstanding the foregoing, as indicated above, other than the payment to an affiliate of our sponsor of \$15,000 per month, for up to 24 months, for office space, utilities and secretarial and administrative support, no compensation of any kind, including finders, consulting or other similar fees, will be paid to any of our existing stockholders, officers, directors or any of their respective affiliates, prior to, or for any services they render in order to effectuate the consummation of an initial business combination. Accordingly, it is likely that prior to the consummation of an initial business combination, the compensation committee will only be responsible for the review and recommendation of any compensation arrangements to be entered into in connection with such initial business combination.

The charter will also provide that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by Nasdaq and the SEC.

#### **Nominating Committee**

Effective as of the date of this prospectus, we have established a nominating committee of the board of directors, which consists of Neil Glat, Kathleen Sullivan, and Suzy Taherian, each of whom is an independent director under Nasdaq's listing standards. Neil Glat chairs the nominating committee. The nominating committee is responsible for overseeing the selection of persons to be nominated to serve on our board of directors. The nominating committee considers persons identified by its members, management, shareholders, investment bankers and others.

##### **Guidelines for Selecting Director Nominees**

The guidelines for selecting nominees, which are specified in the Nominating Committee Charter, generally provide that persons to be nominated:

- should have demonstrated notable or significant achievements in business, education or public service;
- should possess the requisite intelligence, education and experience to make a significant contribution to the board of directors and bring a range of skills, diverse perspectives and backgrounds to its deliberations; and
- should have the highest ethical standards, a strong sense of professionalism and intense dedication to serving the interests of the stockholders.

The nominating committee will consider a number of qualifications relating to management and leadership experience, background and integrity and professionalism in evaluating a person's candidacy for membership on the board of directors. The nominating committee may require certain skills or attributes, such as financial or accounting experience, to meet specific board needs that arise from time to time and will also consider the overall experience and makeup of its members to obtain a broad and diverse mix of board members. The nominating committee does not distinguish among nominees recommended by stockholders and other persons.

#### **Compensation Committee Interlocks and Insider Participation**

None of our officers currently serves, or in the past year has served, as a member of the compensation committee of any entity that has one or more officers serving on our board of directors.

#### **Code of Ethics**

Prior to the consummation of this offering, we will have adopted a Code of Ethics applicable to our directors, officers and employees. We will file a copy of our Code of Ethics and our audit and compensation committee charters as exhibits to the registration statement of which this prospectus is a part. You will be able to review these documents by accessing our public filings at the SEC's web site at [www.sec.gov](http://www.sec.gov). In addition, a copy of the Code of Ethics will be provided without charge upon request from us. We intend to disclose any amendments to or waivers of certain provisions of our Code of Ethics in a Current Report on Form 8-K. See the section of this prospectus entitled "Where You Can Find Additional Information."

#### **Conflicts of Interest**

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then-current fiduciary or contractual obligations to present the opportunity to such entity, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. We believe, however, that the fiduciary duties or contractual obligations of our officers or directors will not materially affect our ability to complete our initial business combination. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

Our sponsor and our officers and directors, other than Marc Saiontz and Neil Glat, have agreed not to participate in the formation of, or become an officer or director of, any other special purpose acquisition company with a class of securities registered under the Securities Exchange Act of 1934, as amended, or the Exchange Act, until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination within 24 months after the closing of this offering, as such may be extended by stockholder approval. Marc Saiontz and Neil Glat have agreed not to participate in the formation of, or become an officer or director of, any other industrial-focused special purpose acquisition company with a class of securities registered under the Securities Exchange Act of 1934, as amended, or the Exchange Act, until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination within 24 months after the closing of this offering, as such may be extended by stockholder approval. Potential investors should also be aware of the following other potential conflicts of interest:

- None of our officers or directors is required to commit his or her full time to our affairs and, accordingly, may have conflicts of interest in allocating his or her time among various business activities.
- In the course of their other business activities, our officers and directors may become aware of investment and business opportunities which may be appropriate for presentation to us as well as the other entities with which they are affiliated. Our management may have conflicts of interest in determining to which entity a particular business opportunity should be presented.

- Our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the consummation of our initial business combination, and the anchor investors have agreed to waive their redemption rights with respect to their founder shares in such situation. Additionally, our initial stockholders have agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to consummate our initial business combination within 24 months after the closing of this offering, although they will be entitled to such liquidating distributions with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame. If we do not complete our initial business combination within such applicable time period, the proceeds of the sale of the private placement warrants held in the trust account will be used to fund the redemption of our public shares, and the private placement warrants will expire worthless. With certain limited exceptions, the founder shares will not be transferable, assignable by our sponsor or the anchor investors until the earlier of: (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last reported sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property. With certain limited exceptions, the private placement warrants and the Class A common stock underlying such warrants, will not be transferable, assignable or saleable by our sponsor or the anchor investors (as applicable) or their permitted transferees until 30 days after the completion of our initial business combination. Since our sponsor and officers and directors may directly or indirectly own common stock and warrants following this offering, our officers and directors may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Permitted transferees of the founder shares would be subject to the same restrictions.
- Our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.
- Our sponsor, officers or directors may have a conflict of interest with respect to evaluating a business combination and financing arrangements as we may obtain loans from our sponsor or an affiliate of our sponsor or any of our officers or directors to finance transaction costs in connection with an intended initial business combination. Up to \$100,000 of such loans may be convertible into warrants at a price of \$1.00 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period.

The conflicts described above may not be resolved in our favor.

In general, officers and directors of a corporation incorporated under the laws of the State of Delaware are required to present business opportunities to a corporation if:

- the corporation could financially undertake the opportunity;
- the opportunity is within the corporation's line of business; and
- it would not be fair to our company and its stockholders for the opportunity not to be brought to the attention of the corporation.

Accordingly, as a result of multiple business affiliations, our officers and directors may have similar legal obligations relating to presenting business opportunities meeting the above-listed criteria to multiple entities. Furthermore, our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

Below is a table summarizing the entities to which our executive officers and directors currently have fiduciary duties or contractual obligations:

<b>Individual</b>	<b>Entity</b>	<b>Entity's Business</b>	<b>Affiliation</b>
Kevin Charlton	NewHold Enterprises, Industrial Holding Company	Investment firm	Co-Chairman
	Spirit Realty Capital	Real estate investment trust (REIT)	Director
	Daseke, Inc.	Transportation and Logistics	Director
	American AllWaste LLC	Growth platform focused on non-hazardous liquid waste industry	Chairman
	F&S Precision Holdings, Inc.	Precision tooling for plastic injection molding	Chairman
	Macro Energy LLC	Provider of lighting solutions	Director
Thomas J. Sullivan	Investcorp Credit Management BDC, Inc.	Credit manager	Director
	Spirit MTA REIT	Real estate investment trust	Director
Charles Goldman	NewHold Enterprises LLC	Investment firm	Co-Chairman
	American AllWaste LLC	Growth platform focused on non-hazardous liquid waste industry	Director
	NewHold AEC Corp.	Architecture and engineering services	Chairman
Charlie Baynes-Reid	NewHold Enterprises LLC	Investment firm	Managing Director and General Counsel
	River Hollow Partners, LLC	Investment firm	General Counsel
	Macro Energy LLC	Provider of lighting solutions	Director
	Powerful Foods LLC	Food and beverage company	Director
	NewHold AEC Corp.	Architecture and engineering services	Director
	American AllWaste LLC	Growth platform focused on non-hazardous liquid waste industry	General Counsel
Adam Deutsch	NewHold Enterprises LLC	Investment firm	Vice President
	American AllWaste LLC	Growth platform focused on non-hazardous liquid waste industry	Director
	Macro Energy LLC	Provider of lighting solutions	Chief Financial Officer
	F&S Precision Holdings, Inc.	Precision tooling for plastic injection molding	Director
Marc Saiontz	Snowbridge Capital	Investment firm	Director
	Beachy, Inc.	Information technology and services	Director
Kathleen Harris	Dinges Partners Group	Fire equipment company	Chief Financial Officer and Director
Brian Mathis	Pine Street Alternative Asset Management LP	Asset management firm	Partner
Neil Glat	NG Strategies, LLC	Strategic consulting firm	Managing Member
	ASM Global Parent, Inc.	Venue management	Director

Accordingly, if any of the above executive officers or directors becomes aware of a business combination opportunity which is suitable for any of the above entities to which he or she has current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such entity, and only present it to us if such entity rejects the opportunity.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers or directors. In the event we seek to complete our initial business combination with such a company, we, or a committee of independent directors, would obtain an opinion from an independent investment banking firm that is a member of FINRA or from an independent accounting firm, that such an initial business combination is fair to our company from a financial point of view.

In the event that we submit our initial business combination to our public stockholders for a vote, pursuant to the letter agreement, our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed to vote any founder shares held by them and any public shares purchased during or after the offering (including in open market and privately negotiated transactions) in favor of our initial business combination.

#### **Limitation on Liability and Indemnification of Officers and Directors**

Our amended and restated certificate of incorporation will provide that our officers and directors will be indemnified by us to the fullest extent authorized by Delaware law, as it now exists or may in the future be amended. In addition, our amended and restated certificate of incorporation will provide that our directors will not be personally liable for monetary damages to us or our stockholders for breaches of their fiduciary duty as directors, unless they violated their duty of loyalty to us or our stockholders, acted in bad faith, knowingly or intentionally violated the law, authorized unlawful payments of dividends, unlawful stock purchases or unlawful redemptions, or derived an improper personal benefit from their actions as directors.

We will enter into agreements with our officers and directors to provide contractual indemnification in addition to the indemnification provided for in our amended and restated certificate of incorporation. Our bylaws also will permit us to secure insurance on behalf of any officer, director or employee for any liability arising out of his or her actions, regardless of whether Delaware law would permit such indemnification. We will purchase a policy of directors' and officers' liability insurance that insures our officers and directors against the cost of defense, settlement or payment of a judgment in some circumstances and insures us against our obligations to indemnify our officers and directors.

These provisions may discourage stockholders from bringing a lawsuit against our directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against officers and directors, even though such an action, if successful, might otherwise benefit us and our stockholders. Furthermore, a stockholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against officers and directors pursuant to these indemnification provisions.

We believe that these provisions, the directors' and officers' liability insurance and the indemnity agreements are necessary to attract and retain talented and experienced officers and directors.

## PRINCIPAL STOCKHOLDERS

The following table sets forth information regarding the beneficial ownership of our common stock as of the date of this prospectus, and as adjusted to reflect the sale of our Class A common stock included in the units offered by this prospectus, and assuming no purchase of units in this offering, by:

- each person known by us to be the beneficial owner of more than 5% of our outstanding shares of common stock;
- each of our executive officers and directors that beneficially owns shares of our common stock; and
- all our executive officers and directors as a group.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them. The following table does not reflect record or beneficial ownership of the private placement warrants as these warrants are not exercisable within 60 days of the date of this prospectus.

In February 2020, our sponsor purchased 4,312,500 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.006 per share. In July 2020, our sponsor transferred an aggregate of 867,500 founder shares, including to the following persons: (i) 32,500 founder shares to each of Marc Saiontz and Suzy Taherian, two of our independent directors, (ii) 35,000 founder shares to each of Neil Glat and Brian Mathis, two of our independent directors, (iii) 40,000 founder shares to Kathleen Harris, one of our independent directors, (iv) 50,000 founder shares to Thomas Sullivan, one of our independent directors, (v) 67,500 founder shares to Adam Deutsch, our Chief Financial Officer, (vi) 100,000 founder shares to Charlie Baynes-Reid, our Chief Operating Officer, (vii) 135,000 founder shares to each of Kevin Charlton and Charles Goldman, our Chief Executive Officer and director, respectively, and (viii) 200,000 founder shares to Nick Petruska, our special advisor. In July 2020, our sponsor forfeited 920,000 founder shares and the anchor investors purchased 920,000 founder shares for an aggregate purchase price of approximately \$5,333, or approximately \$0.006 per share. The following table presents the number of shares and percentage of our common stock owned by our initial stockholders before and after this offering. The post-offering numbers and percentages presented assume that the underwriters do not exercise their over-allotment option, that our sponsor and the anchor investors forfeit an aggregate of 562,500 founder shares and that there are 18,750,000 shares of our common stock, consisting of (i) 15,000,000 shares of our Class A common stock and (ii) 3,750,000 shares of our Class B common stock, issued and outstanding after this offering.

Name and Address of Beneficial Owner <sup>(1)</sup>	Number of Shares Beneficially Owned <sup>(2)</sup>	Approximate Percentage of Outstanding Common Stock	
		Before Offering	After Offering
NewHold Industrial Technology Holdings LLC <sup>(3)</sup>	2,525,000	58.6%	11.1%
Kevin Charlton <sup>(3)</sup>	2,660,000	61.7%	11.8%

\* Less than one percent.

- (1) Unless otherwise noted, the business address of each of the following entities or individuals is 950 McCarty Street, Building A, Houston, TX 77029.
- (2) These shares represent the founder shares held by our initial stockholders, an aggregate of 562,500 of which are subject to forfeiture by the sponsor and the anchor investors depending on the extent to which the underwriters' over-allotment option is not exercised in full or in part.
- (3) Our sponsor is controlled by NewHold Enterprises. Investment and voting decisions for NewHold Enterprises are made by Kevin Charlton, Charles Goldman, Charlie Baynes-Reid and Adam Deutsch. Each of our officers and directors has an economic interest in our Sponsor. 2,525,000 of the shares beneficially owned by each of Kevin Charlton, Charles Goldman, Charlie Baynes-Reid and Adam Deutsch consist of the shares owned by our sponsor. Each of Kevin Charlton, Charles Goldman, Charlie Baynes-Reid and Adam Deutsch disclaims any pecuniary interest in such shares except to the extent of their beneficial interest in NewHold Enterprises.
- (4) Interests shown consist solely of founder shares, classified as shares of Class B common stock. The registered holders of the referenced shares are funds and accounts under management by UBS O'Connor LLC. The applicable portfolio managers, as managing directors of such entity, have voting and investment power over the shares held by the funds and accounts, which are the registered holders of the referenced shares. Such portfolio managers expressly disclaim beneficial ownership of all shares held by such funds and accounts. The address of such funds and accounts and such portfolio managers is 1N. Wacker Drive, 31<sup>st</sup> Floor, Chicago, IL 60606.
- (5) Interests shown consist solely of founder shares, classified as shares of Class B common stock. The registered holders of the referenced shares are funds and accounts under management by Magnetar Financial LLC. The applicable portfolio managers, as managing directors of such entity, have voting and investment power over the shares held by the funds and accounts, which are the registered holders of the referenced shares. Such portfolio managers expressly disclaim beneficial ownership of all shares held by such funds and accounts. The address of such funds and accounts and such portfolio managers is 1603 Orrington Avenue, 13<sup>th</sup> Floor, Evanston, IL 60201.
- (6) Interests shown consist solely of founder shares, classified as shares of Class B common stock. The registered holders of the referenced shares are funds and accounts under management by Mint Tower Capital Management B.V. The applicable portfolio managers, as managing directors of such entity, have voting and investment power over the shares held by the funds and accounts, which are the registered holders of the referenced shares. Such portfolio managers expressly disclaim beneficial ownership of all shares held by such funds and accounts. The address of such funds and accounts and such portfolio managers is Beursplein 5, 1012 JW Amsterdam, Netherlands.

Immediately after this offering, our initial stockholders (including the anchor investors) will beneficially own 20% of the then-issued and outstanding shares of our common stock (assuming they do not purchase any units in this offering). Neither our sponsor nor any of our officers or directors or our special advisor have expressed an intention to purchase any units in this offering. If we increase or decrease the size of the offering, we will effect a stock dividend or a share contribution back to capital, or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of the offering in such amount as to maintain the ownership of our initial stockholders at 20.0% of the issued and outstanding shares of our common stock upon the consummation of this offering. Because of this ownership block, our initial stockholders may be able to effectively influence the outcome of all matters requiring approval by our stockholders, including the election of directors, amendments to our amended and restated certificate of incorporation and approval of significant corporate transactions, including approval of our initial business combination.

Our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed (A) to vote any shares owned by them in favor of any proposed initial business combination and (B) not to redeem any shares in connection with a stockholder vote to approve a proposed initial business combination. The anchor investors have expressed to us an interest to purchase an aggregate of \$40,000,000 of units in this offering (or \$46,000,000 of units if the underwriters' over-allotment option is exercised in full), and we have agreed to direct the underwriters to sell to the anchor investors such number of units. Further, the anchor investors have entered into separate agreements with us, the combined effect of which is that, if the anchor investors, collectively, do not own 4,000,000 public shares; which amount will be reduced on a pro rata basis if less than 15,000,000 units are sold in this offering), on the date of any stockholder vote with respect to an initial business combination or the business day immediately prior to the consummation of our initial business combination, certain or all of the anchor investors will be required to transfer to our sponsor a pro rata portion of the founder shares they purchased prior to this offering; provided, however, that such transfers of founder shares to our sponsor shall not result in the remaining number of founder shares collectively held by the anchor investors being less than 200,000 founder shares (or less than 230,000 founder shares if the underwriters' over-allotment option is exercised in full). In addition, each anchor investor will be subject to any forfeiture of their founder shares on the same terms as the founder shares held by our sponsor may be forfeited in connection with our business combination, provided such forfeiture shall not reduce the number of founder shares held by such anchor investor below 25% of the founder shares purchased by such anchor investor prior to this offering.

There can be no assurance that the anchor investors will acquire any units in this offering, or as to the amount of equity the anchor investors will retain, if any, upon the consummation of our initial business combination. In the event that the anchor investors purchase such units (either in this offering or after) and vote them in favor of our initial business combination, it is possible that no votes from other public stockholders would be required to approve our initial business combination, depending on the number of shares that are present at the meeting to approve such transaction. As a result of the founder shares and private placement warrants that the anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders.

Our sponsor and our executive officers and directors are deemed to be our “promoters” as such term is defined under the federal securities laws.

#### **Restrictions on Transfers of Founder Shares and Private Placement Warrants**

The founder shares, private placement warrants and any shares of Class A common stock issued upon conversion or exercise thereof are each subject to transfer restrictions pursuant to lock-up provisions in a letter agreement with us to be entered into by our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor (or a subscription agreement in the case of each of the anchor investors). Those lock-up provisions provide that such securities are not transferable or salable (i) in the case of the founder shares, until the earlier of (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last reported sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property, and (ii) in the case of the private placement warrants and the Class A common stock underlying such warrants, until 30 days after the completion of our initial business combination, except in each case (a) to our officers or directors, any affiliates or family members of any of our officers or directors, any members of our sponsor, or any affiliates of our sponsor; (b) in the case of an individual, by gift to a member of the individual’s immediate family or to a trust, the beneficiary of which is a member of the individual’s immediate family, an affiliate of such person or to a charitable organization; (c) in the case of an individual, by virtue of laws of descent and distribution upon death of the individual; (d) in the case of an individual, pursuant to a qualified domestic relations order; (e) by private sales or transfers made in connection with the consummation of an initial business combination at prices no greater than the price at which the shares or warrants were originally purchased; (f) in the event of our liquidation prior to the completion of our initial business combination; or (g) by virtue of the laws of Delaware or our sponsor’s limited liability company agreement upon dissolution of our sponsor; or (h) in the case of an anchor investor, to such anchor investor’s affiliates, or any investment fund or other entity controlled or managed by such anchor investor, or to any investment manager or investment advisor of such anchor investor or an affiliate of any such investment manager or investment advisor, provided, however, that in the case of clauses (a) through (e), (g) or (h), these permitted transferees must enter into a written agreement agreeing to be bound by these transfer restrictions and the other restrictions contained in the letter agreements and by the same agreements entered into by our sponsor, officers, directors, special advisor or such employee or the anchor investors, as the case may be, with respect to such securities (including provisions relating to voting, the trust account and liquidation distributions described elsewhere in this prospectus).

#### **Registration Rights**

The holders of the founder shares, private placement warrants and warrants that may be issued upon conversion of working capital loans (and any shares of Class A common stock issuable upon the exercise of the private placement warrants and warrants that may be issued upon conversion of working capital loans and upon conversion of the founder shares) will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of this offering, requiring us to register such securities for resale (in the case of the founder shares, only after conversion to our Class A common stock). The holders of the majority of these securities are entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our completion of our initial business combination and rights to require us to register for resale such securities pursuant to Rule 415 under the Securities Act. We will bear the expenses incurred in connection with the filing of any such registration statements.

## CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

In February 2020, we issued an aggregate of 4,312,500 founder shares to our sponsor for an aggregate purchase price of \$25,000 in cash, or approximately \$0.006 per share. In July 2020, our sponsor forfeited 920,000 founder shares and the anchor investors purchased 920,000 founder shares for an aggregate purchase price of approximately \$5,333, or approximately \$0.006 per share. The number of founder shares issued was determined based on the expectation that such founder shares would represent 20% of the outstanding shares upon completion of this offering. If we increase or decrease the size of the offering we will effect a stock dividend or a share contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of the offering in such amount as to maintain the ownership of our initial stockholders at 20.0% of the issued and outstanding shares of our common stock upon the consummation of this offering. Up to an aggregate of 562,500 founder shares are subject to forfeiture by our sponsor and the anchor investors (442,500 founder shares and 120,000 founder shares, respectively) depending on the extent to which the underwriters' over-allotment option is not exercised in full or in part. The founder shares (including the Class A common stock issuable upon exercise thereof) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holder.

Our sponsor and the anchor investors have committed, pursuant to written agreements, to purchase an aggregate of 5,250,000 (or 5,700,000 if the over-allotment option is exercised in full) private placement warrants for a purchase price of \$1.00 per warrant in a private placement that will occur simultaneously with the closing of this offering. Among the private placement warrants, 3,850,000 private placement warrants (or 4,180,000 private placement warrants if the underwriters' over-allotment option is exercised in full) will be purchased by our sponsor, and an aggregate of 1,400,000 private placement warrants (or 1,520,000 private placement warrants if the underwriters' over-allotment option is exercised in full) will be purchased by the anchor investors. As such, our sponsor's interest in this transaction is valued at an aggregate of between \$3,850,000 and \$4,180,000, depending on the number of private placement warrants purchased. The private placement warrants are identical to the warrants sold as part of the units in this offering, subject to limited exceptions. The private placement warrants (including the Class A common stock issuable upon exercise thereof) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holder.

As more fully discussed in the section of this prospectus entitled "Management — Conflicts of Interest," if any of our officers or directors becomes aware of an initial business combination opportunity that falls within the line of business of any entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity. Our officers and directors currently have certain relevant fiduciary duties or contractual obligations that may take priority over their duties to us.

Commencing on the date of this prospectus, we have agreed to pay an affiliate of our sponsor a total of \$15,000 per month for office space, utilities and secretarial and administrative support. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

Other than the foregoing, no compensation of any kind, including any finder's fee, reimbursement, consulting fee or monies in respect of any payment of a loan, will be paid by us to our sponsor, officers and directors, or any affiliate of our sponsor or officers, prior to, or in connection with any services rendered in order to effectuate, the consummation of an initial business combination (regardless of the type of transaction that it is). However, these individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers, directors or our or their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

The anchor investors have expressed to us an interest to purchase an aggregate of \$40,000,000 of units in this offering (or \$46,000,000 of units if the underwriters' over-allotment option is exercised in full), and we have agreed to direct the underwriters to sell to the anchor investors such number of units. Further, the anchor investors have entered into separate agreements with us, the combined effect of which is that, if the anchor investors, collectively, do not own 4,000,000 public shares; which amount will be reduced on a pro rata basis if less than 15,000,000 units are sold in this offering), on the date of any stockholder vote with respect to an initial business combination or the business day immediately prior to the consummation of our initial business combination, certain or all of the anchor investors will be required to transfer to our sponsor a pro rata portion of the founder shares they purchased prior to this offering; provided, however, that such transfers of founder shares to our sponsor shall not result in the remaining number of

founder shares collectively held by the anchor investors being less than 200,000 founder shares (or less than 230,000 founder shares if the underwriters' over-allotment option is exercised in full). In addition, each anchor investor will be subject to any forfeiture of their founder shares on the same terms as the founder shares held by our sponsor may be forfeited in connection with our business combination, provided such forfeiture shall not reduce the number of founder shares held by such anchor investor below 25% of the founder shares purchased by such anchor investor prior to this offering.

There can be no assurance that the anchor investors will acquire any units in this offering, or as to the amount of equity the anchor investors will retain, if any, upon the consummation of our initial business combination. In the event that the anchor investors purchase such units (either in this offering or after) and vote them in favor of our initial business combination, it is possible that no votes from other public stockholders would be required to approve our initial business combination, depending on the number of shares that are present at the meeting to approve such transaction. As a result of the founder shares and private placement warrants that the anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders.

In February 2020, our sponsor agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering pursuant to a promissory note. As of June 30, 2020, we had borrowed approximately \$25,000 under the promissory note, including approximately \$3,000 of costs paid directly by our sponsor. The note is non-interest bearing, unsecured and payable promptly after the earlier of the date on which the Company consummates this offering and the date on which the Company determines not to conduct this offering.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete an initial business combination, we would repay such loaned amounts. In the event that the initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$100,000 of such loans may be convertible into warrants at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

After our initial business combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to our stockholders, to the extent then known, in the tender offer or proxy solicitation materials, as applicable, furnished to our stockholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a stockholder meeting held to consider our initial business combination, as applicable, as it will be up to the directors of the post-combination business to determine executive and director compensation.

We will enter into a registration rights agreement with respect to the private placement warrants, the warrants issuable upon conversion of working capital loans (if any) and the shares of Class A common stock issuable upon exercise of the foregoing and upon conversion of the founder shares, which is described under the section of this prospectus entitled "Description of Securities — Registration Rights."

#### **Related Party Policy**

We have not yet adopted a formal policy for the review, approval or ratification of related party transactions. Accordingly, the transactions discussed above were not reviewed, approved or ratified in accordance with any such policy.

Prior to the consummation of this offering, we will adopt a code of ethics requiring us to avoid, wherever possible, all conflicts of interests, except under guidelines or resolutions approved by our board of directors (or the appropriate committee of our board) or as disclosed in our public filings with the SEC. Under our code of ethics, conflict of interest situations will include any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) involving the company. A form of the code of ethics that we plan to adopt prior to the consummation of this offering is filed as an exhibit to the registration statement of which this prospectus is a part.

In addition, our audit committee, pursuant to a written charter that we will adopt prior to the consummation of this offering, will be responsible for reviewing and approving related party transactions to the extent that we enter into such transactions. An affirmative vote of a majority of the members of the audit committee present at a meeting at which a quorum is present will be required in order to approve a related party transaction. A majority of the members of the entire audit committee will constitute a quorum. Without a meeting, the unanimous written consent of all of the members of the audit committee will be required to approve a related party transaction. A form of the audit committee charter that we plan to adopt prior to the consummation of this offering is filed as an exhibit to the registration statement of which this prospectus is a part. We also require each of our directors and executive officers to complete a directors' and officers' questionnaire that elicits information about related party transactions.

These procedures are intended to determine whether any such related party transaction impairs the independence of a director or presents a conflict of interest on the part of a director, employee or officer.

To further minimize conflicts of interest, we have agreed not to consummate an initial business combination with an entity that is affiliated with any of our sponsor, officers or directors unless we, or a committee of independent directors, have obtained an opinion from independent investment banking firm that is a member of FINRA or from an independent accounting firm that our initial business combination is fair to our company from a financial point of view. Furthermore, no finder's fees, reimbursements, consulting fee, monies in respect of any payment of a loan or other compensation will be paid by us to our sponsor, officers or directors, or any affiliate of our sponsor or officers, for services rendered to us prior to, or in connection with any services rendered in order to effectuate, the consummation of our initial business combination (regardless of the type of transaction that it is). However, the following payments will be made to our sponsor, officers or directors, or our or their affiliates, none of which will be made from the proceeds of this offering held in the trust account prior to the completion of our initial business combination:

- Repayment of up to an aggregate of \$300,000 in loans made to us by our sponsor to cover offering related and organizational expenses;
- Payment to an affiliate of our sponsor of \$15,000 per month, for up to 24 months, for office space, utilities and secretarial and administrative support;
- Reimbursement for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination; and
- Repayment of loans which may be made by our sponsor or an affiliate of our sponsor or certain of our officers and directors to finance transaction costs in connection with an intended initial business combination, the terms of which have not been determined nor have any written agreements been executed with respect thereto. Up to \$100,000 of such loans may be convertible into warrants, at a price of \$1.00 per warrant at the option of the lender.

Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or their affiliates.

## DESCRIPTION OF SECURITIES

Pursuant to our amended and restated certificate of incorporation, our authorized capital stock consists of 45,000,000 shares of Class A common stock, \$0.0001 par value, 5,000,000 shares of Class B common stock, \$0.0001 par value, and 1,000,000 shares of undesignated preferred stock, \$0.0001 par value. The following description summarizes the material terms of our capital stock. Because it is only a summary, it may not contain all the information that is important to you.

### Units

Each unit has an offering price of \$10.00 and consists of one whole share of Class A common stock and one-half of one redeemable warrant. Each whole warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as described in this prospectus. Pursuant to the warrant agreement, no fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase a multiple of two units, the number of warrants issuable to you upon separation of the units will be rounded down to the nearest whole number of warrants. We expect the Class A common stock and warrants comprising the units will begin separate trading on the 52<sup>nd</sup> day following the date of this prospectus unless Stifel, Nicolaus & Company, Incorporated, informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the shares of Class A common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into shares of Class A common stock and warrants.

In no event will the Class A common stock and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet reflecting our receipt of the net proceeds at the closing of this offering. We will file a Current Report on Form 8-K which includes this audited balance sheet upon the completion of this offering, which is anticipated to take place three business days after the date of this prospectus. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

### Common Stock

Upon the closing of this offering, 18,750,000 shares of our common stock will be outstanding (assuming no exercise of the underwriters' over-allotment option and the corresponding forfeiture of an aggregate of 562,500 founder shares by our sponsor and the anchor investors), consisting of:

- 15,000,000 shares of our Class A common stock underlying the units being offered in this offering; and
- 3,750,000 shares of Class B common stock held by our initial stockholders.

If we increase or decrease the size of the offering we will effect a stock dividend or a share contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of the offering in such amount as to maintain the ownership of our initial stockholders at 20.0% of the issued and outstanding shares of our common stock upon the consummation of this offering.

Common stockholders of record are entitled to one vote for each share held on all matters to be voted on by stockholders. Holders of the Class A common stock and holders of the Class B common stock will vote together as a single class on all matters submitted to a vote of our stockholders, except as required by law. Unless specified in our amended and restated certificate of incorporation or bylaws, or as required by applicable provisions of the DGCL or applicable stock exchange rules, the affirmative vote of a majority of our shares of common stock that are voted is required to approve any such matter voted on by our stockholders. Our board of directors will be divided into three classes, each of which will generally serve for a term of three years with only one class of directors being elected in each year. There is no cumulative voting with respect to the election of directors, with the result that the holders of more than 50% of the shares voted for the election of directors can elect all of the directors. Our stockholders are entitled to receive ratable dividends when, as and if declared by the board of directors out of funds legally available therefor.

Because our amended and restated certificate of incorporation authorizes the issuance of up to 45,000,000 shares of Class A common stock, if we were to enter into an initial business combination, we may (depending on the terms of such an initial business combination) be required to increase the number of shares of Class A common stock which we are authorized to issue at the same time as our stockholders vote on the initial business combination to the extent we seek stockholder approval in connection with our initial business combination.

In accordance with Nasdaq corporate governance requirements, we are not required to hold an annual meeting until no later than one year after our first fiscal year end following our listing on Nasdaq. Under Section 211(b) of the DGCL, we are, however, required to hold an annual meeting of stockholders for the purposes of electing directors in accordance with our bylaws, unless such election is made by written consent in lieu of such a meeting. We may not hold an annual meeting of stockholders to elect new directors prior to the consummation of our initial business combination, and thus we may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting. Therefore, if our stockholders want us to hold an annual meeting prior to the consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL.

We will provide our stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements, divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be approximately \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our initial business combination. Unlike many blank check companies that hold stockholder votes and conduct proxy solicitations in conjunction with their initial business combinations and provide for related redemptions of public shares for cash upon completion of such initial business combinations even when a vote is not required by law, if a stockholder vote is not required by law and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC, and file tender offer documents with the SEC prior to completing our initial business combination. Our amended and restated certificate of incorporation will require these tender offer documents to contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, a stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the initial business combination. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting.

However, the participation of our sponsor, officers, directors, advisors or their affiliates in privately-negotiated transactions (as described in this prospectus), if any, could result in the approval of our initial business combination even if a majority of our public stockholders vote, or indicate their intention to vote, against such business combination. For purposes of seeking approval of the majority of our outstanding shares of common stock voted, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. We intend to give approximately 30 days (but not less than 10 days nor more than 60 days) prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination. These quorum and voting thresholds, and the voting agreements of our sponsor, officers, directors, special advisor and such employee may make it more likely that we will consummate our initial business combination.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder

or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares of common stock sold in this offering, which we refer to as the Excess Shares. However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Our stockholders’ inability to redeem the Excess Shares will reduce their influence over our ability to complete our initial business combination, and such stockholders could suffer a material loss in their investment if they sell such Excess Shares on the open market. Additionally, such stockholders will not receive redemption distributions with respect to the Excess Shares if we complete the initial business combination. And, as a result, such stockholders will continue to hold that number of shares exceeding 15% and, in order to dispose such shares would be required to sell their stock in open market transactions, potentially at a loss.

If we seek stockholder approval in connection with our initial business combination, pursuant to the letter agreement our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed to vote their founder shares and any public shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination. As a result, in addition to the founder shares held by our sponsor, officers, directors and special advisor and that employee, we would need only 1,737,501, or approximately 11.6%, of the 15,000,000 public shares sold in this offering to be voted in favor of an initial business combination (assuming only a quorum is present at the meeting) in order to have our initial business combination approved (assuming the over-allotment option is not exercised). Additionally, each public stockholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction (subject to the limitation described in the preceding paragraph).

Pursuant to our amended and restated certificate of incorporation, if we are unable to complete our initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter subject to lawfully available funds therefor, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Our initial stockholders have agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within 24 months from the closing of this offering. However, if our initial stockholders acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the prescribed time period.

In the event of a liquidation, dissolution or winding up of the company after an initial business combination, our stockholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of stock, if any, having preference over the common stock. Our stockholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the common stock, except that we will provide our stockholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account, upon the completion of our initial business combination, subject to the limitations described herein.

#### **Founder Shares**

The founder shares are identical to the shares of Class A common stock included in the units being sold in this offering, and holders of founder shares have the same stockholder rights as public stockholders, except that (i) the founder shares are subject to certain transfer restrictions, as described in more detail below, (ii) our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have entered into a letter agreement with us, pursuant to which they have agreed (A) to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our initial business combination, (B) to waive their redemption rights with respect to their founder shares and public shares in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation (x) to modify

the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (y) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity and (C) to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within 24 months from the closing of this offering, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within such time period, (iii) the anchor investors have agreed to waive their right to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within the prescribed time frame, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame; (iv) the founder shares are shares of our Class B common stock that will automatically convert into shares of our Class A common stock at the time of our initial business combination on a one-for-one basis, subject to adjustment as described herein, and (iv) are entitled to registration rights. If we submit our initial business combination to our public stockholders for a vote, our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed pursuant to the letter agreement to vote any founder shares held by them and any public shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination. Permitted transferees of the founder shares held by our sponsor, officers, directors, special advisor or such employee or the anchor investors would be subject to the same restrictions applicable to our sponsor, officers, directors, special advisor or such employee or the anchor investors, respectively.

The shares of Class B common stock will automatically convert into shares of Class A common stock at the time of our initial business combination on a one-for-one basis (subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like), and subject to further adjustment as provided herein. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts offered in this prospectus and related to the closing of the initial business combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon completion of this offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the initial business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial business combination and any private placement-equivalent warrants issued to our sponsor or its affiliates upon conversion of loans made to us). We cannot determine at this time whether a majority of the holders of our Class B common stock at the time of any future issuance would agree to waive such adjustment to the conversion ratio. They may waive such adjustment due to (but not limited to) the following: (i) closing conditions which are part of the agreement for our initial business combination; (ii) negotiation with Class A stockholders on structuring an initial business combination; or (iii) negotiation with parties providing financing which would trigger the anti-dilution provisions of the Class B common stock. If such adjustment is not waived, the issuance would not reduce the percentage ownership of holders of our Class B common stock, but would reduce the percentage ownership of holders of our Class A common stock. If such adjustment is waived, the issuance would reduce the percentage ownership of holders of both classes of our common stock. Holders of founder shares may also elect to convert their shares of Class B common stock into an equal number of shares of Class A common stock, subject to adjustment as provided above, at any time. The term "equity-linked securities" refers to any debt or equity securities that are convertible, exercisable or exchangeable for shares of Class A common stock issues in a financing transaction in connection with our initial business combination, including but not limited to a private placement of equity or debt. Securities could be "deemed issued" for purposes of the conversion rate adjustment if such shares are issuable upon the conversion or exercise of convertible securities, warrants or similar securities.

With certain limited exceptions, the founder shares are not transferable, assignable or salable (except to our officers and directors and other persons or entities affiliated with or related to our sponsor or the anchor investors, each of whom will be subject to the same transfer restrictions) until the earlier of (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (X) if the last reported sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends,

reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property.

### **Preferred Stock**

Our amended and restated certificate of incorporation will provide that shares of preferred stock may be issued from time to time in one or more series. Our board of directors will be authorized to fix the voting rights, if any, designations, powers, preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions thereof, applicable to the shares of each series. Our board of directors will be able to, without stockholder approval, issue preferred stock with voting and other rights that could adversely affect the voting power and other rights of the holders of the common stock and could have anti-takeover effects. The ability of our board of directors to issue preferred stock without stockholder approval could have the effect of delaying, deferring or preventing a change of control of us or the removal of existing management. We have no preferred stock outstanding at the date hereof. Although we do not currently intend to issue any shares of preferred stock, we cannot assure you that we will not do so in the future. No shares of preferred stock are being issued or registered in this offering.

### **Redeemable Warrants**

#### ***Public Stockholders' Warrants***

Each whole warrant entitles the registered holder to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as discussed below, at any time commencing on the later of 12 months from the closing of this offering or 30 days after the completion of our initial business combination. The warrants will expire five years after the completion of our initial business combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless a holder purchases a multiple of two units, the number of warrants issuable to such holder upon separation of the units will be rounded down to the nearest whole number of warrants.

We will not be obligated to deliver any shares of Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the shares of Class A common stock underlying the warrants is then effective and a prospectus relating thereto is current, subject to our satisfying our obligations described below with respect to registration. No warrant will be exercisable and we will not be obligated to issue shares of Class A common stock upon exercise of a warrant unless Class A common stock issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a warrant, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In no event will we be required to net cash settle any warrant. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the share of Class A common stock underlying such unit.

We are not registering the shares of Class A common stock issuable upon exercise of the warrants at this time. However, we have agreed that as soon as practicable, but in no event later than 15 business days after the closing of our initial business combination, we will use our best efforts to file with the SEC a registration statement for the registration under the Securities Act of the shares of Class A common stock issuable upon exercise of the warrants and thereafter will use our best efforts to cause the same to become effective within 60 business days following our initial business combination and to maintain a current prospectus relating to the Class A common stock issuable upon exercise of the warrants, until the expiration of the warrants in accordance with the provisions of the warrant agreement. If a registration statement covering the shares of Class A common stock issuable upon exercise of the warrants is not effective by the 60<sup>th</sup> business day after the closing of our initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we will have failed to maintain an effective registration statement, exercise warrants on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act or another exemption. If that exemption, or another exemption, is not available, holders will not be able to exercise their warrants on a cashless basis.

Once the warrants become exercisable, we may call the warrants for redemption:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days' prior written notice of redemption (the "30-day redemption period") to each warrant holder; and
- if, and only if, the last reported sale price of the Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders.

If and when the warrants become redeemable by us, we may not exercise our redemption right if the issuance of shares of common stock upon exercise of the warrants is not exempt from registration or qualification under applicable state blue sky laws and we are unable to effect such registration or qualification. We will use our best efforts to register or qualify such shares of common stock under the blue sky laws of the state of residence in those states in which the warrants were offered by us in this offering.

We have established the last of the redemption criteria discussed above to prevent a redemption call unless there is at the time of the call a significant premium to the warrant exercise price. If the foregoing conditions are satisfied and we issue a notice of redemption of the warrants, each warrant holder will be entitled to exercise its warrant prior to the scheduled redemption date. However, the price of the Class A common stock may fall below the \$18.00 redemption trigger price (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) as well as the \$11.50 warrant exercise price after the redemption notice is issued.

If we call the warrants for redemption as described above, our management will have the option to require any holder that wishes to exercise its warrant to do so on a "cashless basis." In determining whether to require all holders to exercise their warrants on a "cashless basis," our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our stockholders of issuing the maximum number of shares of Class A common stock issuable upon the exercise of our warrants. If our management takes advantage of this option, all holders of warrants would pay the exercise price by surrendering their warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the "fair market value" (defined below) by (y) the fair market value. The "fair market value" shall mean the average last reported sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. If our management takes advantage of this option, the notice of redemption will contain the information necessary to calculate the number of shares of Class A common stock to be received upon exercise of the warrants, including the "fair market value" in such case. Requiring a cashless exercise in this manner will reduce the number of shares to be issued and thereby lessen the dilutive effect of a warrant redemption. We believe this feature is an attractive option to us if we do not need the cash from the exercise of the warrants after our initial business combination. If we call our warrants for redemption and our management does not take advantage of this option, our sponsor, the anchor investors and their permitted transferees would still be entitled to exercise their private placement warrants for cash or on a cashless basis using the same formula described above that other warrant holders would have been required to use had all warrant holders been required to exercise their warrants on a cashless basis, as described in more detail below.

A holder of a warrant may notify us in writing in the event it elects to be subject to a requirement that such holder will not have the right to exercise such warrant, to the extent that after giving effect to such exercise, such person (together with such person's affiliates), to the warrant agent's actual knowledge, would beneficially own in excess of 4.99% or 9.99% (or such other amount as a holder may specify) of the shares of Class A common stock outstanding immediately after giving effect to such exercise.

If the number of outstanding shares of Class A common stock is increased by a stock dividend payable in shares of Class A common stock, or by a split-up of shares of Class A common stock or other similar event, then, on the effective date of such stock dividend, split-up or similar event, the number of shares of Class A common stock issuable on exercise of each warrant will be increased in proportion to such increase in the outstanding shares of

Class A common stock. A rights offering to holders of Class A common stock entitling holders to purchase shares of Class A common stock at a price less than the fair market value will be deemed a stock dividend of a number of shares of Class A common stock equal to the product of (i) the number of shares of Class A common stock actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for Class A common stock) and (ii) one (1) minus the quotient of (x) the price per share of Class A common stock paid in such rights offering divided by (y) the fair market value. For these purposes (i) if the rights offering is for securities convertible into or exercisable for Class A common stock, in determining the price payable for Class A common stock, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (ii) fair market value means the volume weighted average price of Class A common stock as reported during the ten (10) trading day period ending on the trading day prior to the first date on which the shares of Class A common stock trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

In addition, if we, at any time while the warrants are outstanding and unexpired, pay a dividend or make a distribution in cash, securities or other assets to the holders of Class A common stock on account of such shares of Class A common stock (or other shares of our capital stock into which the warrants are convertible), other than (a) as described above, (b) certain ordinary cash dividends, (c) to satisfy the redemption rights of the holders of Class A common stock in connection with a proposed initial business combination, (d) to satisfy the redemption rights of the holders of Class A common stock in connection with a stockholder vote to amend our amended and restated certificate of incorporation (i) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, or (e) in connection with the redemption of our public shares upon our failure to complete our initial business combination, then the warrant exercise price will be decreased, effective immediately after the effective date of such event, by the amount of cash and/or the fair market value of any securities or other assets paid on each share of Class A common stock in respect of such event.

If the number of outstanding shares of our Class A common stock is decreased by a consolidation, combination, reverse stock split or reclassification of shares of Class A common stock or other similar event, then, on the effective date of such consolidation, combination, reverse stock split, reclassification or similar event, the number of shares of Class A common stock issuable on exercise of each warrant will be decreased in proportion to such decrease in outstanding shares of Class A common stock.

Whenever the number of shares of Class A common stock purchasable upon the exercise of the warrants is adjusted, as described above, the warrant exercise price will be adjusted by multiplying the warrant exercise price immediately prior to such adjustment by a fraction (x) the numerator of which will be the number of shares of Class A common stock purchasable upon the exercise of the warrants immediately prior to such adjustment, and (y) the denominator of which will be the number of shares of Class A common stock so purchasable immediately thereafter.

In case of any reclassification or reorganization of the outstanding shares of Class A common stock (other than those described above or that solely affects the par value of such shares of Class A common stock), or in the case of any merger or consolidation of us with or into another corporation (other than a consolidation or merger in which we are the continuing corporation and that does not result in any reclassification or reorganization of our outstanding shares of Class A common stock), or in the case of any sale or conveyance to another corporation or entity of the assets or other property of us as an entirety or substantially as an entirety in connection with which we are dissolved, the holders of the warrants will thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the warrants and in lieu of the shares of our Class A common stock immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of shares of stock or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the warrants would have received if such holder had exercised their warrants immediately prior to such event. If less than 70% of the consideration receivable by the holders of Class A common stock in such a transaction is payable in the form of common stock in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the registered holder of the warrant properly exercises the warrant within thirty days following public disclosure of the consummation of such applicable event, the warrant exercise price will be reduced as specified in the warrant

agreement based on the Black-Scholes value (as defined in the warrant agreement) of the warrant. The purpose of such exercise price reduction is to provide additional value to holders of the warrants when an extraordinary transaction occurs during the exercise period of the warrants pursuant to which the holders of the warrants otherwise do not receive the full potential value of the warrants in order to determine and realize the option value component of the warrant. This formula is to compensate the warrant holder for the loss of the option value portion of the warrant due to the requirement that the warrant holder exercise the warrant within 30 days of the event. The Black-Scholes model is an accepted pricing model for estimating fair market value where no quoted market price for an instrument is available.

The warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. You should review a copy of the warrant agreement, which will be filed as an exhibit to the registration statement of which this prospectus is a part, for a complete description of the terms and conditions applicable to the warrants. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least a majority of the then outstanding warrants to make any change that adversely affects the interests of the registered holders of public warrants.

In addition, if we issue additional shares of common stock or equitylinked securities for capital raising purposes in connection with the closing of our initial business combination at a newly issued price of less than \$9.20 per share of common stock (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our initial stockholders or their affiliates, without taking into account any founder shares or private placement securities held by them, as applicable, prior to such issuance), the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the newly issued price.

The warrants may be exercised upon surrender of the warrant certificate on or prior to the expiration date at the offices of the warrant agent, with the exercise form on the reverse side of the warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price (or on a cashless basis, if applicable), by certified or official bank check payable to us, for the number of warrants being exercised. The warrant holders do not have the rights or privileges of holders of Class A common stock and any voting rights until they exercise their warrants and receive shares of Class A common stock. After the issuance of shares of Class A common stock upon exercise of the warrants, each holder will be entitled to one (1) vote for each share held of record on all matters to be voted on by stockholders.

No fractional shares will be issued upon exercise of the warrants. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number the number of shares of Class A common stock to be issued to the warrant holder.

#### ***Private Placement Warrants***

The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except, among other limited exceptions as described under the section of this prospectus entitled “Principal Stockholders — Restrictions on Transfers of Founder Shares and Private Placement Warrants,” to our officers and directors and other persons or entities affiliated with or related to our sponsor or the anchor investors, each of whom will be subject to the same transfer restrictions) and they will not be redeemable by us so long as they are held by our sponsor, the anchor investors or their permitted transferees. Our sponsor, or its permitted transferees, has the option to exercise the private placement warrants on a cashless basis. Except as described below, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering, including as to exercise price, exercisability and exercise period. If the private placement warrants are held by holders other than our sponsor, the anchor investors or their permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering.

If holders of the private placement warrants elect to exercise them on a cashless basis, they would pay the exercise price by surrendering their warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the “fair market value” (defined below) by (y) the fair market value. The “fair market value” shall mean the average last reported sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of

warrant exercise is sent to the warrant agent. The reason that we have agreed that these warrants will be exercisable on a cashless basis so long as they are held by our sponsor, the anchor investors or their permitted transferees is because it is not known at this time whether they will be affiliated with us following an initial business combination. If they are affiliated with us following an initial business combination, their ability to sell our securities in the open market will be significantly limited. We expect to have policies in place that prohibit insiders from selling our securities except during specific periods of time. Even during such periods of time when insiders will be permitted to sell our securities, an insider cannot trade in our securities if he or she is in possession of material non-public information. Accordingly, unlike public stockholders who could sell the shares of Class A common stock issuable upon exercise of the warrants freely in the open market, the insiders could be significantly restricted from doing so. As a result, we believe that allowing the holders to exercise such warrants on a cashless basis is appropriate.

In order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. Up to \$100,000 of such loans may be convertible into warrants at a price of \$1.00 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such working capital loans by our sponsor or its affiliates, or our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. Our sponsor and the anchor investors have agreed not to transfer, assign, or sell any of the private placement warrants (including the Class A common stock issuable upon exercise of any of these warrants) until the date that is 30 days after the date we complete our initial business combination, except that, among other limited exceptions as described under the section of this prospectus titled “Principal Stockholders — Restrictions on Transfers of Founder Shares and Private Placement Warrants” made to our officers and directors and other persons or entities affiliated with or related to our sponsor or the anchor investors, each of which will be subject to the same transfer restrictions.

#### **Dividends**

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of an initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial conditions subsequent to completion of an initial business combination. The payment of any cash dividends subsequent to an initial business combination will be within the discretion of our board of directors at such time. If we increase or decrease the size of the offering we will effect a stock dividend or a share contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of the offering in such amount as to maintain the ownership of our initial stockholders at 20.0% of the issued and outstanding shares of our common stock upon the consummation of this offering. Further, if we incur any indebtedness, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

#### **Our Transfer Agent and Warrant Agent**

The transfer agent for our common stock and warrant agent for our warrants is Continental Stock Transfer & Trust Company. We have agreed to indemnify Continental Stock Transfer & Trust Company in its roles as transfer agent and warrant agent, its agents and each of its stockholders, directors, officers and employees against all claims and losses that may arise out of acts performed or omitted for its activities in that capacity, except for any liability due to any gross negligence, wilful misconduct or bad faith of the indemnified person or entity.

#### **Our Amended and Restated Certificate of Incorporation**

Our amended and restated certificate of incorporation will contain certain requirements and restrictions relating to this offering that will apply to us until the completion of our initial business combination. These provisions cannot be amended without the approval of the holders of 65% of our common stock. Our initial stockholders, who will collectively beneficially own 20% of our common stock upon the closing of this offering (assuming they do not purchase any units in this offering), will participate in any vote to amend our amended and restated certificate of incorporation and will have the discretion to vote in any manner they choose. Specifically, our amended and restated certificate of incorporation provides, among other things, that:

- If we are unable to complete our initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter subject to lawfully available funds

therefor, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our taxes or to fund our working capital requirements (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law;

- Prior to our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on any initial business combination;
- Although we do not intend to enter into an initial business combination with a target business that is affiliated with our sponsor, our directors or our officers, we are not prohibited from doing so. In the event we enter into such a transaction, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm that is a member of FINRA or an independent accounting firm that such an initial business combination is fair to our company from a financial point of view;
- If a stockholder vote on our initial business combination is not required by law and we do not decide to hold a stockholder vote for business or other legal reasons, we will offer to redeem our public shares pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, and will file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act; whether or not we maintain our registration under the our Exchange Act or our listing on Nasdaq, we will provide our public stockholders with the opportunity to redeem their public shares by one of the two methods listed above;
- If our stockholders approve an amendment to our amended and restated certificate of incorporation (i) to modify the substance or timing of the ability of holders of our public shares to seek redemption in connection with our initial business combination or our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provision relating to stockholders' rights or pre-business combination activity, we will provide our public stockholders with the opportunity to redeem all or a portion of their shares of Class A common stock upon such approval at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes and/or to fund our working capital requirements, divided by the number of then outstanding public shares; and
- We will not effectuate our initial business combination with another blank check company or a similar company with nominal operations.

In addition, our amended and restated certificate of incorporation will provide that under no circumstances will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters' fees and commissions.

#### **Certain Anti-Takeover Provisions of Delaware Law and our Amended and Restated Certificate of Incorporation and Bylaws**

We will be subject to the provisions of Section 203 of the DGCL regulating corporate takeovers upon completion of this offering. This statute prevents certain Delaware corporations, under certain circumstances, from engaging in a "business combination" with:

- a stockholder who owns 15% or more of our outstanding voting stock (otherwise known as an "interested stockholder");
- an affiliate of an interested stockholder; or

- an associate of an interested stockholder, for three years following the date that the stockholder became an interested stockholder.

A “business combination” includes a merger or sale of more than 10% of our assets. However, the above provisions of Section 203 do not apply if:

- our board of directors approves the transaction that made the stockholder an “interested stockholder,” prior to the date of the transaction;
- after the completion of the transaction that resulted in the stockholder becoming an interested stockholder, that stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, other than statutorily excluded shares of common stock; or
- on or subsequent to the date of the transaction, the initial business combination is approved by our board of directors and authorized at a meeting of our stockholders, and not by written consent, by an affirmative vote of at least two-thirds of the outstanding voting stock not owned by the interested stockholder.

Our amended and restated certificate of incorporation will provide that our board of directors will be classified into three classes of directors. As a result, in most circumstances, a person can gain control of our board only by successfully engaging in a proxy contest at two or more annual meetings.

Our authorized but unissued common stock and preferred stock are available for future issuances without stockholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

***Exclusive forum for certain lawsuits***

Our amended and restated certificate of incorporation will require, to the fullest extent permitted by law, that derivative actions brought in our name, actions against directors, officers and employees for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware, except any action (A) as to which the Court of Chancery in the State of Delaware determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), (B) which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, (C) for which the Court of Chancery does not have subject matter jurisdiction, or (D) any action arising under the Securities Act, as to which the Court of Chancery and the federal district court for the District of Delaware shall have concurrent jurisdiction. If an action is brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder’s counsel. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, a court may determine that this provision is unenforceable, and to the extent it is enforceable, the provision may have the effect of discouraging lawsuits against our directors and officers, although our stockholders will not be deemed to have waived our compliance with federal securities laws and the rules and regulations thereunder.

Our amended and restated certificate of incorporation will provide that the exclusive forum provision will be applicable to the fullest extent permitted by applicable law. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. As a result, the exclusive forum provision will not apply to suits brought to enforce any duty or liability created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction.

***Special meeting of stockholders***

Our bylaws provide that special meetings of our stockholders may be called only by a majority vote of our board of directors, by our Chief Executive Officer or by our Chairman.

### ***Advance notice requirements for stockholder proposals and director nominations***

Our bylaws provide that stockholders seeking to bring business before our annual meeting of stockholders, or to nominate candidates for election as directors at our annual meeting of stockholders, must provide timely notice of their intent in writing. To be timely, a stockholder's notice will need to be received by the company secretary at our principal executive offices not later than the close of business on the 90<sup>th</sup> day nor earlier than the opening of business on the 120<sup>th</sup> day prior to the anniversary date of the immediately preceding annual meeting of stockholders. Pursuant to Rule 14a-8 of the Exchange Act, proposals seeking inclusion in our annual proxy statement must comply with the notice periods contained therein. Our bylaws also specify certain requirements as to the form and content of a stockholders' meeting. These provisions may preclude our stockholders from bringing matters before our annual meeting of stockholders or from making nominations for directors at our annual meeting of stockholders.

### ***Action by written consent***

Subsequent to the consummation of the offering, any action required or permitted to be taken by our common stockholders must be effected by a duly called annual or special meeting of such stockholders and may not be effected by written consent of the stockholders other than with respect to our Class B common stock.

### ***Classified Board of Directors***

Our board of directors will initially be divided into three classes, Class I, Class II and Class III, with members of each class serving staggered three-year terms. Our amended and restated certificate of incorporation will provide that the authorized number of directors may be changed only by resolution of the board of directors. Subject to the terms of any preferred stock, any or all of the directors may be removed from office at any time, but only for cause and only by the affirmative vote of holders of a majority of the voting power of all then outstanding shares of our capital stock entitled to vote generally in the election of directors, voting together as a single class. Any vacancy on our board of directors, including a vacancy resulting from an enlargement of our board of directors, may be filled only by vote of a majority of our directors then in office.

### ***Class B Common Stock Consent Right***

For so long as any shares of Class B common stock remain outstanding, we may not, without the prior vote or written consent of the holders of a majority of the shares of Class B common stock then outstanding, voting separately as a single class, amend, alter or repeal any provision of our certificate of incorporation, whether by merger, consolidation or otherwise, if such amendment, alteration or repeal would alter or change the powers, preferences or relative, participating, optional or other or special rights of the Class B common stock. Any action required or permitted to be taken at any meeting of the holders of Class B common stock may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, shall be signed by the holders of the outstanding Class B common stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares of Class B common stock were present and voted.

### ***Securities Eligible for Future Sale***

Immediately after the consummation of this offering (assuming no exercise of the underwriters' over-allotment option) we will have 18,750,000 (or 21,562,500 if the underwriters' over-allotment option is exercised in full) shares of common stock outstanding. Of these shares, the 15,000,000 shares (or 17,250,000 if the underwriters' over-allotment option is exercised in full) sold in this offering will be freely tradable without restriction or further registration under the Securities Act, except for any shares purchased by one of our affiliates within the meaning of Rule 144 under the Securities Act. All of the remaining 3,750,000 (or 4,312,500 if the underwriters' over-allotment option is exercised in full) shares and all 5,250,000 (or 5,700,000 if the underwriters' over-allotment option is exercised in full) private placement warrants are restricted securities under Rule 144, in that they were issued in private transactions not involving a public offering, and the shares of Class B common stock and private placement warrants are subject to transfer restrictions as set forth elsewhere in this prospectus. These restricted securities will be entitled to registration rights as more fully described below under "— Registration Rights."

#### **Rule 144**

Pursuant to Rule 144, a person who has beneficially owned restricted shares of our common stock or warrants for at least six months would be entitled to sell their securities provided that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale and (ii) we are subject to the Exchange Act periodic reporting requirements for at least three months before the sale and have filed all required reports under Section 13 or 15(d) of the Exchange Act during the 12 months (or such shorter period as we were required to file reports) preceding the sale.

Persons who have beneficially owned restricted shares of our common stock or warrants for at least six months but who are our affiliates at the time of, or at any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of:

- 1% of the total number of shares of Class A common stock then outstanding, which will equal 187,500 shares immediately after this offering (or 215,625 if the underwriters exercise their over-allotment option in full); or
- the average weekly reported trading volume of the Class A common stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales by our affiliates under Rule 144 are also limited by manner of sale provisions and notice requirements and to the availability of current public information about us.

#### **Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies**

Rule 144 is not available for the resale of securities initially issued by shell companies (other than business combination related shell companies) or issuers that have been at any time previously a shell company. However, Rule 144 also includes an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and materials required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Current Reports on Form 8-K; and
- at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

As a result, our initial stockholders will be able to sell their founder shares and private placement warrants, as applicable, pursuant to Rule 144 without registration one year after we have completed our initial business combination.

#### **Registration Rights**

The holders of the founder shares, private placement warrants and warrants that may be issued upon conversion of working capital loans (and any shares of Class A common stock issuable upon the exercise of the private placement warrants and warrants that may be issued upon conversion of working capital loans and upon conversion of the founder shares) will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of this offering, requiring us to register such securities for resale (in the case of the founder shares, only after conversion to our Class A common stock). The holders of the majority of these securities are entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to our completion of our initial business combination and rights to require us to register for resale such securities pursuant to Rule 415 under the Securities Act. We will bear the expenses incurred in connection with the filing of any such registration statements.

**Listing of Securities**

Our units, Class A common stock and warrants have been approved for listing on Nasdaq under the symbols “NHICU,” “NHIC” and “NHICW,” respectively. We expect that our units will begin trading on Nasdaq promptly after the date of this prospectus. Following the date the shares of our Class A common stock and warrants are eligible to trade separately, we anticipate that the shares of our Class A common stock and warrants will be listed separately and as a unit on Nasdaq.

## U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a summary of certain U.S. federal income tax consequences generally applicable to the acquisition, ownership and disposition of our units, shares of Class A common stock and warrants, which we refer to collectively as our securities. Because the components of a unit are separable at the option of the holder, the holder of a unit generally should be treated, for U.S. federal income tax purposes, as the owner of the underlying Class A common stock and one-half of one redeemable warrant components of the unit, as the case may be. As a result, the discussion below with respect to actual holders of Class A common stock and warrants should also apply to holders of units (as the deemed owners of the underlying Class A common stock and warrants that comprise the units). This discussion applies only to securities that are held as capital assets for U.S. federal income tax purposes and is applicable only to holders who purchased units for cash in this offering.

This discussion is a summary only and does not describe all of the tax consequences that may be relevant to you in light of your particular circumstances, including but not limited to the alternative minimum tax, the Medicare tax on certain investment income and the different consequences that may apply if you are subject to special rules that apply to certain types of investors, including but not limited to:

- financial institutions or financial services entities;
- broker-dealers;
- governments or agencies or instrumentalities thereof;
- regulated investment companies;
- real estate investment trusts;
- expatriates or former long-term residents of the United States;
- persons that actually or constructively own five percent or more of our voting shares;
- insurance companies;
- dealers or traders subject to a mark-to-market method of accounting with respect to the securities;
- persons holding the securities as part of a “straddle,” hedge, integrated transaction or similar transaction;
- U.S. holders (as defined below) whose functional currency is not the U.S. dollar;
- partnerships or other pass-through entities for U.S. federal income tax purposes and any beneficial owners of such entities; and
- tax-exempt entities.

If a partnership (including an entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds our securities, the tax treatment of a partner, member or other beneficial owner in such partnership will generally depend upon the status of the partner, member or other beneficial owner, the activities of the partnership and certain determinations made at the partner, member or other beneficial owner level. If you are a partner, member or other beneficial owner of a partnership holding our securities, you are urged to consult your tax advisor regarding the tax consequences of the ownership and disposition of our securities.

This discussion is based on the Internal Revenue Code of 1986, as amended (the “Code”), and administrative pronouncements, judicial decisions and final, temporary and proposed Treasury regulations as of the date hereof, which are subject to change, possibly on a retroactive basis, and changes to any of which subsequent to the date of this prospectus may affect the tax consequences described herein. No ruling from the Internal Revenue Service (the “IRS”) has been or will be sought regarding any tax matter discussed herein. This discussion does not address any aspect of state, local or non-U.S. taxation, or any U.S. federal taxes other than income taxes (such as gift and estate taxes).

You should consult your tax advisor with respect to the application of U.S. federal tax laws to your particular situation, as well as any tax consequences arising under the laws of any state, local or foreign jurisdiction.

## **Personal Holding Company Status**

We could be subject to a second level of U.S. federal income tax on a portion of our income if we are determined to be a personal holding company, or PHC, for U.S. federal income tax purposes. A U.S. corporation generally will be classified as a PHC for U.S. federal income tax purposes in a given taxable year if (i) at any time during the last half of such taxable year, five or fewer individuals (without regard to their citizenship or residency and including as individuals for this purpose certain entities such as certain tax-exempt organizations, pension funds and charitable trusts) own or are deemed to own (pursuant to certain constructive ownership rules) more than 50% of the stock of the corporation by value and (ii) at least 60% of the corporation's adjusted ordinary gross income, as determined for U.S. federal income tax purposes, for such taxable year consists of PHC income (which includes, among other things, dividends, interest, certain royalties, annuities and, under certain circumstances, rents).

Depending on the date and size of our initial business combination, it is possible that at least 60% of our adjusted ordinary gross income may consist of PHC income. In addition, depending on the concentration of our stock in the hands of individuals, including the members of our sponsor and certain tax-exempt organizations, pension funds and charitable trusts, it is possible that more than 50% of our stock may be owned or deemed owned (pursuant to the constructive ownership rules) by such persons during the last half of a taxable year. Thus, no assurance can be given that we will not be a PHC following this offering or in the future. If we are or were to become a PHC in a given taxable year, we would be subject to an additional PHC tax, currently 20%, on our undistributed PHC income, which generally includes our taxable income, subject to certain adjustments.

## **Allocation of Purchase Price and Characterization of a Unit**

No statutory, administrative or judicial authority directly addresses the treatment of a unit or instruments similar to a unit for U.S. federal income tax purposes and, therefore, that treatment is not entirely clear. The acquisition of a unit should be treated for U.S. federal income tax purposes as the acquisition of one share of our Class A common stock and one-half of one warrant to acquire one share of our Class A common stock. For U.S. federal income tax purposes, each holder of a unit must allocate the purchase price paid by such holder for such unit between the one share of Class A common stock and the one warrant based on the relative fair market value of each at the time of issuance. The price allocated to each share of Class A common stock and the one warrant should be the stockholder's tax basis in such share or one warrant, as the case may be. Any disposition of a unit should be treated for U.S. federal income tax purposes as a disposition of the share of Class A common stock and one warrant comprising the unit, and the amount realized on the disposition should be allocated between the Class A common stock and the one warrant based on their respective relative fair market values at the time of disposition. The separation of shares of Class A common stock and warrants comprising units should not be a taxable event for U.S. federal income tax purposes.

The foregoing treatment of the shares of Class A common stock and warrants and a holder's purchase price allocation are not binding on the IRS or the courts. Because there are no authorities that directly address instruments that are similar to the units, no assurance can be given that the IRS or the courts will agree with the characterization described above or the discussion below. Accordingly, each prospective investor is urged to consult its own tax advisors regarding the tax consequences of an investment in a unit (including alternative characterizations of a unit). The balance of this discussion assumes that the characterization of the units described above is respected for U.S. federal income tax purposes.

## **U.S. Holders**

This section applies to you if you are a "U.S. holder." A U.S. holder is a beneficial owner of our units, shares of Class A common stock or warrants who or that is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) organized in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; or

- a trust, if (i) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons (as defined in the Code) have authority to control all substantial decisions of the trust or (ii) it has a valid election in effect under Treasury Regulations to be treated as a United States person.

*Taxation of Distributions.* If we pay distributions in cash or other property to U.S. holders of shares of our Class A common stock, such distributions generally will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Distributions in excess of current and accumulated earnings and profits will constitute a return of capital that will be applied against and reduce (but not below zero) the U.S. holder's adjusted tax basis in our Class A common stock. Any remaining excess will be treated as gain realized on the sale or other disposition of the Class A common stock and will be treated as described under "U.S. Holders — Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants" below.

Dividends we pay to a U.S. holder that is a taxable corporation generally will qualify for the dividends received deduction if the requisite holding period is satisfied. With certain exceptions (including, but not limited to, dividends treated as investment income for purposes of investment interest deduction limitations), and provided certain holding period requirements are met, dividends we pay to a non-corporate U.S. holder generally will constitute "qualified dividends" that will be subject to tax at preferential long-term capital gains rates. It is unclear whether the redemption rights with respect to the Class A common stock described in this prospectus may prevent a U.S. holder from satisfying the applicable holding period requirements with respect to the dividends received deduction or the preferential tax rate on qualified dividend income, as the case may be.

*Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants.* Upon a sale or other taxable disposition of our Class A common stock or warrants which, in general, would include a redemption of Class A common stock or warrants that is treated as a sale of such securities as described below, and including as a result of a dissolution and liquidation in the event we do not consummate an initial business combination within the required time period, a U.S. holder generally will recognize capital gain or loss in an amount equal to the difference between the amount realized and the U.S. holder's adjusted tax basis in the Class A common stock or warrants. Any such capital gain or loss generally will be long-term capital gain or loss if the U.S. holder's holding period for the Class A common stock or warrants so disposed of exceeds one year. It is unclear, however, whether the redemption rights with respect to the Class A common stock described in this prospectus may suspend the running of the applicable holding period for this purpose. Long-term capital gains recognized by non-corporate U.S. holders will be eligible to be taxed at reduced rates. The deductibility of capital losses is subject to limitations.

Generally, the amount of gain or loss recognized by a U.S. holder is an amount equal to the difference between (i) the sum of the amount of cash and the fair market value of any property received in such disposition (or, if the Class A common stock or warrants are held as part of units at the time of the disposition, the portion of the amount realized on such disposition that is allocated to the Class A common stock or the warrants based upon the then fair market values of the Class A common stock and the warrants included in the units) and (ii) the U.S. holder's adjusted tax basis in its Class A common stock or warrants so disposed of. A U.S. holder's adjusted tax basis in its Class A common stock or warrants generally will equal the U.S. holder's acquisition cost (that is, as discussed above, the portion of the purchase price of a unit allocated to a share of Class A common stock or one warrant or, as discussed below, the U.S. holder's initial basis for Class A common stock received upon exercise of warrants) less, in the case of a share of Class A common stock, any prior distributions treated as a return of capital.

*Redemption of Class A Common Stock.* In the event that a U.S. holder's Class A common stock is redeemed pursuant to the redemption provisions described in this prospectus under the section of this prospectus entitled "Description of Securities — Common Stock" or if we purchase a U.S. holder's Class A common stock in an open market transaction, the treatment of the transaction for U.S. federal income tax purposes will depend on whether the redemption qualifies as a sale of the Class A common stock under Section 302 of the Code. If the redemption qualifies as a sale of the Class A common stock, the U.S. holder will be treated as described under "U.S. Holders — Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants" above. If the redemption does not qualify as a sale of the Class A common stock, the U.S. holder will be treated as receiving a corporate distribution with the tax consequences described above under "U.S. Holders — Taxation of Distributions". Whether a redemption qualifies for sale treatment will depend largely on the total number of shares of our stock treated

as held by the U.S. holder (including any stock constructively owned by the U.S. holder as a result of owning warrants) relative to all of our shares outstanding both before and after the redemption. The redemption of Class A common stock generally will be treated as a sale of the Class A common stock (rather than as a corporate distribution) if the redemption (i) is “substantially disproportionate” with respect to the U.S. holder, (ii) results in a “complete termination” of the U.S. holder’s interest in us or (iii) is “not essentially equivalent to a dividend” with respect to the U.S. holder. These tests are explained more fully below.

In determining whether any of the foregoing tests are satisfied, a U.S. holder takes into account not only stock actually owned by the U.S. holder, but also shares of our stock that are constructively owned by it. A U.S. holder may constructively own, in addition to stock owned directly, stock owned by certain related individuals and entities in which the U.S. holder has an interest or that have an interest in such U.S. holder, as well as any stock the U.S. holder has a right to acquire by exercise of an option, which would generally include Class A common stock which could be acquired pursuant to the exercise of the warrants. In order to meet the substantially disproportionate test, the percentage of our outstanding voting stock actually and constructively owned by the U.S. holder immediately following the redemption of Class A common stock must, among other requirements, be less than 80% of the percentage of our outstanding voting stock actually and constructively owned by the U.S. holder immediately before the redemption. There will be a complete termination of a U.S. holder’s interest if either (i) all of the shares of our stock actually and constructively owned by the U.S. holder are redeemed or (ii) all of the shares of our stock actually owned by the U.S. holder are redeemed and the U.S. holder is eligible to waive, and effectively waives in accordance with specific rules, the attribution of stock owned by certain family members and the U.S. holder does not constructively own any other shares of our stock. The redemption of the Class A common stock will not be essentially equivalent to a dividend if the redemption results in a “meaningful reduction” of the U.S. holder’s proportionate interest in us. Whether the redemption will result in a meaningful reduction in a U.S. holder’s proportionate interest in us will depend on the particular facts and circumstances. However, the IRS has indicated in a published ruling that even a small reduction in the proportionate interest of a small minority stockholder in a publicly held corporation who exercises no control over corporate affairs may constitute such a “meaningful reduction.” A U.S. holder should consult with its own tax advisors as to the tax consequences of a redemption.

If none of the foregoing tests is satisfied, then the redemption will be treated as a corporate distribution and the tax effects will be as described under “U.S. Holders — Taxation of Distributions,” above. After the application of those rules, any remaining tax basis of the U.S. holder in the redeemed Class A common stock will be added to the U.S. holder’s adjusted tax basis in its remaining stock, or, if it has none, to the U.S. holder’s adjusted tax basis in its warrants or possibly in other stock constructively owned by it.

*Exercise or Lapse of a Warrant.* Except as discussed below with respect to the cashless exercise of a warrant, a U.S. holder generally will not recognize taxable gain or loss on the acquisition of common stock upon exercise of a warrant for cash. The U.S. holder’s tax basis in the share of our Class A common stock received upon exercise of the warrant generally will be an amount equal to the sum of the U.S. holder’s initial investment in the warrant (i.e., the portion of the U.S. holder’s purchase price for a unit that is allocated to the warrant, as described above under “— Allocation of Purchase Price and Characterization of a Unit”) and the exercise price. It is unclear whether the U.S. holder’s holding period for the Class A common stock received upon exercise of the warrants will begin on the date following the date of exercise or on the date of exercise of the warrants; in either case, the holding period will not include the period during which the U.S. holder held the warrants. If a warrant is allowed to lapse unexercised, a U.S. holder generally will recognize a capital loss equal to such holder’s tax basis in the warrant.

The tax consequences of a cashless exercise of a warrant are not clear under current tax law. A cashless exercise may be tax-free, either because the exercise is not a realization event or because the exercise is treated as a recapitalization for U.S. federal income tax purposes. In either tax-free situation, a U.S. holder’s basis in the Class A common stock received would equal the holder’s basis in the warrants exercised therefor. If the cashless exercise were treated as not being a realization event, it is unclear whether a U.S. holder’s holding period in the Class A common stock would be treated as commencing on the date following the date of exercise or on the date of exercise of the warrant. If the cashless exercise were treated as a recapitalization, the holding period of the Class A common stock would include the holding period of the warrants exercised therefor.

It is also possible that a cashless exercise could be treated in whole or in part as a taxable exchange in which gain or loss would be recognized. In such event, a U.S. holder could be deemed to have surrendered a number of warrants having an aggregate fair market value equal to the exercise price for the total number of warrants to be exercised. The

U.S. holder would recognize capital gain or loss in an amount equal to the difference between the fair market value of the Class A common stock received in respect of the warrants deemed surrendered and the U.S. holder's tax basis in the warrants deemed surrendered. In this case, a U.S. holder's tax basis in the Class A common stock received would equal the sum of the U.S. holder's initial investment in the warrants exercised (i.e., the portion of the U.S. holder's purchase price for a unit that is allocated to the warrant, as described above under "— Allocation of Purchase Price and Characterization of a Unit") and the exercise price of such warrants. It is unclear whether a U.S. holder's holding period for the Class A common stock would commence on the date following the date of exercise or on the date of exercise of the warrant; in either case, the holding period would not include the period during which the U.S. holder held the warrant.

Due to the absence of authority on the U.S. federal income tax treatment of a cashless exercise, including when a U.S. holder's holding period would commence with respect to the Class A common stock received, there can be no assurance which, if any, of the alternative tax consequences and holding periods described above would be adopted by the IRS or a court of law. Accordingly, U.S. holders should consult their tax advisors regarding the tax consequences of a cashless exercise.

*Possible Constructive Distributions.* The terms of each warrant provide for an adjustment to the number of shares of Class A common stock for which the warrant may be exercised or to the exercise price of the warrant in certain events, as discussed in the section of this prospectus entitled "Description of Securities — Redeemable Warrants — Public Stockholders' Warrants." An adjustment which has the effect of preventing dilution generally is not taxable. U.S. holders of the warrants would, however, be treated as receiving a constructive distribution from us if, for example, the adjustment to the number of such shares or to such exercise price increases the warrantholders' proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of shares of Class A common stock that would be obtained upon exercise or through a decrease in the exercise price of the warrant) as a result of a distribution of cash or other property, such as other securities, to the holders of shares of our Class A common stock, or as a result of the issuance of a stock dividend to holders of shares of our Class A common stock, in each case which is taxable to the holders of such shares as a distribution. Such constructive distribution would be subject to tax in the same manner as if the U.S. holders of the warrants received a cash distribution from us equal to the fair market value of such increased interest resulting from the adjustment.

#### **Non-U.S. Holders**

This section applies to you if you are a "Non-U.S. holder." As used herein, the term "Non-U.S. holder" means a beneficial owner of our units, Class A common stock or warrants who or that is for U.S. federal income tax purposes:

- a non-resident alien individual (other than certain former citizens and residents of the United States subject to U.S. tax as expatriates);
- a foreign corporation or
- an estate or trust that is not a U.S. holder;

but generally does not include an individual who is present in the United States for 183 days or more in the taxable year of disposition. If you are such an individual, you should consult your tax advisor regarding the U.S. federal income tax consequences of the acquisition, ownership or sale or other disposition of our securities.

*Taxation of Distributions.* In general, any distributions (including constructive distributions) we make to a Non-U.S. holder of shares of our Class A common stock, to the extent paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles), will constitute dividends for U.S. federal income tax purposes and, provided such dividends are not effectively connected with the Non-U.S. holder's conduct of a trade or business within the United States, we will be required to withhold tax from the gross amount of the dividend at a rate of 30%, unless such Non-U.S. holder is eligible for a reduced rate of withholding tax under an applicable income tax treaty and provides proper certification of its eligibility for such reduced rate (usually on an IRS Form W-8BEN or W-8BEN-E). In the case of any constructive dividend, it is possible that this tax would be withheld from any amount owed to a Non-U.S. holder by the applicable withholding agent, including cash distributions on other property or sales proceeds from warrants or other property subsequently paid or credited to such holder. Any distribution not constituting a dividend will be treated first as reducing (but not below zero) the Non-U.S. holder's adjusted tax basis in its shares of our Class A common stock and, to the extent such distribution exceeds the Non-U.S. holder's adjusted tax basis, as gain realized from the sale or other disposition of the Class A

common stock, which will be treated as described under “Non-U.S. Holders — Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants” below. In addition, if we determine that we are classified as a “United States real property holding corporation” (see “Non-U.S. Holders — Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants” below), we will withhold 15% of any distribution that exceeds our current and accumulated earnings and profits.

Dividends we pay to a Non-U.S. holder that are effectively connected with the Non-U.S. holder’s conduct of a trade or business within the United States (or if a tax treaty applies are attributable to a United States permanent establishment or fixed base maintained by the Non-U.S. holder) will generally not be subject to U.S. withholding tax, provided such Non-U.S. holder complies with certain certification and disclosure requirements (usually by providing an applicable IRS Form W-8). Instead, such dividends will generally be subject to U.S. federal income tax as if the Non-U.S. holder were a United States resident, subject to an applicable tax treaty providing otherwise. A Non-U.S. corporation receiving effectively connected dividends may also be subject to an additional “branch profits tax” imposed at a rate of 30% (or a lower treaty rate). *Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants.* A Non-U.S. holder generally will not be subject to U.S. federal income or withholding tax in respect of gain realized on a sale, taxable exchange or other taxable disposition of our Class A common stock, which would include a dissolution and liquidation in the event we do not complete an initial business combination within 24 months from the closing of this offering, or warrants (including an expiration or redemption of our warrants), in each case without regard to whether those securities were held as part of a unit, unless:

- the gain is effectively connected with the conduct of a trade or business by the Non-U.S. holder within the United States (and, under certain tax treaties, is attributable to a United States permanent establishment or fixed base maintained by the Non-U.S. holder); or
- we are or have been a “United States real property holding corporation” for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of disposition or the period that the Non-U.S. holder held our Class A common stock, and, in the case where shares of our Class A common stock are regularly traded on an established securities market, the Non-U.S. holder has owned, directly or constructively, more than 5% of our Class A common stock at any time within the shorter of the five-year period preceding the disposition or such Non-U.S. holder’s holding period for the shares of our Class A common stock. There can be no assurance that our Class A common stock will be treated as regularly traded on an established securities market for this purpose.

Unless an applicable treaty provides otherwise, gain described in the first bullet point above will be subject to tax at generally applicable U.S. federal income tax rates as if the Non-U.S. holder were a United States resident. Any gains described in the first bullet point above of a Non-U.S. holder that is a foreign corporation may also be subject to an additional “branch profits tax” at a 30% rate (or lower treaty rate).

If the second bullet point above applies to a Non-U.S. holder, gain recognized by such holder on the sale, exchange or other disposition of our Class A common stock or warrants will be subject to tax at generally applicable U.S. federal income tax rates. In addition, a buyer of our Class A common stock or warrants from such holder may be required to withhold U.S. federal income tax at a rate of 15% of the amount realized upon such disposition. We cannot determine whether we will be a United States real property holding corporation in the future until we complete an initial business combination. We will be classified as a United States real property holding corporation if the fair market value of our “United States real property interests” equals or exceeds 50 percent of the sum of the fair market value of our worldwide real property interests plus our other assets used or held for use in a trade or business, as determined for U.S. federal income tax purposes.

*Redemption of Class A Common Stock.* The characterization for U.S. federal income tax purposes of the redemption of a Non-U.S. holder’s Class A common stock generally will correspond to the U.S. federal income tax characterization of such a redemption of a U.S. holder’s Class A common stock, as described under “U.S. Holders — Redemption of Class A Common Stock” above, and the consequences of the redemption to the Non-U.S. holder will be as described above under “Non-U.S. Holders — Taxation of Distributions” and “Non-U.S. Holders — Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants,” as applicable.

*Exercise of a Warrant.* The U.S. federal income tax treatment of a Non-U.S. holder’s exercise of a warrant, or the lapse of a warrant held by a Non-U.S. holder, generally will correspond to the U.S. federal income tax treatment of the exercise or lapse of a warrant by a U.S. holder, as described under “U.S. holders — Exercise or Lapse of a

Warrant” above, although to the extent a cashless exercise results in a taxable exchange, the consequences would be similar to those described below in “Non-U.S. Holders — Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants.”

*Possible Constructive Distributions.* The terms of each warrant provide for an adjustment to the number of shares of Class A common stock for which the warrant may be exercised or to the exercise price of the warrant in certain events, as discussed in the section of this prospectus entitled “Description of Securities — Redeemable Warrants — Public Stockholders’ Warrants.” An adjustment which has the effect of preventing dilution generally is not taxable. Non-U.S. holders of the warrants would, however, be treated as receiving a constructive distribution from us if, for example, the adjustment to the number of such shares or to such exercise price increases the warrantholders’ proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of shares of Class A common stock that would be obtained upon exercise or through a decrease in the exercise price of the warrant) as a result of a distribution of cash or other property, such as other securities, to the holders of shares of our Class A common stock, or as a result of the issuance of a stock dividend to holders of shares of our Class A common stock, in each case which is taxable to the holders of such shares as a distribution. Such constructive distribution would be subject to tax in the same manner as if the Non-U.S. holders of the warrants received a cash distribution from us equal to the fair market value of such increased interest resulting from the adjustment.

*Information Reporting and Backup Withholding.* Information returns will be filed with the IRS in connection with payments of dividends and the proceeds from a sale or other disposition of our units, shares of Class A common stock and warrants. A Non-U.S. holder may have to comply with certification procedures to establish that it is not a United States person in order to avoid information reporting and backup withholding requirements. The certification procedures required to claim a reduced rate of withholding under a treaty generally will satisfy the certification requirements necessary to avoid the backup withholding as well.

Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a Non-U.S. holder will be allowed as a credit against such holder’s U.S. federal income tax liability and may entitle such holder to a refund, provided that the required information is timely furnished to the IRS.

All Non-U.S. holders should consult their tax advisors regarding the application of information reporting and backup withholding to them.

*FATCA Withholding Taxes.* Sections 1471 through 1474 of the Code and the Treasury Regulations and administrative guidance promulgated thereunder (commonly referred as the “Foreign Account Tax Compliance Act” or “FATCA”) generally impose withholding at a rate of 30% in certain circumstances on dividends in respect of our securities which are held by or through certain foreign financial institutions (including investment funds), unless any such institution (1) enters into, and complies with, an agreement with the IRS to report, on an annual basis, information with respect to interests in, and accounts maintained by, the institution that are owned by certain U.S. persons and by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments, or (2) if required under an intergovernmental agreement between the United States and an applicable foreign country, reports such information to its local tax authority, which will exchange such information with the U.S. authorities. An intergovernmental agreement between the United States and an applicable foreign country may modify these requirements. Accordingly, the entity through which our securities are held will affect the determination of whether such withholding is required. Similarly, dividends in respect of our securities held by an investor that is a non-financial non-U.S. entity that does not qualify under certain exceptions will generally be subject to withholding at a rate of 30%, unless such entity either (1) certifies to us or the applicable withholding agent that such entity does not have any “substantial United States owners” or (2) provides certain information regarding the entity’s “substantial United States owners,” which will in turn be provided to the U.S. Department of Treasury. All prospective investors should consult their tax advisors regarding the possible implications of FATCA on their investment in our securities.

## UNDERWRITING

Subject to the terms and conditions of the underwriting agreement, the underwriters named below, through their representative, Stifel, Nicolaus & Company, Incorporated have severally agreed to purchase from us on a firm commitment basis the following respective number of units at a public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus. The underwriters may sell units to the public through one or more of their affiliates or selling agents.

Underwriter	Number of Units
Stifel, Nicolaus & Company, Incorporated	13,500,000
I-Bankers Securities, Inc.	1,500,000
Total	15,000,000

The underwriting agreement provides that the obligations of the underwriters to purchase the units included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all of the units (other than those covered by the over-allotment option described below) if they purchase any of the units.

Units sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus. Any units sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price not to exceed \$0.10 per unit. After the initial offering of the units, the offering price and other selling terms may from time to time be varied by the underwriters.

If the underwriters sell more units than the total number set forth on the cover page of this prospectus, we have granted to the underwriters an option, exercisable for 45 days from the date of this prospectus, to purchase up to 2,250,000 additional units at the public offering price. The underwriters may exercise this option solely for the purpose of covering over-allotments, if any, in connection with this offering. To the extent the option is exercised, each underwriter must purchase a number of additional units approximately proportionate to that underwriter's initial purchase commitment. Any units issued or sold under the option will be issued and sold on the same terms and conditions as the other units that are the subject of this offering.

We, our sponsor, officers, directors, special advisor and an employee of an affiliate of our sponsor have agreed that, for a period of 180 days from the date of this prospectus, we and they will not, without the prior written consent of Stifel, Nicolaus & Company, Incorporated, as the representative of the underwriters, offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any units, warrants, shares of common stock or any other securities convertible into, or exercisable, or exchangeable for, shares of common stock subject to certain exceptions. Stifel, Nicolaus & Company, Incorporated, as the representative of the underwriters, in its sole discretion may release any of the securities subject to these lock-up agreements at any time without notice.

Our initial stockholders have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of: (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last reported sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property (except as described herein under the section of this prospectus entitled "Principal Stockholders — Restrictions on Transfers of Founder Shares and Private Placement Warrants"). Any permitted transferees will be subject to the same restrictions of our initial stockholders with respect to any founder shares. We refer to such transfer restrictions throughout this prospectus as the lock-up.

The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable by our sponsor or the anchor investors (as applicable) until 30 days after the completion of our initial business combination (except with respect to permitted transferees as described herein under "Principal Stockholders — Restrictions on Transfers of Founder Shares and Private Placement Warrants").

Prior to this offering, there has been no public market for our securities. Consequently, the initial public offering price for the units was determined by negotiations between us and the underwriters.

The determination of our per unit offering price was more arbitrary than would typically be the case if we were an operating company. Among the factors considered in determining the initial public offering price were the history and prospects of companies whose principal business is the acquisition of other companies, prior offerings of those companies, our management, our capital structure, and currently prevailing general conditions in equity securities markets, including current market valuations of publicly traded companies considered comparable to our company. We cannot assure you, however, that the price at which the units, Class A common stock or warrants will sell in the public market after this offering will not be lower than the initial public offering price or that an active trading market in our units, Class A common stock or warrants will develop and continue after this offering.

Our units will be listed on Nasdaq under the symbol “NHICU” and, once the Class A common stock and warrants begin separate trading, our Class A common stock and warrants will be listed on Nasdaq under the symbols “NHIC” and “NHICW”, respectively.

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering. These amounts are shown assuming both no exercise and full exercise of the underwriters’ over-allotment option.

	Paid by NewHold Investment Corp.	
	No Exercise	Full Exercise
Per Unit <sup>(1)</sup>	\$ 0.20	\$ 0.20
Total <sup>(1)</sup>	\$ 3,000,000	\$ 3,450,000

(1) \$0.20 per unit, or \$3,000,000 in the aggregate (or \$3,450,000 in the aggregate if the underwriters’ option to purchase additional units is exercised in full), is payable upon the closing of this offering. \$0.35 per unit, or \$5,250,000 in the aggregate (or \$6,037,500 in the aggregate if the underwriters’ option to purchase additional units is exercised in full) payable to the underwriters for deferred underwriting commissions will be placed in a trust account located in the United States as described herein. The deferred commissions will be released to the underwriters only upon and concurrently with completion of our initial business combination.

In addition, we have agreed to pay for the FINRA-related fees and expenses of the underwriters’ legal counsel (excluding blue sky fees and expenses), in an amount not to exceed \$50,000, and the fees, expenses and disbursements relating to background checks of the Company’s directors and management team (which fees, expenses and disbursements shall not exceed \$25,000).

If we do not complete our initial business combination within 24 months from the closing of this offering, we and the underwriters have agreed that: (i) they will forfeit any rights or claims to their deferred underwriting discounts and commissions, including any accrued interest thereon, then in the trust account; and (ii) the deferred underwriters’ discounts and commissions will be distributed on a pro rata basis, together with any accrued interest thereon (which interest shall be net of taxes payable) to the public stockholders.

In connection with the offering, the underwriters may purchase and sell units in the open market. Purchases and sales in the open market may include short sales, purchases to cover short positions, which may include purchases pursuant to the over-allotment option, and stabilizing purchases.

- Short sales involve secondary market sales by the underwriters of a greater number of shares than they are required to purchase in the offering.
- “Covered” short sales are sales of units in an amount up to the number of units represented by the underwriters’ over-allotment option.
- “Naked” short sales are sales of units in an amount in excess of the number of units represented by the underwriters’ over-allotment option.
- Covering transactions involve purchases of units either pursuant to the over-allotment option or in the open market after the distribution has been completed in order to cover short positions.
- To close a naked short position, the underwriters must purchase shares in the open market after the distribution has been completed. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the units in the open market after pricing that could adversely affect investors who purchase in the offering.

- To close a covered short position, the underwriters must purchase units in the open market after the distribution has been completed or must exercise the over-allotment option. In determining the source of shares to close the covered short position, the underwriter will consider, among other things, the price of units available for purchase in the open market as compared to the price at which they may purchase units through the over-allotment option.
- Stabilizing transactions involve bids to purchase units so long as the stabilizing bids do not exceed a specified maximum.

Purchases to cover short positions and stabilizing purchases, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the units. They may also cause the price of the units to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our portion of the total expenses of this offering payable by us will be \$750,000, excluding underwriting discounts and commissions.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

We are not under any contractual obligation to engage any of the underwriters to provide any services for us after this offering, and have no present intent to do so. However, any of the underwriters may introduce us to potential target businesses or assist us in raising additional capital in the future. If any of the underwriters provide services to us after this offering, we may pay such underwriter fair and reasonable fees that would be determined at that time in an arm's length negotiation; provided that no agreement will be entered into with any of the underwriters and no fees for such services will be paid to any of the underwriters prior to the date that is 90 days from the effective date of the registration statement of which this prospectus forms a part, unless FINRA determines that such payment would not be deemed underwriters' compensation in connection with this offering and we may pay the underwriters of this offering or any entity with which they are affiliated a finder's fee or other compensation for services rendered to us in connection with the completion of a business combination.

The underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

## **Selling Restrictions**

### ***Notice to Prospective Investors in Canada***

The securities may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 *Prospectus Exemptions* or subsection 73.3(1) of the *Securities Act* (Ontario), and are permitted clients, as defined in National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*. Any resale of the securities must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the

securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 *Underwriting Conflicts* ("NI 33-105"), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

***Notice to Prospective Investors in Australia***

This prospectus is not a disclosure document for the purposes of Australia's Corporations Act 2001 (Cth) ("Corporations Act"), has not been lodged with the Australian Securities & Investments Commission and is only directed to the categories of exempt persons set out below. Accordingly, if you receive this prospectus in Australia:

You confirm and warrant that you are either:

- a "sophisticated investor" under section 708(8)(a) or (b) of the Corporations Act;
- a "sophisticated investor" under section 708(8)(c) or (d) of the Corporations Act and that you have provided an accountant's certificate to the Company which complies with the requirements of section 708(8)(e)(i) or (ii) of the Corporations Act and related regulations before the offer has been made;
- a person associated with the Company under Section 708(12) of the Corporations Act; or
- a "professional investor" within the meaning of section 708(11)(a) or (b) of the Corporations Act, to whom an offer of securities may be made without a disclosure document (as defined in the Corporations Act).

You further warrant and agree that you will not offer any of the securities issued to you pursuant to this prospectus for resale in Australia within 12 months of those securities being issued unless any such resale offer is exempt from the requirement to issue a disclosure document under section 708 of the Corporations Act.

To the extent that you are unable to confirm or warrant that you are an exempt sophisticated investor, associated person or professional investor under the Corporations Act and/or warrant and agree that you will comply with the 12 month on-sale restrictions, any offer made to you under this prospectus is void and incapable of acceptance.

The information contained in this prospectus is not investment or financial product advice (nor tax, accounting or legal advice). The Company makes no recommendations as to whether you should participate in the offering. In preparing this prospectus, the Company has not taken into account the individual objectives, financial situation or needs of individual investors. Accordingly, before making an investment decision, you may wish to consult with your legal, financial, tax or other professional adviser.

***Selling Restrictions with Respect to the European Economic Area and United Kingdom***

In relation to each Relevant State, no offer of our securities which are the subject of the offering contemplated by this prospectus to the public may be made in that Relevant State other than:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (b) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), subject to obtaining the prior consent of the relevant underwriter or underwriters nominated by us for any such offer; or
- (c) in any other circumstances falling within Article 1(4) of the Prospectus Regulation, provided that no such offer of our securities shall require us or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Regulation.

For the purposes of this provision, the expression an "offer of our securities to the public" in relation to our securities in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and our securities to be offered so as to enable an investor to decide to purchase or subscribe for our securities.

This EEA and UK selling restriction is in addition to any other selling restrictions set out below.

***Notice to Prospective Investors in Hong Kong***

No securities have been offered or sold, and no securities may be offered or sold, in Hong Kong, by means of any document, other than (a) to “professional investors” as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong (“SFO”) and any rules made under the SFO; or (b) in other circumstances which do not result in the document being a “prospectus” as defined in the Companies Ordinance (Winding Up and Miscellaneous Provisions Ordinance (Cap. 32) of Hong Kong (the “C(WUMP)O”) or which do not constitute an offer to the public within the meaning of the C(WUMP)O. No document, invitation or advertisement relating to the securities has been issued or may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted under the securities laws of Hong Kong) other than with respect to securities which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the SFO and any rules made under that Ordinance.

This prospectus has not been registered with the Registrar of Companies in Hong Kong. Accordingly, this prospectus may not be issued, circulated or distributed in Hong Kong, and the securities may not be offered for subscription to members of the public in Hong Kong. Each person acquiring the securities will be required, and is deemed by the acquisition of the securities, to confirm that he is aware of the restriction on offers of the securities described in this prospectus and the relevant offering documents and that he is not acquiring, and has not been offered any securities in circumstances that contravene any such restrictions.

***Notice to Prospective Investors in Israel***

This document does not constitute a prospectus under the Israeli Securities Law, 5728-1968, or the Israeli Securities Law, and has not been filed with or approved by the Israel Securities Authority. In Israel, this prospectus is being distributed only to, and is directed only at, and any offer of the units is directed only at, (i) a limited number of persons in accordance with the Israeli Securities Law and (ii) investors listed in the first addendum, or the Addendum, to the Israeli Securities Law, consisting primarily of joint investment in trust funds, provident funds, insurance companies, banks, portfolio managers, investment advisors, members of the Tel Aviv Stock Exchange, underwriters, venture capital funds, entities with equity in excess of NIS 50 million and “qualified individuals,” each as defined in the Addendum (as it may be amended from time to time), collectively referred to as qualified investors (in each case, purchasing for their own account or, where permitted under the Addendum, for the accounts of their clients who are investors listed in the Addendum). Qualified investors are required to submit written confirmation that they fall within the scope of the Addendum, are aware of the meaning of same and agree to it.

***Notice to Prospective Investors in Japan***

The offering has not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948 of Japan, as amended), or FIEL, and accordingly the Initial Purchaser has not offered or sold and will not offer or sell any securities, directly or indirectly, in Japan or to, or for the account or benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to, or for the account or benefit of, others for re-offering or resale, directly or indirectly, in Japan or to, or for the account or benefit of, any resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEL and any other applicable laws, regulations and ministerial guidelines of Japan.

***Notice to Prospective Investors in Singapore***

This prospectus has not been and will not be lodged or registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the securities may not be circulated or distributed, nor may the securities be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”), (ii) to a relevant person pursuant to Section 275(1), or any person pursuant

to Section 275(1A), and in accordance with the conditions specified in Section 275, of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the securities are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

- a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

securities (as defined in Section 239(1) of the SFA) of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the securities pursuant to an offer made under Section 275 of the SFA except:

- to an institutional investor or to a relevant person defined in Section 275(2) of the SFA, or to any person arising from an offer referred to in Section 275(1A) or Section 276(4)(i)(B) of the SFA;
- where no consideration is or will be given for the transfer;
- where the transfer is by operation of law;
- as specified in Section 276(7) of the SFA; or
- as specified in Regulation 32 of the Securities and Futures (Offers of Investments) (Shares and Debentures) Regulations 2005 of Singapore.

#### ***Notice to Prospective Investors in Switzerland***

This prospectus is not intended to constitute an offer or solicitation to purchase or invest in the units in Switzerland. The units offered hereby may not be publicly offered, directly or indirectly, in Switzerland within the meaning of the Swiss Financial Services Act ("FinSA") and no application has or will be made to admit the units to trading on any trading venue (exchange or multilateral trading facility) in Switzerland. Neither this prospectus nor any other offering or marketing material relating to the units constitutes a prospectus pursuant to the FinSA, and neither this prospectus nor any other offering or marketing material relating to the units may be publicly distributed or otherwise made publicly available in Switzerland.

#### ***Notice to Prospective Investors in the United Kingdom***

Any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the United Kingdom's Financial Services and Markets Act 2000, as amended (the "FSMA")) in connection with the issue or sale of our securities may only be communicated or caused to be communicated in circumstances in which Section 21(1) of the FSMA does not apply to us.

All applicable provisions of the FSMA must be complied with in respect to anything done by any person in relation to our securities in, from or otherwise involving the UK.

## LEGAL MATTERS

Loeb & Loeb LLP, New York, New York, has passed upon the validity of the securities offered hereby on behalf of us. Certain legal matters will be passed upon on behalf of the underwriters by Sidley Austin LLP, Chicago, Illinois.

## EXPERTS

The financial statements of NewHold Investment Corp. as of February 29, 2020, and for the period from January 24, 2020 (date of inception) to February 29, 2020, have been audited by WithumSmith+Brown, PC, independent registered public accounting firm, as set forth in their report, thereon appearing elsewhere in this prospectus, and are included in reliance on the report of such firm given upon their authority as experts in accounting and auditing.

## WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form S-1 under the Securities Act with respect to the securities we are offering by this prospectus. This prospectus does not contain all of the information included in the registration statement. For further information about us and our securities, you should refer to the registration statement and the exhibits and schedules filed with the registration statement. Whenever we make reference in this prospectus to any of our contracts, agreements or other documents, the references are materially complete but may not include a description of all aspects of such contracts, agreements or other documents, and you should refer to the exhibits attached to the registration statement for copies of the actual contract, agreement or other document.

Upon completion of this offering, we will be subject to the information requirements of the Exchange Act and will file annual, quarterly and current event reports, proxy statements and other information with the SEC. You can read our SEC filings, including the registration statement, over the Internet at the SEC's website at [www.sec.gov](http://www.sec.gov).

## Report of Independent Registered Public Accounting Firm

To the Stockholder and the Board of Directors of  
NewHold Investment Corp.

### Opinion on the Financial Statements

We have audited the accompanying balance sheet of NewHold Investment Corp. (the “Company”) as of February 29, 2020, and the related statements of operations, changes in stockholder’s equity and cash flows for the period from January 24, 2020 (date of inception) to February 29, 2020, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of February 29, 2020, and the results of its operations and its cash flows for the period from January 24, 2020 (date of inception) through February 29, 2020, in conformity with accounting principles generally accepted in the United States of America.

### Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

/s/ WithumSmith+Brown, PC

We have served as the Company’s auditor since 2020.  
New York, NY

**NOTE 1 — DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS**

*Organization and General:*

NewHold Investment Corp. (the “Company”) was incorporated in Delaware on January 24, 2020 as NewHold Industrial Corp. and on February 14, 2020 changed its name to NewHold Investment Corp. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (a “Business Combination”). The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended, or the “Securities Act,” as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”).

At June 30, 2020 (unaudited) and February 29, 2020, the Company had not commenced any operations. All activity for the period from January 24, 2020 (date of inception) to June 30, 2020 (unaudited) and to February 29, 2020 relates to the Company’s formation and the proposed initial public offering (“Proposed Offering”) described below. The Company will not generate any operating revenues until after completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income on cash and cash equivalents from the proceeds derived from the Proposed Offering. The Company has selected December 31<sup>st</sup> as its fiscal year end. All dollar amounts are rounded to the nearest thousand dollars.

*Sponsor and Proposed Financing:*

The Company’s sponsor is NewHold Industrial Technology Holdings LLC, a Delaware limited liability company (the “Sponsor”). The Company intends to finance a Business Combination with proceeds from the \$150,000,000 Proposed Offering (Note 3) and a \$5,250,000 private placement (Note 4). Upon the closing of the Proposed Offering and the private placement, \$150,000,000 (or \$172,500,000 if the underwriters’ over-allotment option is exercised in full — Note 3) will be held in a trust account (the “Trust Account”).

*The Trust Account:*

The funds in the Trust Account will be invested only in U.S. government treasury bills with a maturity of one hundred and eighty five (185) days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act of 1940 which invest only in direct U.S. government obligations. Funds will remain in the Trust Account until the earlier of (i) the consummation of its initial Business Combination or (ii) the distribution of the Trust Account as described below. The remaining funds outside the Trust Account may be used to pay for business, legal and accounting due diligence on prospective acquisition targets and continuing general and administrative expenses.

The Company’s amended and restated certificate of incorporation provides that, other than the withdrawal of interest to pay tax obligations and up to \$250,000 per year for working capital purposes, if any, (less up to \$100,000 of interest to pay dissolution expenses), none of the funds held in the Trust Account will be released until the earliest of: (a) the completion of the initial Business Combination, (b) the redemption of any public shares properly submitted in connection with a stockholder vote to amend the Company’s amended and restated certificate of incorporation (i) to modify the substance or timing of the ability of holders of the public shares to seek redemption in connection with our initial business combination or the Company’s obligation to redeem 100% of the public shares if the Company does not complete the initial Business Combination within 24 months from the closing of the Proposed Offering or (ii) with respect to any other provision relating to stockholders’ rights or pre-Business Combination activity, and (c) the redemption of the public shares if the Company is unable to complete the initial Business Combination within 24 months from the closing of the Proposed Offering, subject to applicable law. The proceeds deposited in the Trust Account could become subject to the claims of creditors, if any, which could have priority over the claims of the Company’s public stockholders.

*Business Combination:*

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Proposed Offering, although substantially all of the net proceeds of the Proposed Offering are intended to be generally applied toward consummating a Business Combination with a Target Business. As used herein, “Target

**NOTE 1 — DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS** (cont.)

Business” is one or more target businesses that together have a fair market value equal to at least 80% of the balance in the Trust Account (less deferred underwriting commissions and any taxes payable on interest earned) at the time of signing a definitive agreement in connection with the Company’s initial Business Combination. There is no assurance that the Company will be able to successfully effect a Business Combination.

The Company, after signing a definitive agreement for a Business Combination, will either (i) seek stockholder approval of the Business Combination at a meeting called for such purpose in connection with which stockholders may seek to redeem their shares, regardless of whether they vote for or against the Business Combination, for cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the initial Business Combination, including interest but less taxes payable and amounts released for working capital, or (ii) provide stockholders with the opportunity to have their shares redeemed by the Company by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount in cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the initial Business Combination, including interest but less taxes payable and amounts released to the Company for working capital. The decision as to whether the Company will seek stockholder approval of the Business Combination or will allow stockholders to sell their shares in a tender offer will be made by the Company, solely in its discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would otherwise require the Company to seek stockholder approval unless a vote is required by the rules of the Nasdaq Capital Market. If the Company seeks stockholder approval, it will complete its Business Combination only if a majority of the outstanding shares of Class A and Class B common stock voted are voted in favor of the Business Combination. However, in no event will the Company redeem its public shares in an amount that would cause its net tangible assets to be less than \$5,000,001 upon consummation of a Business Combination. In such case, the Company would not proceed with the redemption of its public shares and the related Business Combination, and instead may search for an alternate Business Combination.

If the Company holds a stockholder vote or there is a tender offer for shares in connection with a Business Combination, a public stockholder will have the right to redeem its shares for an amount in cash equal to its pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the initial Business Combination, including interest but less taxes payable and amounts released to the Company for working capital. As a result, such shares of Class A common stock will be recorded at redemption amount and classified as temporary equity upon the completion of the Proposed Offering, in accordance with FASB ASC 480, “Distinguishing Liabilities from Equity.” The amount in the Trust Account is initially anticipated to be \$10.00 per public common share (\$150,000,000 held in the Trust Account divided by 15,000,000 public shares, or \$172,500,000 held in the Trust Account divided by 17,250,000 public shares if the underwriters exercise their over-allotment option in full).

The Company will only have 24 months from the closing date of the Proposed Offering to complete its initial Business Combination. If the Company does not complete a Business Combination within this period of time, it shall (i) cease all operations except for the purposes of winding up; (ii) as promptly as reasonably possible, but not more than ten business days thereafter subject to lawfully available funds therefor, redeem 100% of the public shares of Class A common stock for a per share pro rata portion of the Trust Account, including interest, but less taxes payable and amounts released for working capital (less up to \$100,000 of such net interest to pay dissolution expenses) and (iii) as promptly as possible following such redemption, dissolve and liquidate the balance of the Company’s net assets to its creditors and remaining stockholders, as part of its plan of dissolution and liquidation. The initial stockholders have entered into letter agreements with us, pursuant to which they have waived their rights to participate in any redemption with respect to their initial shares; however, if the initial stockholders or any of the Company’s officers, directors or affiliates acquire shares of Class A common stock in or after the Proposed Offering, they will be entitled to a pro rata share of the Trust Account upon the Company’s redemption or liquidation in the event the Company does not complete a Business Combination within 24 months from the closing of the Proposed Offering.

In the event of such distribution, it is possible that the per share value of the residual assets remaining available for distribution (including Trust Account assets) will be less than the price per Unit in the Proposed Offering.

**NEWHOLD INVESTMENT CORP.**  
**Notes to Financial Statements**

**NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Basis of Presentation:*

The financial statements of the Company are presented in U.S. dollars and have been prepared in conformity with accounting principles generally accepted in the United States of America. In connection with the Company's assessment of going concern considerations in accordance with ASU 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern", as of June 30, 2020 (unaudited) and February 29, 2020, management has determined that the Company's current liquidity including access to funds from the Sponsor (its sole stockholder, see Note 4) is sufficient to fund the working capital needs of the Company until the earlier of the consummation of the Proposed Offering or one year from the date of issuance of the audited financial statements.

*Emerging Growth Company*

Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when an accounting standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard.

*Net Loss Per Common Share:*

Net loss per common share is computed by dividing net loss applicable to common stockholders by the weighted average number of common shares outstanding during the period (after deducting 562,500 shares subject to forfeiture in connection with a Proposed Offering), plus to the extent dilutive the incremental number of shares of common stock to settle warrants, as calculated using the treasury stock method. At June 30, 2020 (unaudited) and February 29, 2020, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into common stock and then share in the earnings of the Company under the treasury stock method. As a result, diluted loss per common share is the same as basic loss per common share for the periods presented.

*Concentration of Credit Risk:*

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which at times, may exceed the Federal depository insurance coverage of \$250,000. The Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

*Financial Instruments:*

The fair value of the Company's assets and liabilities, which qualify as financial instruments under FASB ASC 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the balance sheets.

*Use of Estimates:*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

*Deferred Offering Costs:*

The Company complies with the requirements of the FASB ASC 340-10-S99-1 and SEC Staff Accounting Bulletin (SAB) Topic 5A — "Expenses of Offering". Deferred offering costs consist of legal, accounting,

**NEWHOLD INVESTMENT CORP.**  
**Notes to Financial Statements**

**NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (cont.)

underwriting fees and other costs incurred through the balance sheet date that are directly related to the Proposed Offering and that will be charged to stockholders' equity upon the completion of the Proposed Offering. Should the Proposed Offering prove to be unsuccessful, these deferred costs, as well as additional expenses to be incurred, will be charged to operations.

*Income Taxes:*

The Company follows the asset and liability method of accounting for income taxes under FASB ASC, 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

FASB ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of June 30, 2020 (unaudited) and February 29, 2020. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. No amounts were accrued for the payment of interest and penalties at June 30, 2020 (unaudited) and February 29, 2020. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception. The tax provision at February 29, 2020 and June 30, 2020 is considered de minimus.

*Accounting for Potential Warrant Adjustments:*

The Company accounts for potential adjustments of warrant exercise prices due to possible down round financings in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2017-11, Earnings Per Share (Topic 260), Distinguishing Liabilities from Equity (Topic 480) and Derivatives and Hedging (Topic 815): Part I. Accounting for Certain Financial Instruments with Down Round Features; Part II. Replacement of the Indefinite Deferral for Mandatorily Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatorily Redeemable Non-controlling Interests with a Scope Exception. Part I of this update addresses the complexity of accounting for certain financial instruments with down round features. Down round features are features of certain equity-linked instruments (or embedded features) that result in the strike price being reduced on the basis of the pricing of future equity offerings. Also, entities must adjust their basic Earnings Per Share ("EPS") calculation for the effect of the down round provision when triggered (that is, when the exercise price of the related equity-linked financial instrument is adjusted downward because of the down round feature). That effect is treated as a dividend and as a reduction of income available to common shareholders in basic EPS. The Company would also recognize the effect of the trigger within equity. The guidance became effective for fiscal years beginning after December 15, 2018. The adoption of this guidance enables the Company to record the warrants as equity instruments and is not expected to have a material impact on the Company's financial position, results of operations, cash flows or disclosures until a trigger event occurs.

*Recent Accounting Pronouncements:*

Management does not believe that any other recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company's financial statements.

*Commitments & Contingencies:*

**Risks and Uncertainties.** Management is currently evaluating the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or a search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**NEWHOLD INVESTMENT CORP.**  
**Notes to Financial Statements**

**NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (cont.)

*Subsequent Events:*

The Company evaluated subsequent events and transactions that occurred after February 29, 2020, the audited balance sheet date, through March 9, 2020, the date that the audited financial statements were available to be issued. The Company also evaluated subsequent events and transactions that occurred after June 30, 2020, the unaudited interim balance sheet date, up to July 27, 2020, the date the unaudited interim financial statements were available to be issued.

Subsequent to June 30, 2020, in July 2020, certain funds and accounts managed by Magnetar Financial LLC, UBS O'Connor LLC, and Mint Tower Capital Management B.V (collectively, the "Anchor Investors") agreed to purchase from the Company warrants and Founder Shares as described further in Note 4.

**NOTE 3 — PROPOSED PUBLIC OFFERING**

Pursuant to the Proposed Offering, the Company intends to offer for sale up to 15,000,000 units at a price of \$10.00 per unit (the "Units"). Each Unit consists of one share of the Company's Class A common stock, \$0.0001 par value and one-half of one redeemable warrant (the "Warrants"). Each whole Warrant offered in the Proposed Offering is exercisable to purchase one share of our Class A common stock for \$11.50 per share. Only whole Warrants may be exercised. Under the terms of a proposed warrant agreement, the Company has agreed to use its best efforts to file a new registration statement under the Securities Act, following the completion of the Company's initial Business Combination. No fractional shares will be issued upon exercise of the Warrants. If, upon exercise of the Warrants, a holder would be entitled to receive a fractional interest in a share, the Company will, upon exercise, round down to the nearest whole number the number of shares of Class A common stock to be issued to the Warrant holder. Each Warrant will become exercisable on the later of 30 days after the completion of the Company's initial Business Combination or 12 months from the closing of the Proposed Offering and will expire five years after the completion of the Company's initial Business Combination or earlier upon redemption or liquidation. However, if the Company does not complete its initial Business Combination on or prior to the 24-month period allotted to complete the Business Combination, the Warrants will expire at the end of such period. If the Company is unable to deliver registered shares of Class A common stock to the holder upon exercise of a Warrant during the exercise period, there will be no net cash settlement of these Warrants and the Warrants will expire worthless, unless they may be exercised on a cashless basis in the circumstances described in the warrant agreement. Once the Warrants become exercisable, the Company may redeem the outstanding Warrants in whole and not in part at a price of \$0.01 per Warrant upon a minimum of 30 days' prior written notice of redemption, only in the event that the last sale price of the Company's shares of Class A common stock equals or exceeds \$18.00 per share for any 20 trading days within the 30-trading day period ending on the third trading day before the Company sends the notice of redemption to the Warrant holders.

In addition, if the Company issues additional shares of Class A common stock or equity linked securities for capital raising purposes in connection with the closing of its initial Business Combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by the Company's board of directors and, in the case of any such issuance to the initial stockholders or their affiliates, without taking into account any Founder Shares held by them, as applicable, prior to such issuance) (the "newly issued price"), the exercise price of the Warrants and the Private Placement Warrants (as defined below) will be adjusted (to the nearest cent) to be equal to 115% of the newly issued price.

The Company expects to grant the underwriters a 45-day option to purchase up to 2,250,000 additional Units to cover any over-allotments, at the public offering price less underwriting discounts and commissions. The Warrants that would be issued in connection with 2,250,000 over-allotment units are identical to the public Warrants and have no net cash settlement provisions.

The Company expects to pay an underwriting discount of 2.0% of the per Unit price to the underwriters at the closing of the Proposed Offering (an aggregate fee of \$3,000,000 if the underwriter's overallotment option is not exercised).

**NEWHOLD INVESTMENT CORP.**  
**Notes to Financial Statements**

**NOTE 3 — PROPOSED PUBLIC OFFERING** (cont.)

In addition, the Company expects to pay an underwriting commission of 3.5% of the per Unit price to the underwriters (an aggregate of \$5,250,000 if the underwriters' overallotment option is not exercised), which commission will be deposited in the Trust Account at the closing of the Proposed Offering and will be released to the underwriters only upon and concurrently with completion of the Company's initial Business Combination.

**NOTE 4 — RELATED PARTY TRANSACTIONS**

*Founder Shares*

In February 2020, the Sponsor purchased 4,312,500 shares of Class B common stock (the "Founder Shares") for \$25,000, or approximately \$0.006 per share. Subsequent to June 30, 2020, in July 2020, (i) the sponsor transferred an aggregate of 867,500 founder shares, including to the following persons: (i) 32,500 founder shares to each of Marc Saiontz and Suzy Taherian, two of the Company's independent director nominees, (ii) 35,000 founder shares to each of Neil Glat and Brian Mathis, two of the Company's independent director nominees, (iii) 40,000 founder shares to Kathleen Harris, one of the Company's independent director nominees, (iv) 50,000 founder shares to Thomas Sullivan, one of the Company's independent director nominees, (v) 67,500 founder shares to Adam Deutsch, the Company's Chief Financial Officer, (vi) 100,000 founder shares to Charlie Baynes-Reid, the Company's Chief Operating Officer, (vii) 135,000 founder shares to each of Kevin Charlton and Charles Goldman, the Company's Chief Executive Officer and director, respectively, and (viii) 200,000 founder shares to Nick Petruska, the Company's special advisor; and (ii) the Sponsor forfeited 920,000 shares of Class B common stock and the Anchor Investors purchased 920,000 shares of Class B common stock from the Company for an aggregate purchase price of approximately \$5,333, or approximately \$0.006 per share resulting in the Company's initial stockholders holding an aggregate of 4,312,500 Founder Shares. The Founder Shares are identical to the Class A common stock included in the Units being sold in the Proposed Offering except that the Founder Shares automatically convert into shares of Class A common stock at the time of the initial Business Combination and are subject to certain transfer restrictions, as described in more detail below. The Sponsor and the Anchor Investor have agreed to forfeit up to 562,500 Founder Shares to the extent that the over-allotment option is not exercised in full or in part by the underwriters. The forfeiture will be adjusted to the extent of the exercise of the over-allotment option so that the initial stockholders will own 20.0% of the Company's issued and outstanding shares of common stock after the Proposed Offering. If the Company increases or decreases the size of the Proposed Offering pursuant to Rule 462(b) under the Securities Act, the Company will effect a stock dividend or share contribution back to capital, as applicable, immediately prior to the consummation of the Proposed Offering in such amount as to maintain the ownership of the initial stockholders at 20.0% of the Company's issued and outstanding shares of the Company's Class A and Class B common stock upon the consummation of the Proposed Offering.

The Company's initial stockholders have agreed not to transfer, assign or sell any of its Founder Shares until the earlier of (A) one year after the completion of the Company's initial Business Combination, or (B), subsequent to the Company's initial Business Combination, if (x) the last sale price of the Company's Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the Company's initial Business Combination or (y) the date on which the Company completes a liquidation, merger, stock exchange or other similar transaction after the initial Business Combination that results in all of the Company's stockholders having the right to exchange their shares of Class A common stock for cash, securities or other property.

*Private Placement Warrants*

The Sponsor and, subsequent to June 30, 2020 in July 2020, the Anchor Investors have agreed to purchase from the Company an aggregate of 5,250,000 warrants at a price of \$1.00 per warrant, a purchase price of \$5,250,000 (5,700,000 warrants at a purchase price of \$5,700,000 assuming the underwriter's overallotment option is exercised in full), in a private placement that will occur simultaneously with the completion of the Proposed

**NEWHOLD INVESTMENT CORP.**  
**Notes to Financial Statements**

**NOTE 4 — RELATED PARTY TRANSACTIONS (cont.)**

Offering (the “Private Placement Warrants”). Each Private Placement Warrant entitles the holder to purchase one share of Class A common stock at \$11.50 per share. The purchase price of the Private Placement Warrants will be added to the proceeds from the Proposed Offering to be held in the Trust Account pending completion of the Company’s initial Business Combination. The Private Placement Warrants (including the Class A common stock issuable upon exercise of the Private Placement Warrants) will not be transferable, assignable or salable until 30 days after the completion of the initial Business Combination and they will be non-redeemable so long as they are held by the Sponsor or the Anchor Investors or their permitted transferees. If the Private Placement Warrants are held by someone other than the Sponsor or the Anchor Investors or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the warrants included in the Units being sold in the Proposed Offering. Otherwise, the Private Placement Warrants have terms and provisions that are identical to those of the Warrants being sold as part of the Units in the Proposed Offering and have no net cash settlement provisions.

If the Company does not complete a Business Combination, then the proceeds from the sale of the Private Placement Warrants will be part of the liquidating distribution to the public stockholders and the Private Placement Warrants issued to the Sponsor will expire worthless.

*Registration Rights*

The Company’s initial stockholders and the holders of the Private Placement Warrants will be entitled to registration rights pursuant to a registration rights agreement to be signed on or before the date of the prospectus for the Proposed Offering. These holders will be entitled to make up to three demands, excluding short form registration demands, that the Company register such securities for sale under the Securities Act. In addition, these holders will have “piggy-back” registration rights to include their securities in other registration statements filed by the Company. The Company will bear the expenses incurred in connection with the filing of any such registration statements. There will be no penalties associated with delays in registering the securities under the proposed registration rights agreement.

*Related Party Loans*

In February 2020, the Sponsor agreed to loan the Company an aggregate of \$300,000 by drawdowns of not less than \$10,000 each against the issuance of an unsecured promissory note (the “Note”) to cover expenses related to the Proposed Offering. The Note is non-interest bearing and payable promptly after the earlier of the date on which the Company consummates the Proposed Offering and the date on which the Company determines not to conduct the Proposed Offering. As of June 30, 2020 (unaudited), the Company has drawn down approximately \$25,000 under the Note, including approximately \$3,000 for costs paid directly by the Sponsor. As of February 29, 2020, no drawdowns under the Note have been made by the Company.

*Administrative Support Agreement*

The Company has agreed to pay \$15,000 a month for office space, utilities and secretarial and administrative support to an affiliate of the Sponsor. Services will commence on the date the securities are first listed on the Nasdaq Capital Market and will terminate upon the earlier of the consummation by the Company of an initial Business Combination or the liquidation of the Company.

**NOTE 5 — STOCKHOLDER’S EQUITY**

*Common Stock*

The authorized common stock of the Company, as amended in February 2020, is 50,000,000 shares, including 45,000,000 shares of Class A common stock, par value, \$0.0001 and 5,000,000 shares of Class B common stock par value \$0.0001. Upon completion of the Proposed Offering, the Company may (depending on the terms of the Business Combination) be required to increase the authorized number of shares at the same time as its stockholders

**NEWHOLD INVESTMENT CORP.**  
**Notes to Financial Statements**

**NOTE 5 — STOCKHOLDER’S EQUITY** (cont.)

vote on the Business Combination to the extent the Company seeks stockholder approval in connection with its Business Combination. Holders of the Company’s Class A and Class B common stock vote together as a single class and are entitled to one vote for each share of Class A and Class B common stock. At June 30, 2020 (unaudited) and February 29, 2020, there were 4,312,500 shares of Class B common stock issued and outstanding, 562,500 of which are subject to forfeiture as described in Note 4, and no shares of Class A common stock issued or outstanding.

Subsequent to June 30, 2020, in July 2020, the Sponsor forfeited 920,000 shares of Class B common stock and the Anchor Investors purchased 920,000 shares of Class B common stock from the Company for an aggregate purchase price of approximately \$5,333, or approximately \$0.006 per share.

The Class B common shares are identical to the Class A common stock included in the Units being sold in the Proposed Offering except that the Class B common shares automatically convert into shares of Class A common stock at the time of the initial Business Combination and are subject to certain transfer restrictions, as described in more detail in Note 4.

*Preferred Stock*

The Company is authorized, as amended in March 2020, to issue 1,000,000 shares of preferred stock, par value \$0.0001 with such designations, voting and other rights and preferences as may be determined from time to time by the Company’s board of directors. At June 30, 2020 (unaudited) and February 29, 2020, there were no shares of preferred stock issued or outstanding.
